Topic: Additional Community Supports Services

Dear Provider:

Kern Health Systems (KHS) is excited to announce that three additional services will be offered under Community Supports Services starting January 1, 2023. Community Supports Services are additional services, which provide added support to address social needs that could be impacting a member's health. The new services include:

- Sobering Centers
- Medically Tailored Meals
- Respite Services

These services will continue to be integrated with care management for high-risk populations and available to ALL qualified members. As a Network Provider, you will have the ability to refer your Kern Family Health Care (KFHC) patients for Community Supports Services. Please visit the KFHC portal and submit a community supports assessment:
