INTRODUCCION

Estamos complacidos de proporcionar la lista de medicamentos cubiertos de **Gold Coast Health Plan** del como una herramienta útil e informativa. **La lista GCHP de Medicamentos Cubiertos** puede ayudar a los profesionales en la selección de productos clínicamente adecuados y económicos para sus pacientes.

El contenido en la lista **GCHP de Medicamentos Cubiertos** se proporciona únicamente para la comodidad de los proveedores de servicios médicos. No garantizamos o aseguramos la exactitud de dicha información ni pretende ser exhaustiva en su naturaleza. La **Lista de Medicamentos Cubiertos** no pretende ser un sustituto del conocimiento, experiencia, habilidad y el juicio del proveedor de servicios médicos en su elección de medicamentos recetados. Toda la información en esta **Lista de Medicamentos Cubiertos** es proporcionada como referencia para la selección de medicamentos de terapia. La selección específica de medicamento para un paciente individual reside únicamente en el medico.

No asumimos ninguna responsabilidad por las acciones u omisiones de ningún proveedor de atención médica basada en la confianza, en su totalidad o en parte, en la información aquí contenida. El proveedor de atención médica debe consultar la literatura del producto del fabricante de medicamentos o referencias estándar para información más detallada.

Las guías Nacionales se pueden encontrar en el sitio de National Guideline Clearinghouse <http://www.guideline.gov>

PROLOGO

La **Lista GCHP de Medicamentos Cubiertos** está organizada por secciones. Cada sección está dividida por tipos de fármacos terapéuticos definidos principalmente por el mecanismo de acción. A menos que estén señaladas las excepciones, las formas de dosificación de aplicación general y puntos fuertes del medicamento citado se incluyen en la **Lista GCHP de Medicamentos Cubiertos**. **Los Medicamentos Genéricos deben ser considerados la primera línea de prescripción.**

Los medicamentos representados en la **Lista GCHP de Medicamentos Cubiertos** pueden tener costos variables para el miembro del plan basados en la estructura de beneficios del plan. Los medicamentos Genéricos por lo general, están disponibles al menor costo, los medicamentos de marca en la **lista GCHP de Medicamentos Cubiertos** por lo general cuestan mas que los genéricos, y los medicamentos de marca que no están en la lista por lo general son los que cuestan mas.

COMISION TERAPEUTICA Y DE FARMACIA (P&T)

Los servicios de **GCHP Comision Terapeutica y de Farmacia ("Comision P&T")** son utilizados para aprobar medicamentos de terapia seguros y clínicamente efectivos. La Comision P&T es un organismo externo consultivo de expertos. Los miembros del Comité P&T con derecho a voto incluye médicos y farmacéuticos, los cuales tienen una amplia base de experiencia clínica y académica en relación a los medicamentos recetados. Los empleados con experiencia clínica significativa están invitados a reunirse con el Comité P&T. Los miembros del Comité P&T con Derecho a Voto deben revelar cualquier relación financiera o conflicto de intereses a los fabricantes de productos farmacéuticos.

SUBSTITUCION GENERICA

La substitución Generica es una acción de farmacia en la cual se dispensa una versión genérica en vez de un producto recetado de marca. Sin embargo, no todas las formas de dosificación o concentración del nombre genérico puede ser disponible. La **Lista GCHP de Medicamentos Cubiertos** es una lista obligatoria de medicamentos genericos. Así que cuando un medicamento genérico está disponible en lugar de uno de marca, es agregado. Y si el agente de marca era parte de la lista de medicamentos cubiertos, el agente de marca será removido de la lista de medicamentos cubiertos.

Los medicamentos Genericos tienen por lo general un costo mas bajo que sus equivalentes de marca. Los Medicamentos Genericos son:

- Aprobados por la Administracion de Comida y Medicamentos de los U.S.A. para seguridad y efectividad, y son fabricados bajo los mismos estándares estrictos que se aplican a los medicamentos de marca.
- Probado en seres humanos para asegurarse de que el genérico se absorbe en el torrente sanguíneo en un ritmo y grado similar en comparación al medicamento de marca (bioequivalencia). Los genéricos pueden ser diferentes en tamaño, color, e ingredientes inactivos, pero eso no altera su efectividad o habilidad para ser absorbidos como los medicamentos de marca.
- Son fabricados en la misma dosis y concentracion que los medicamentos de marca.
- Cuando se substituye un medicamento genérico por uno de marca, puede esperar que el genérico produzca los mismos efectos clínicos y perfil de seguridad que el medicamento de marca (equivalencia farmacéutica).

DISEÑO DE PLAN DE ESPECIALIDAD

Pauta para la Administración de Especialidad (SGM)

SGM es nuestro programa de administración de la utilización que ayuda a garantizar la utilización adecuada de medicamento especializado basado en las pautas aceptadas en la actualidad basadas en evidencia. El programa de administración de utilización esta disponible para todas las áreas terapéuticas dispensadas por nuestras farmacias especializadas. SGM esta diseñado para asegurar la seguridad y eficacia evitando al mismo tiempo la utilización fuera de las pautas. Los medicamentos que podrían estar incluidos en el programa SGM estan identificados en la **Lista GCHP de Medicamentos Cubiertos** bajo el titulo de "Especialidad" para su referencia. SGM también se puede combinar con el Manejo de Inventario/Optimización de la Dosis y Mezcla Optima de medicamento a través del Diseño Especializado de Alto Rendimiento para administrar adecuadamente los medicamentos especializados.

DISEÑO DEL PLAN

La **Lista GCHP de Medicamentos cubiertos** es una lista cerrada de medicamentos de diseño del plan. Los medicamentos que aparecen en la lista de medicamentos son cubiertos por el plan como se representan. Ciertos medicamentos en la lista son cubiertos si los criterios de la administración de utilización se cumplen (ej. Terapia Escalonada, LMN, CPA, Limites de Cantidad, etc); las solicitudes para uso de dichos medicamentos fuera de sus criterios enlistados serán revisados por necesidad medica.

En caso de ser necesario escribir una receta para un medicamento, que no este en la **lista GCHP de Medicamentos Cubiertos**, uno debe obtener autorización clínica previa.
