

Notice of Upcoming Provider Appointment Availability Survey

Dear Provider:

Kern Family Health Care (KFHC) is required to provide or arrange for the provision of covered health care services in a timely manner.

The Department of Managed Healthcare (DMHC) requires health plans to annually submit reports measuring their network's timely access to care. To meet this requirement, KFHC conducts an annual Provider Appointment Availability Survey. **This bulletin is to notify you that you may be randomly selected to participate;** if you are chosen to participate you will receive an initial outreach from KHS via e-mail or fax to answer a short survey regarding appointment availability in your office. If you are unable to respond to the initial outreach, your office will receive additional follow-up via email/fax and phone call to conduct the survey. If there are multiple providers in your office, you may receive multiple survey requests; please complete for each provider that receives a survey. To assist the plan in collecting this information, it is important you respond to the survey in a timely manner.

The purpose of the timely access standards is to ensure members receive necessary care in a timely fashion. KHS would like to remind providers the importance of our regulatory requirements. Below is a summary of the access standards for KHS and our provider network.
