How to Prepare for the Upcoming HEDIS/MCAS Audit

The holidays are around the corner, and you know what that means—the Department of Health Care Services' HEDIS/MCAS audit is happening soon.

Here is some important and helpful information to consider:

- Cotiviti is our medical record retrieval vendor this year. Starting in January, their team will collaborate with Kern Health Systems and our Kern Family Health Care Providers to obtain medical records in the following areas of care:
 - *Immunizations for children and adolescents*
 - *Lead screening for children.*
 - *Cervical cancer screenings*
 - *Chronic disease management of hypertension and diabetes*
 - *Timely prenatal and postpartum care*
- In order to prevent duplicate requests to your care team, KHS asks that you send a demographic sheet (or similar) with every member's record that includes their name, date of birth, and CIN. The CIN is MediCal's Client Identification Number, which is the first nine characters of the ID number on the beneficiary's benefits ID card.

If you have questions or concerns regarding any part of the process, please contact your KFHC Provider Relations Representative and/or MCAS Team. Here's to a smooth and happy audit season!
