Patient Search

Search My Patients

Search All Patients [Make this my default](#)

To access a patient record, it is recommended that you use the complete name (Last Name,First Name) and KP Medical Record Number (MRN). However, if you know only the name, and the MRN for the patient is unknown, please enter the full name and any three of the other information items available to you (phone, zip code, etc.) If you know only the MRN for the patient, but the name is unknown, please enter the MRN and any three of the other information items available to you. Please be sure that the information you enter is accurate in order to secure a proper match.

Enter patient information:

Name (Last,First):

MRN:

Birthdate:

Sex:

Street Address:

Zip Code:

Home Phone:

[Search](#) [Clear](#)

MRN: 63023061

1 patient matches the search criteria above.

Wt	Patient Name	MRN	DOB	Age	Sex	Home Deployment	Street Address	Zip	H p
