

Printing Services and Maintenance RFQ Questions

	Question	Answer
1	Can you please provide us with the accessories required for each device, we want to ensure that we are proposing the exact model and accessories that you need?	No additional accessories are required for the devices. However, KHS will require the successful bidder to provide a management software platform capable of monitoring equipment utilization and status.
2	For the lease option, are you wanting a \$1 out lease or an FMV lease?	KHS prefers a Fair Market Value (FMV) lease option, which allows for greater flexibility and potential cost savings over the lease term. Please provide lease terms based on this structure.
