### Your Support Turns Possibilities Into Realities

Community support played an essential part in the life of Grant Regional Health Center during its first fifty years of service. Your gifts helped make the hospital a reality in 1955. Since then they have supported growth and improvement in the original facility and in the services the hospital offers. We continue to encourage gifts from individuals, corporations, foundations, or other organizations. Your gifts to Grant Regional Health Center Foundation are tax deductible and will be used for the sole benefit of Grant Regional Health Center in the area it serves.

Thank you so much for your support - you have helped "pave" the way for quality healthcare in the future!

Contact Brandi at GRHC Foundation, (608) 723-3358 or foundation@grantregional.com for additional information.

Memory Walk

You can pave the way to the future while memorializing the past.

## Support Quality Healthcare for Future Generations

Grant Regional Health Center Foundation offers you the unique opportunity to support the future of quality healthcare, while at the same time create memories that provide a lasting impression. Our Healing Garden was established in 2004. Since that time, we have surrounded it with bricks and pavers to form a walkway and patio area. During our 2018 expansion project, the Healing Garden was enclosed and is now accessible through the hospital. This area also features fountains and memorial benches.

Installation will begin in the spring and additional bricks and pavers will be added as the demand allows.

GRHC will determine placement based on overall pattern and design. The lettering is epoxy filled protecting and offering clarity to your message for years to come.

All proceeds from the Memory Walk will go to the GRHC Foundation to support the GRHC Mission: "Together we are dedicated to improve the health and wellness of all generations through high quality, compassionate, patient-centered care."
