

FINANCE COMMITTEE MEETING

Friday, April 8, 2022 at 8:00 a.m.

Kern Health Systems 2900 Buck Owens Blvd. 1st Floor – Board Room Bakersfield, CA 93308

For more information, call (661) 664-5000

AGENDA

FINANCE COMMITTEE MEETING

KERN HEALTH SYSTEMS 2900 Buck Owens Boulevard Bakersfield, California 93308

Friday, April 8, 2022

<u>8:00 A.M.</u>

All agenda item supporting documentation is available for public review at Kern Health Systems in the Administration Department, 2900 Buck Owens Boulevard, Bakersfield, CA 93308 during regular business hours, 8:00 a.m. – 5:00 p.m., Monday through Friday, following the posting of the agenda. Any supporting documentation that relates to an agenda item for an open session of any regular meeting that is distributed after the agenda is posted and prior to the meeting will also be available for review at the same location.

PLEASE REMEMBER TO TURN OFF ALL CELL PHONES OR ELECTRONIC DEVICES DURING MEETINGS.

COMMITTEE TO RECONVENE

Members: Deats, Martinez, McGlew, Melendez, Rhoades

<u>CONSENT AGENDA/OPPORTUNITY FOR PUBLIC COMMENT</u>: ALL ITEMS LISTED WITH A "CA" ARE CONSIDERED TO BE ROUTINE AND NON-CONTROVERSIAL BY KERN HEALTH SYSTEMS STAFF. THE "CA" REPRESENTS THE CONSENT AGENDA. CONSENT ITEMS WILL BE CONSIDERED FIRST AND MAY BE APPROVED BY ONE MOTION IF NO MEMBER OF THE COMMITTEE OR AUDIENCE WISHES TO COMMENT OR ASK QUESTIONS. IF COMMENT OR DISCUSSION IS DESIRED BY ANYONE, THE ITEM WILL BE REMOVED FROM THE CONSENT AGENDA AND WILL BE CONSIDERED IN LISTED SEQUENCE WITH AN OPPORTUNITY FOR ANY MEMBER OF THE PUBLIC TO ADDRESS THE COMMITTEE CONCERNING THE ITEM BEFORE ACTION IS TAKEN.

STAFF RECOMMENDATION SHOWN IN CAPS

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors **Kern Health Systems** Bakersfield, California

Opinion

We have audited the financial statements of **Kern Health Systems**, as of and for the years ended December 31, 2021 and 2020, and the related notes to the financial statements, which collectively comprise **Kern Health Systems** basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of **Kern Health Systems**, as of December 31, 2021 and 2020, and the respective changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **Kern Health Systems** and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **Kern Health Systems**' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **Kern Health Systems'** ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of proportionate share of the net pension (asset) liability and schedules of pension contributions on pages 4-11 and 39-41 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 1, 2022 on our consideration of **Kern Health Systems'** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of **Kern Health Systems'** internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering **Kern Health Systems**' internal control over financial reporting and compliance.

Daniells Phillips Vanghan & Bock

Bakersfield, California April 1, 2022

Management's Discussion and Analysis

Our discussion and analysis of Kern Health Systems' ("KHS", "We", "Us", "Our") financial performance provides an overview of KHS' financial activities for the calendar years ended December 31, 2021 and 2020. Presentation of balances in the financial tables may differ from prior periods. Account balances have been reclassified to better present financial categories. Please read the discussion and analysis in conjunction with the KHS financial statements, which begin on page 12.

