

# PROVIDER *bulletin*

March 9, 2018

## **\*\*\*ATTENTION\*\*\***

Dear Provider:

The Qvar Redihaler is a covered medication on the Kern Family Health Care Formulary. We had experienced some coding issues that have been resolved. Prescriptions will clear without an authorization. (Member eligibility, refill too soon, therapeutic duplications will still be valid instances in which the prescription will reject.)

We apologize for any inconvenience during this period. We appreciate your cooperation and understanding.

Sincerely,

Bruce Wearda, R.Ph.  
Director of Pharmacy
