For "Continuity of Care" the receiving caregiver typically only wants to receive an "Abstract "of key information from the Medical Record. This same "Abstract" sent to caregivers also almost always meets the needs for individual use.

A Medical Record "Abstract" contains the following:

- ✓ Discharge Summary – this document is a summary of the care, treatment, services provided and progress toward established goals of an inpatient stay
- ✓ Emergency Record – this record documents the care, treatment and services provided for a visit to the emergency room
- ✓ History & Physical – this form details the present illness or care needs and notes any relevant past history
- ✓ Operative Report(s) – this report details the surgeon's findings, technical procedures used, specimens removed and postoperative diagnosis
- ✓ Consultation(s) Report(s) – this report documents the findings of a physician requested to examine a patient
- ✓ X-Ray Reports, Labs, or other testing