Overview:

KHS is a County health authority established for the purpose of providing health care services to meet the health care needs of low-income families and individuals in Kern County, California. As a managed care health plan, KHS manages health care services for an enrolled population that qualifies for Medi-Cal, which is California's Medicaid health care program. Medicaid was established in 1965 under the U.S. Social Security Act to provide health care and long-term care services and support to low-income Americans. Although jointly funded by federal and state governments, Medicaid is a state-operated and state-implemented program. Subject to federal laws and regulations, states have significant flexibility to structure their own programs in terms of eligibility, benefits, delivery of services, and provider payments. The Department of Health Care Services ("DHCS") is the single state agency responsible for administering Medi-Cal. In 2021 and 2020, KHS received over 99% of its operating revenue from the State of California. KHS is committed to continually improving the quality of care and service to its members, and to help them access the right care at the right time in the appropriate setting.

Members can select the Medi-Cal health plan of their choice. In Kern County there is one additional Medi-Cal health plan to choose from besides KHS. The opportunity to select a health plan is at the time of initial enrollment and at a minimum, annually thereafter. If a member does not select a plan, the member will be auto-assigned to one of the two Medi-Cal health plans located in Kern County.

In general, KHS members are required to use the KHS provider network to receive care. KHS contracts with various health care providers for the provision of medical care services to its members. The provider network consists of primary and specialty care physicians, hospitals, ancillary providers and pharmacies. Primary Care Physicians (PCPs) along with Physician Assistants and Nurse Practitioners play an integral role in coordinating and managing the care of KHS members by delivering preventive services as well as referring members to other providers for medically necessary services. PCPs are typically trained in internal medicine, pediatrics, family practice and general practice. KHS compensates most of its providers on a fee for services basis. Under fee for service arrangements, KHS retains the financial responsibility for medical care provided and incurs costs based on the actual utilization of services. Additionally, KHS works with the provider network to operate efficiently by providing financial and utilization information, physician and patient educational programs, and disease and medical management programs. In 2021 and 2020, KHS paid approximately 92% of its revenue to providers.

KHS seeks to improve the quality of care delivered by its network providers by continual focus on:

- Provider access
- Preventive health and wellness
- Care and disease management
- Provider credentialing
- Provider education and incentives for closing care gaps
- Member education and outreach
- Information technology initiatives related to the above activities
- Advocacy and community-based programs

KHS' mission is dedicated to improving the health status of its members through an integrated managed health care delivery system. KHS is focused on preventive health, wellness and a population health management model that coordinates medical, behavioral, social, and pharmacy programs to provide quality care.

Financial Highlights:

- Our net position increased in 2021 by \$20,390,142 or approximately 9.0% while in 2020 our net position increased by \$12,393,808 or 5.8%.
- Our Medi-Cal enrollment growth showed an average monthly increase of approximately 26,700 members or 10.2% in 2021 compared to 2020. This compared to an average monthly increase of approximately 13,300 members or 5.3% in 2020 compared to 2019. The increase in average monthly membership was due largely to the State not performing redeterminations as a result of the COVID-19 Public Health Emergency (PHE) and increased eligibility as a result of the ongoing PHE.
- We have a capitated arrangement required by the California Department of Health Care Services (DHCS) with another health plan which allows for that plan to provide health care services for assigned members. Assigned membership to this other health plan was 12,692 members at the end of 2021 compared to 10,909 members at the end of 2020. The premium revenue earned for this population was \$32.9 million and \$25.6 million for the years ended December 31, 2021 and 2020, respectively. As we have no obligation to provide care for this population, the Premiums earned amount reported for the years ended December 31, 2021 and 2020 is net of the \$32.2 million and \$25.0 million, respectively, of associated capitated expense and the member months shown have been adjusted to remove capitated member months.
- We reported an operating income of \$28,457,987 or \$8.20 PMPM in 2021 and operating income of \$14,204,450 or \$4.51 PMPM in 2020. The operating income in 2021 is largely due to increased membership experienced in 2021.
- Managed Care Organization (MCO) Tax Revenues of \$119,594,632 or \$34.48 PMPM are included in premiums earned in 2021 and \$98,918,724 or \$31.42 PMPM in 2020. Beginning July 1, 2016, under Senate Bill X2-2, the MCO tax methodology changed from a 3.9375% of premium revenue to a fixed PMPM rate. The rate was \$33.08 PMPM for the period January 1, 2021 to December 31, 2021 and \$30.33 PMPM for the period January 1, 2020 to December 31, 2020. Due to a delay in federal approval by CMS of the extension of the MCO tax program, there was no MCO tax assessment for the period July 1, 2019 through December 31, 2019. The tax amounts are based on projected membership and MCO expense is payable quarterly. MCO Tax Expense is reported as an operating expense and was \$112,821,118 or \$32.53 PMPM in 2020 and \$100,919,574 or \$32.05 PMPM in 2020.
- The decrease in nonoperating income of \$6,257,203 between 2021 and 2020 is primarily attributable to an increase in Community grant expense to assist providers with the implementation of the requirements under the CalAIM initiative and a decrease in investment and other income due to better market performance experienced in 2020 compared to 2021. We reported Community grant expense of \$7,895,437 or \$2.28 PMPM in 2021 compared to \$4,319,024 or \$1.37 PMPM in 2020. We reported investment and other income (expense) of (\$172,408) in 2021 or (\$0.05) PMPM and investment and other income of \$2,508,382 or \$0.80 PMPM in 2020.
- We continued with provider quality incentive programs and reported expenses of approximately \$5.7 million in 2021 to reward providers who demonstrate improved Managed Care Accountability SET (MCAS) outcomes.

