Re: Telehealth Services During Covid-19

As we continue to provide medical services for patients during a pandemic, we would like to encourage for practices to expand telehealth services for qualified services. Our IPA network would like to ensure patients who seek telehealth services are able to do so, especially for the primary care scope.

Therefore, we would like to provide the following reminders regarding telehealth billing options and what types of services can be billed via telehealth (*for out-patient settings*):

Area/Description	CPT Code	POS
Office Consultation (Audio Only)	99241-99245	02
Office Consultation (Video & Audio)	99201-99205	02
Telephone Telehealth E/M Consult (Audio only)	99441-99443	02

Additionally, for PCP's who have limited hours due to COVID and have elderly patients, we strongly encourage for offices to provide telehealth services. **Medicare annual wellness visits (AWV) can be conducted via telehealth (audio & video) and billed as shown below:**

Area/Description	CPT Codes	POS	Modifier
Medicare Patient Annual Wellness Visit (AWV) (Audio & Video Required)	G0438, G0439	02	95
Controlling Blood Pressure*	Systolic: 3074F, 3075F, 3080F Diastolic: 3077F, 3078F, 3079F		
Advanced Care Planning*	1123F, 1124F, 1157F, 1158F		
Functional Status Assessment*	1170F		
Medication Review*	1159F (list) 1160F (review)		
Paid Assessment*	1125F (+) 1126F (-)		
Post hospitalization discharge - medication reconciliation	99496, 99495 1111F		

*must include G0438 or G0439 code
