Senior Director of Network Operations

Re: **Behavioral Health Treatment PCP Notification**

Date: May 25, 2018

Gold Coast Health Plan (GCHP) provides behavioral health treatment to its members through Beacon Health Options.

Starting next week, Beacon's notification policy will change. Currently, the provider who is requesting services and the provider to whom the patient is being referred both receive notifications concerning the referral. As of June 1, the member's assigned primary care provider (PCP) will also be copied on all referral actions.

If you have any questions, email [ProviderContracting@goldchp.org](mailto:ProviderContracting@goldchp.org).