Operational Highlights:

As part of fulfilling our mission while maintaining current operations, KHS engaged in the following activities during 2021:

- Continued with most of our employees working from home, while maintaining or improving operating metrics. Addressed employee hardships and did not reduce the workforce.
- Received the Runner-Up Award for Health Equity among CA Medi-Cal plans. This award recognized the initiative for an organized mobile mammography event in the rural, underserved, town of Taft, California. The outreach efforts focused on connecting with female members 50 years and older, with a strong focus on the Hispanic population (~70% of our membership) and successfully completed 47 screening mammograms.
- Implemented telehealth services according to the DHCS guidance on telehealth flexibility for services rendered to KHS members for nearly all covered benefits including behavioral health, home health, physical therapy, and autism therapy. KHS allowed both synchronous, interactive audio and telecommunications systems and asynchronous store and forward telecommunications systems, thereby allowing both virtual and telephonic communication.
- Created Gaps in Care (GIC) dashboard to support the associated member rewards program for completing preventative care. GIC information is available on both the member and provider portals to support gap closures. Additionally, the GIC dashboard is available internally to all member facing staff who communicate directly with members to educate, coordinate appointments, and to close any preventative care gaps.
- Expanded the Health Homes Program by three locations in 2021, which included two distributive model locations allowing additional access for members to receive integrated care management. Implemented and transitioned members to the CalAIM Enhanced Care Management (ECM) program on January 1,2022.
- Expanded the Transitional Care Program to a second location to reduce preventable hospital readmissions, coordinate care, and address any unidentified needs during the post-acute discharge planning.
- Participated with a community-based organization network to coordinate resources to address social determinants of health.
- Expanded a Population Health Management (PHM) program that addresses individuals' health needs across the continuum of care using tailored health solutions.
- Transitioned Whole Person Care to the ECM program while maintaining care continuity by allowing the Whole Person Care to remain with its existing service provider, Kern Medical.
- Implemented the virtual Fresh Start Program in English and Spanish to aid members with quitting tobacco. This four-week class series was offered monthly and participating members were eligible to receive up to \$130 in class incentives.
- Completed the School Wellness Grant Program cycle. Results of participating schools included reductions in school discipline referrals, improvement in student behaviors and mile run times, increase in knowledge on outdoor safety and healthy meal planning, and establishment of school gardens and other environmental changes to support the health and well-being of students.

