

Virtual Conference
Saturday, October 24, 2020, at 9 a.m.

COVID-19 & The San Gabriel Valley

Thank you to our sponsors

Our mission

Emanate Health exists to help people keep well in body, mind and spirit by providing quality health care services in a safe, compassionate environment.

Our Vision

We are an integral partner in elevating our communities' health.

Our Values

Patients and their families are the reason we are here. We want them to experience excellence in all we do through the quality of our services, our teamwork, and our commitment to a caring, safe and compassionate environment.

Respect. We affirm the rights, dignity, individuality and worth of each person we serve and of each other.

Excellence. We maintain an unrelenting drive for excellence, quality and safety, and strive to continually improve all that we do.

Compassion. We care for each person and each team member as part of our family.

Integrity. We believe in fairness and honesty and are guided by our code of ethics.

Stewardship. We wisely care for the human, physical and financial resources entrusted to us.

About Emanate Health

With almost 100 years serving the community, Emanate Health has grown to become the largest, nonprofit health care provider serving more than 1 million people in the San Gabriel Valley. Emanate Health provides leading care through our three hospitals, Inter-Community Hospital, Queen of the Valley Hospital, Foothill Presbyterian Hospital; Hospice and Home Care; and our network of more than 16 primary and specialty care locations. Emanate Health's brand of technologically-advanced, comprehensive health care service is possible only through the combined effort of our talented employees, physicians, volunteers and donors who make up the Emanate Health family.

Welcome

Thank you for joining us from the comfort of your home for this year's first-ever virtual conference. Whether you're on your laptop or desktop computer, tablet or mobile phone, your use of technology truly reflects how we communicate today.

The COVID-19 global pandemic has changed just about everything about our lives and the world we live in. This includes the delivery of health care services locally and across the country.

Emanate Health includes Inter-Community Hospital in Covina, Queen of the Valley Hospital in West Covina and Foothill Presbyterian Hospital in Glendora, Hospice and Home Care in Covina, along with 16 primary and specialty care centers located throughout in the region.

In our effort to provide factual, science-based information to the many communities in our service area, Emanate Health is hosting "COVID-19 & The San Gabriel Valley" virtual conference. With so much misinformation circulating, industry surveys tell us that the general public trusts their local hospitals to provide trustworthy information about the coronavirus.

To that end, conference speakers will offer:

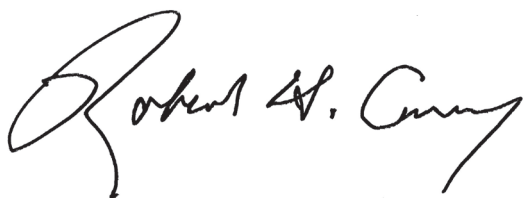

- A global perspective on COVID-19, the national impact and the regional implications,
- What community leaders and residents can do to remain safe from the virus, and
- What the future of health care delivery looks like in the San Gabriel Valley.

It's my pleasure to speak during the virtual conference to briefly address Emanate Health's response to the coronavirus and what our brand of health care delivery will look like in the years to come. Although COVID-19 may be with us for months or years, the long-term prognosis for health care in our region looks bright, filled with innovation, new technology and better patient outcomes.

I'd like to welcome Este Geraghty, MD, MS, MPH, GISP, Chief Medical Officer and Health Solutions Director, Esri, to our conference, as well as my colleague, Sohanjeet Bassi, MD, an Emanate Health Infectious Disease Control physician. My friend, Gurjeet Kalkat, MD, Emanate Health Chief Medical Officer, will serve as the conference moderator.

Between the four of us, I trust that we will give you the most up-to-the-moment information about COVID-19 in our region and what Emanate Health is doing to deliver health and wellness to the one million people that we serve in the San Gabriel Valley.

I'd like to thank you, our guest speakers and our sponsors for participating in our first virtual conference. We're confident that you'll find the topics informative and invaluable as we all adapt to the new normal, which has become our new normal. Thank you for choosing Emanate Health. Enjoy the program.

Robert H. Curry
Chief Executive Officer
Emanate Health

Know Your Hosts

Moderator: Dr. Gurjeet Kalkat

Dr. Gurjeet Kalkat is the Chief Medical Officer for Emanate Health. Before he took on this role he was the Medical Director of Foothill Presbyterian Hospital. He also served as the Chief of Staff at Foothill Presbyterian Hospital in 1997. Dr. Kalkat has been with this organization since 1992.

He received his medical degree from the University of Delhi and trained in pulmonary and critical care at University of Southern California. He is board certified in internal medicine, pulmonary medicine, critical care medicine, palliative care and hospice medicine.

His focus is to provide integrated, quality and efficient medical care to our community.

Diane Martin

Diane Martin serves as Chief Marketing and Communications Officer for Emanate Health. In this role, she leads the creation and execution of brand strategy and experience, marketing and advertising, thought leadership, public and media relations, social and digital media strategy, communications, health policy, advocacy and consumer access for Emanate Health and its subsidiaries.

Prior to joining Emanate Health, Diane served in leadership roles and as counsel for leading academic medical centers and national health care systems that include Stanford Health Care, UCLA Health affiliates, Dignity Health and Prime Healthcare, to improve access to health care for diverse populations.

Diane has 17 years of healthcare experience. She earned a Master's in Business Administration from the University of Redlands. Diane emphasized in global business and studied LEAN methodologies at Reitaku University in Tokyo, Japan and The Chinese University of Hong Kong in China. She holds a Bachelor of Arts in Public Relations from Barry University's School of Communication.

9:10 a.m.

Geographic Information System (GIS) Technology, Innovation and the Future

Este Geraghty, MD, MS, MPH, GISP

Chief Medical Officer and Health Solutions Director, Esri

9:45 a.m.

State of Emanate Health and Our Future

Robert H. Curry, CEO, Emanate Health

10:25 a.m.

COVID-19: Becoming a Healthy San Gabriel Valley Now and Beyond

Sohanjeet S. Bassi, MD

Infectious Disease Specialist, Emanate Health

There will be time for listeners to ask questions to the speakers after each presentation.

State of Emanate Health and Our Future

Robert H. Curry
CEO, Emanate Health

Emanate Health CEO Robert H. Curry's presentation will outline what the health system's three facilities and emergency rooms at Inter-Community Hospital, Queen of the Valley Hospital and Foothill Presbyterian Hospital, Outpatient Services center, primary & specialty care locations are doing now and to prepare for the future to keep the one million people it serves safe and healthy in the face of the global pandemic.

Geographic Information System (GIS) Technology, Innovation and the Future

Este Geraghty, MD, MS, MPH, GISP
Chief Medical Officer and Health Solutions Director, Esri

With the coronavirus still making headlines across the globe, Dr. Este Geraghty will trace the origins and presence of COVID-19 around the world, drilling down to the United States and the San Gabriel Valley. Dr. Geraghty works

for Esri, the developer of the world's most powerful mapping and analytics platform, which was utilized to help create the COVID-19 dashboard that Johns Hopkins University employs to quantify cases and deaths across the globe. Her presentation will outline the importance of innovation during a crisis and how those learnings will influence the doctor-patient relationship of the future.

COVID-19: Becoming a Healthy San Gabriel Valley Now and Beyond

Sohanjeet S. Bassi, MD
Infectious Disease Specialist, Emanate Health

Emanate Health Infectious Disease Control physician, Sohanjeet Bassi, MD, will outline what government leaders, community organizations and the general public can do to remain safe from coronavirus with the arrival of the seasonal flu. This is happening while the pharmaceutical industry races against the clock to develop a COVID-19 vaccine to help hospitals worldwide bring the pandemic to a hopeful end.

About our Speakers

Robert H. Curry

CEO, Emanate Health

Robert is the Chief Executive Officer of Emanate Health. He joined Emanate Health in November 2008 after serving in the same capacity for five years at O'Connor Hospital in San Jose, Calif. Before coming to O'Connor Hospital, Robert

was CEO of Thunderbird Medical Center, a 640-bed Banner Health System hospital in Phoenix, Ariz., for 13 years. During four of those years, he also served as CEO of Maryvale Samaritan Medical Center, a 340-bed community hospital that was an affiliate within the Banner Health System. Robert also has held executive positions with hospital systems in Youngstown, Ohio, and Pittsburgh, Pa.

Este Geraghty, MD, MS, MPH, CPH, GISP

Chief Medical Officer and Health Solutions Director, Esri

Este Geraghty, MD MS, MPH, CPH, GISP is the Chief Medical Officer at Esri, developer of the world's most powerful mapping and analytics platform. She heads Esri's worldwide health and human services practice and is passionate about

transforming health organizations through a geographic approach. Previously, she was the deputy director of the Center for Health Statistics and Informatics at the California Department of Public Health. There she engaged in statewide initiatives in meaningful use, health information exchange, open data and interoperability.

Sohanjeet S. Bassi, MD

Infectious Disease Specialist, Emanate Health

Sohan Bassi, MD is a 1981 graduate of Armed Forces Medical College in Pune, India, and completed his residency, (1986-1989) in Internal Medicine and his

fellowship in Infectious Diseases (1990-1991) in Chicago, Illinois. He became Board Certified in Infectious Diseases in 1992. Shortly thereafter, he co-founded Foothills Infectious Disease Medical Group, Inc., where he serves as President of what is now one of the largest private Infectious Disease practices in California. He is a member of several Infectious Disease organizations. His interests include HIV, Travel Medicine and Healthcare Associated Infections.
