Physician Office Employee Guide to Using MPF One Content (Patient Medical Records)

HPF (the program used to access medical records) will be going away on March 15th and will be replaced with MPF One Content.

Prior to using One Content, go to <u>www.jackson.org</u> and choose JH Employees and Physicians from the e-Health Resources menu. Click the One Content Set-up Instructions for Physician Office Staff link and follow the installation instructions.

- 1. Access One Content by going to <u>http://mpfweb/mpf</u> and enter the same Jackson Hospital user name and password as you used to log into the Cisco VPN client.
- 2. To perform patient searches select **Patients** on the menu bar. Click the **Find a Patient** dropdown list and select a search type.

	27	Task List	Patients	Census						
Fi	nd a Pati	ent Name	▼ La	st name or Last r	name, Fi	Facility	All	▼ Search		
Patient Search Result										
		Patient 🔺				DOB		Current Age	Sex	GPI

- **3.** Enter the text to search for, and then click **Search**. Search results appear in the lower pane of the window.
- 4. To view a specific encounter for a patient, click the (+) sign. The system displays the encounters for that patient.
- 5. Find the encounter you want to view, and click the **checkbox** to the left of the encounter.
- 6. Click the **open folder** icon the see the encounters you want to review. **NOTE**: Double clicking anywhere on the encounter's row opens the encounter