- Implemented a virtual Diabetes Prevention Program focused on lifestyle change to prevent members from developing diabetes. More than 90% of members registered completed the 1-year program and had a total combined weight loss of 381 pounds. Full CDC recognition for in-person programs was maintained and pending recognition for virtual programs was achieved.
- Implemented the Asthma Mitigation Project in partnership with the Central California Asthma Collaborative. Program is targeted at helping members with poorly controlled asthma better manage their disease to prevent emergency room visits and hospitalizations.
- Continued to offer the Baby Steps Program to educate pregnant and postpartum members on the importance of accessing timely and routine care. Monthly outreach calls and health guides are conducted which includes information on pregnancy milestones, resources.
- Developed and Implemented COVID Vaccine Incentive Program (both member and provider) to increase member awareness and promote vaccinations with the goal of increasing the vaccination rates for our members.
- Implemented various strategies to increase utilization of preventative care to achieve the revised HEDIS External Accountability Set (EAS) targeted goals for the new Managed Care Accountability Set (MCAS) measures. Such strategies include ongoing member and provider education, member outreach and use of provider and member incentives to encourage utilization of qualified preventative services under the Program.
- Transitioned funding for Housing Case Management under the ECM-CSS program to afford KHS members an opportunity to exit homelessness and receive safe, and affordable housing.
- Administered several Alternative Payment Methodologies ("APM") within provider contracts that focus on quality care coordination and cost reduction strategies. KHS has realized reductions in utilization expenses along with reductions in readmissions.
- Implemented a Behavioral Health Integration Incentive Program to providers interested in developing integrated physical and behavioral health focused initiatives.
- Continued to expand and update a technical solution to continuously without interruption, stream data to the company's large data processing systems, business reporting systems, third party vendors (e.g., Vision, Pharmacy, etc.), and contracted providers. This system will assist the IT department to proactively monitor the hundreds of data delivery and transformation jobs.
- Continued to make significant improvements to our thirteen-year-old Enterprise Data Warehouse (EDW). This centralized data repository houses data representing several administrative areas including case management, health education, quality improvement measures, claims, pharmacy, lab results, vision, 24-hour nurse hotline, transportation, telephonic communication, and more. KHS uses this EDW to manage employees, provide predictive analytics and utilization anomalies on member's health, show internal operation's reporting and analytics, and forecast plan financials.
- Continued with the implementation and expansion of the previously purchased Interoperability system to ensure compliance with the CMS Interoperability Rule to allow members to retrieve from their health plan's their medical information, claims information, pharmacy, and laboratory information. As adoption of this real-time data exchange increases and evolves, providers and members will have a sound method of obtaining historical clinical information to ensure better health outcomes.
- Celebrated our 25th Anniversary in Kern County.

- Donated over \$217,000 to 75 different community-based organizations. Since these organizations serve many of the same constituents, many of our members will receive assistance from these community partners.
- Leveraged technology to exceed hiring and training goals through virtual interviewing, hiring and onboarding as well as exceeding prior years in the completion of training programs resulting in a record 55 promotions in 2021.
- Optimized the Kern County Workforce Innovation and Opportunity Act (WIOA) OJT Program completing the year as the top employer in the program completing 48 OJT contracts resulting in approximately \$300,000 of returned wages to KHS in grant funds from the State of California.

Using this Annual Report

Our financial statements consist of three statements: the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position; and the Statements of Cash Flows. These financial statements and related notes provide information about the activities of KHS.

The Statements of Net Position and Statements of Revenues, Expenses and Changes in Net Position

One of the most important questions asked about our finances is, "Is KHS as a whole better or worse off as a result of the year's activities?" The Statements of Net Position and the Statements of Revenues, Expenses, and Changes in Net Position report information about our resources and activities in a way that helps answer this question. These statements include all restricted and unrestricted assets and all liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report our net position and changes in it. Our net position, the difference between the assets and liabilities, is one way to measure our financial health. Over time, increases or decreases in net position indicate whether our financial health is improving or deteriorating. Non-financial factors, however, such as changes in member base and measures of the quality of service to members should be considered in evaluating the overall health of KHS.

