### All Plan Letter 22-028

#### Adult and Youth Screening and Transition of Care Tools for Medi-Cal Mental Health Services

Dear Provider,

The Department of Health Care Services (DHCS) released All Plan Letter (APL) 22-028, Adult and Youth Screening and Transition of Care Tools for Medi-Cal Mental Health Services on December 27, 2022. APL 22-028 provides guidance on timely coordinated care across all mental health delivery systems.

As a reminder Kern Health Systems (KHS) and Kern Behavioral Health and Recovery Services (Kern BHRS) are responsible for providing members behavioral and mental health services and must not deny services, please reference APL 22-005 No Wrong for Mental Health Services Policy. **Please see below for division of responsibilities:**

- ❖ KHS-MCP: Mild to moderate behavioral or mental health services.
- ❖ Kern BHRS-MHP: Moderate to severe behavioral or mental services.

#### **Screening**

In reference to APL 22-028, KHS and Kern BHRS will provide timely access to screening and use the DHCS approved screening tools for youth under age 21 and adults 21 and over. The initial screening tool will be used when members are not currently receiving care, to determine appropriate mental health delivery system.

#### **Screening will determine member threshold criteria for behavioral or mental health services:**

- ❖ Specialty Mental Health Services: KHS will coordinate with Kern BHRS Care Coordination Unit for linkage.
- ❖ Non-Specialty Mental Health Services: KHS will coordinate linkage to KHS Network BH Providers.

A screening tool is **not** required for members who contact a Behavioral Health (BH) or a Mental Health (MH) provider to receive services. BH and MH providers will complete an assessment for the member to determine medical necessity.

#### **Transition**

The DHCS Transition of Care Tool ensures members who are transitioning mental health delivery systems or need additional services for their existing behavioral health or mental health treatment continue to receive timely coordinated care. KHS BH Providers should complete the following steps if determined a member requires a higher level of care within the Kern BHRS network.

- ❖ Complete the Transition of Care Tool
- ❖ Submit the completed Transition of Care Tool to KHS Behavioral Health Team at [BehavioralHealthTeam@khs-net.com](mailto:BehavioralHealthTeam@khs-net.com)