The Statements of Cash Flows

The final required statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities. It provides answers to such questions as "Where did cash come from?" "What was cash used for?" and "What was the change in cash balance during the reporting period?"

Condensed Financial Information

Statements of Net Position

KHS' net position is the difference between its assets and deferred outflows of resources, and liabilities and deferred inflows of resources, as reported in the Statement of Net Position. Our net position increased in 2021 and 2020 by \$20,390,142 and \$12,393,808, respectively. Our Statements of Net Position as of December 31, 2021, 2020, and 2019 are as follows:

	2021	2020	2019

KHS' net position for 2021, 2020, and 2019 exceeded all regulatory requirements for Tangible Net Equity (TNE).

Statements of Revenues, Expenses and Changes in Net Position

Operating results and changes in our net position show an increase in net position of \$20,390,142 and \$12,393,808 for the years ended December 31, 2021 and 2020, respectively. The increases are made up of various components as outlined below:

	2021	2020	2019	2021	2020	2019
Enrollment						
Total member months				3,611,036	3,266,674	3,093,144

* Per Member Per Month calculations are subject to immaterial rounding differences.

Operating Income

The first component of the overall change in net position is our operating income. This is the difference between the premiums earned and the cost of medical services. We earned operating income for the years ended December 31, 2021 and 2020 of \$28,457,987 and \$14,204,450, respectively.

The primary components of the operating income for 2021 are:

- Premiums earned increased \$150,295,050 or \$15.90 PMPM in 2021 from 2020. Approximately \$108.6 million or \$10.60 PMPM is attributed to an increase in premium capitation due primarily to membership increases in 2021 from 2020. Approximately \$20.7 million or \$3.06 PMPM is due to increased MCO tax premiums received in 2021 from 2020 due to increased MCO tax revenue rates and membership increases above the State's projected enrollment.
- The Medi-Cal average monthly membership increased by approximately 26,700 members or 10.2% over 2021.
- The medical and hospital services costs increased by \$121,517,874 and \$12.47 PMPM between 2021 and 2020. This increase is attributed to increased utilization of medical services such as inpatient hospital services, provider contract rate increases, and lack of prior year IBNR recoveries due to a risk corridor in place for the Bridge period rate year July 1, 2019 through December 31, 2020. The Medical Loss ratio was 92.0% in 2021 and 2020.
- Administrative expenses increased by \$958,613 or a reduction of \$1.08 PMPM over 2020 which is attributed to the increase in salaries and benefits for additional staff needed to meet the needs of the organization and regulatory requirements in 2021 but favorable retirement contribution adjustments recognized under GASB 68 reporting requirements. Administrative expense as a percentage of total Operating Revenue (excluding MCO tax revenue and Hospital directed payments earned) was 4.89% in 2021 compared to 5.53% in 2020.

Nonoperating Revenues and Expenses

Nonoperating revenues and expenses consist primarily of investment income and community grants. In 2021, the net nonoperating expense amount was attributed to Community Grant Expense of \$7,895,437 or \$2.28 PMPM.

KHS' Cash Flow

Changes in KHS' cash flows are consistent with changes in operating income and nonoperating revenues and expenses and are reflective of timing differences pertaining to payment of accrued medical services and paid rates.

General Economic and Political Environment Factors

Our continued growth may be affected by a variety of factors, including macro-economic conditions and enacted health care reforms that could affect our results of operations. Our operations depend primarily on the continuation of our contract with and funding by the State for the Two-Plan Model of the Medi-Cal Managed Care Program. We believe that the State and Federal Governments are committed to keeping these programs in place, but they will continue to look for budgetary savings through reductions in health care costs.

Contacting KHS' Financial Management

This financial report is designed to provide our members, providers, suppliers, regulatory agencies, taxpayers, and creditors with a general overview of KHS' finances and show KHS' accountability for the money it receives. If you have questions about this report or need additional financial information, please contact Robert Landis, CFO, Kern Health Systems, at 2900 Buck Owens Blvd, Bakersfield, California 93308.

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Activities and Summary of Significant Accounting Policies

Nature of activities: Kern Health Systems (KHS) was originally formed on August 17, 1993, as a nonprofit public benefit corporation. It was later dissolved and converted into a County health authority for the purpose of establishing and operating a comprehensive managed care system to provide health care services; to meet the health care needs of low-income families and individuals in the County of Kern; to demonstrate ways of promoting quality care and cost efficiency; to negotiate and enter into contracts authorized by Welfare and Institutions Code Section 14087.3; to arrange for the provision of health care services provided pursuant to Chapter 7, of Part 3, of Division 9 (commencing with Section 14000) of the Welfare and Institutions Code; and to do all things reasonably related or incidental to those purposes. On December 6, 1994, the County of Kern Board of Supervisors enacted Chapter 2.94 of the Ordinance Code, creating KHS as the County health authority.

Global pandemic: On January 30, 2020 the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and by March 10, 2020 declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus (aka COVID-19) include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which KHS operates.

As COVID-19 is unprecedented, it is difficult to determine its impact to operations, its demand on health care and how it may ultimately affect KHS' bottom line. Government decisions to shelter in place have reduced demand for routine care, while at the same time, demand has increased for other medical services, such as telehealth services and COVID-19 related hospital admissions.

Although utilization for routine care was curtailed during 2020 and in some areas for 2021, 2022 could bring a rebound in medical services from pent up demand from patients staying away from their doctor for fear of contracting the virus in their offices. This increased demand for medical services could result in a significant increase in medical care costs and by extension, related provider claims payments.

KHS continues to assess the financial impact of the pandemic. Despite the challenges it brings to forecasting, KHS believes that KHS' financial resources and particularly KHS' cash flow position will be sufficient to withstand the financial effects of the pandemic for the foreseeable future.

A summary of KHS' significant accounting policies follows:

Accounting policies: KHS uses the accrual basis of accounting. The accompanying financial statements have been prepared in accordance with the standards of the Governmental Accounting Standards Board (GASB). In addition, KHS follows the provisions of the American Institute of Certified Public Accountants Audit and Accounting Guide, Health Care Organizations.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates with respect to KHS' financial statements include the various components of accrued medical services payable, the deferred outflows and inflows of resources, and the net pension (asset) liability.

Cash and cash equivalents: Cash and cash equivalents include highly liquid instruments with an original maturity of three months or less when purchased.

NOTES TO FINANCIAL STATEMENTS

Investment valuation and income recognition: Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of net position. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Capital assets: Capital assets are stated at cost. Depreciation is computed by the straight-line method over the estimated service lives of the related assets, which are as follows:

	Years
Buildings and improvements	10-40
Computer hardware and software	3-10
Furniture and equipment	3-5

KHS' capitalization policy is to capitalize all items with a unit cost greater than \$1,000 with the exception of computer software which has a per unit capitalization of \$5,000 and an expected useful life of greater than one year. Items that do not meet KHS' capitalization policy and that do not have a useful life of greater than one year are expensed in the period acquired.

Accrued compensated absences: KHS employees earn personal time off (PTO) on a bi-weekly or semimonthly basis at various rates based on continuous years of service. Employees are allowed to accumulate up to three times their annual benefit rate before accruals cease. Unused PTO is carried forward into subsequent years. Any unused accumulated balance will be paid to the employee upon separation of service. Compensated balances are accrued and recorded in accordance with GASB Codification Section C60.

Net position: The basic financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- Net investment in capital assets consists of capital assets net of accumulated depreciation, reduced by the current balance of any outstanding borrowings used to finance the purchase or construction of those assets.
- Restricted net position is non-capital net position that must be used for a particular purpose, as specified by regulators, creditors, grantors, or contributors external to KHS.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted.

Operating revenues and expenses: KHS distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering services in connection with KHS' principal ongoing operations. The principal operating revenues of KHS are premium revenue received from the California Department of Health Care Services (DHCS). Operating expenses include the cost of medical and hospital services provided to members and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

In 2013, KHS entered into a capitated agreement required by the DHCS with another Health Plan which allows for that plan to provide health care services for their assigned members. As KHS had no obligation to provide care for this population, the Premiums earned amount included as part of operating revenue is reported net of the capitated expense associated with assigned members. Capitated expense was \$32.2 million for 12,692 members assigned for the year ended December 31, 2021 and was \$25 million for 10,909 members assigned for the year ended December 31, 2020.

NOTES TO FINANCIAL STATEMENTS

Premiums revenue: Premiums are due monthly from DHCS and are recognized as revenues during the period in which KHS is obligated to arrange payments for manage health care services provided to KHS members. CMS requires that the rates used in KHS' premiums are to be actuarially sound. Premium revenue is fixed in advance of the periods covered on a per member per month (PMPM) basis and are generally not subject to significant accounting estimates. Premium payments received from DHCS are based on an eligibility list produced by DHCS and are subject to eligibility redeterminations and enrollment backlogs related to the renewal of Medi-Cal coverage. Premium payments are required to be returned if DHCS later discovers that the eligibility list contains individuals who were not eligible. KHS' PMPM rates are typically adjusted annually. KHS receives additional premium revenue in the form of a "maternity kick payment" which is a one-time payment for the delivery of a child. For the years ended December 31, 2021 and 2020 maternity kick payments in the amount of \$33.8 million or 3.1% and \$31.8 million or 3.4% respectively, of total premium revenue were recognized. KHS also receives premium revenue in the form of a "Hepatitis C kick payment" based on the utilization of certain classes of Hepatitis C drugs prescribed. For the years ended December 31, 2021 and 2020 Hepatitis C payments in the amount of \$3.2 million or 0.3% and \$4.9 million or 0.5%, respectively, of total premium revenue were recognized. KHS also receives premium revenue in the form of a "Behavioral Health Treatment kick payment" based on the utilization by its members diagnosed with specific Autism criteria. For the years ended December 31, 2021 and 2020 Behavioral Health Treatment payments in the amount of \$15.5 million or 1.4% and \$11.7 million or 1.3% respectively, of total premium revenue were recognized. On July 1, 2019, DHCS added as a covered benefit services provided under the Health Homes Program. The Health Homes Program is a program designed to provide enhanced care management and coordination of services for eligible Medi-Cal beneficiaries with complex medical needs and chronic conditions. KHS also receives premium revenue in the form of a "Health Homes Program kick payment" based on utilization of qualifying services by members enrolled in the Health Homes Program. For the years ended December 31, 2021 and 2020, Health Homes Program payments in the amount of \$9.4 million or 0.9% and \$10.6 million or 1.1%, respectively, of total premium revenue were recognized.

KHS receives supplemental revenue funded by the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Proposition 56) for the purpose of paying additional amounts for qualifying physician services based on certain specified eligible CPT procedure codes. For the years ended December 31, 2021 and 2020 Proposition 56 payments in the amount of \$70.9 million or 6.5% and \$64.0 million or 6.9%, respectively, of total premium revenue were recognized. KHS also receives supplemental Ground Emergency Medical Transportation (GEMT) revenue provided to for the purpose of paying additional amounts to qualifying GEMT providers based on certain specified eligible CPT procedure codes. For the years ended December 31, 2021 and 2020 GEMT payments in the amount of \$6.3 million or 0.6% and \$5.7 million or 0.6% respectively, of total premium revenue were recognized.

Premiums are also subject to prior year retroactive rate adjustments based on actual and expected health care costs and are recognized when known in the current year. For the years ended December 31, 2021 and 2020 KHS recognized a net increase of \$1.9 million or 0.2% and a net reduction of \$2.2 million or 0.2%, respectively, of premium revenue as a result of retroactive membership and rate adjustments.

KHS' premiums may be periodically amended to include or exclude certain health benefits such as pharmacy and behavioral health services or introduce new programs such as the services provided under the Health Home Program. Premium rates can also be amended to include supplemental payments for providers, such as those paid under Proposition 56 or GEMT, or to cover a new population of members such as seniors and persons with disabilities (SPD) or expansion members.

NOTES TO FINANCIAL STATEMENTS

Health care service cost recognition: KHS contracts with various health care providers for the provision of certain medical care services to its members. The provider network consists of primary and specialty care physicians, hospitals, ancillary providers and pharmacies. KHS compensates most of these providers on a fee for services basis. Under fee for service arrangements, KHS retains the financial responsibility for medical care provided along with the costs incurred based on the actual utilization of services. The cost of health care services provided but unpaid is accrued in the period in which it is provided to a member based in part on estimates, including an accrual for medical services provided but not reported to KHS. KHS also includes certain medically-related administrative costs such as preventative health and wellness, care management, health education, disease management, 24 hour on-call nurses and other quality improvement costs under medical care services. KHS funds a provider performance quality incentive pool on a per member per month basis (PMPM). Provider participation is based on the similar Managed Care Accountability Set (MCAS) scores that DHCS uses to measure KHS in determining member assignment. KHS determines the level of provider participation based on MCAS scores, with any remaining funds in the pool allocated to the following year incentive pool, community grants, or other quality improvement projects. Additionally, for the years ended December 31, 2021 and 2020, KHS recognized \$1.5 million and \$1.4 million, respectively, in pharmacy rebates from its pharmacy benefit manager that were received from pharmaceutical manufacturers which have been subtracted from pharmacy expense amounts.

Income taxes: KHS is exempt from Federal and State income taxes pursuant to Internal Revenue Code (IRC) Section 115 and similar provisions of the California Franchise Tax Code and is also exempt from Federal and State income tax filing requirements.

Managed Care Organization Premium taxes: In 2009 California enacted the Managed Care Organization (MCO) tax under Senate Bill 78 (SB 78). Effective July 1, 2013, under Assembly Bill 1422 (AB 1422), the MCO tax rate was increased to 3.9375% and payable to the California State Board of Equalization. Premium taxes were assessed based on the premium revenue collected. Beginning July 1, 2016, under Senate Bill X2-2, the MCO tax rate is payable to DHCS on a quarterly basis based on projected annual membership. MCO Tax Revenue is received from DHCS monthly based on actual membership on a per member per month fixed dollar amount. This change in MCO tax methodology puts KHS at risk if the assumed membership used in the calculated tax expense is different than the actual membership KHS experiences during the rate year. The premium revenues received include the premium tax assessment. These amounts are reported on a gross basis and are included in total operating revenues with the MCO tax expense presented separate from all other medical and administrative expense.

Risk management: KHS is exposed to various risks of loss from Health Insurance Portability and Accountability Act (HIPAA) violations; data breaches from cyber-attacks; torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters.

Pass-through funding from DHCS: During the years ended December 31, 2021 and 2020, KHS received \$136.5 million and \$77.8 million, respectively, of supplemental fee revenue from DHCS. KHS passes these funds through to the designated hospitals and providers. This amount is not reflected in the statements of revenues, expenses and changes in net position for the years ended December 31, 2021 and 2020, as this pass-through amount does not meet the requirements for revenue recognition under Government Accounting Standards.

Advertising: KHS expenses advertising costs as they are incurred. Advertising expense totaled \$699,398 and \$563,045 for the years ended December 31, 2021 and 2020, respectively.

Reclassifications: Certain items in the 2020 financial statements have been reclassified to conform to the 2021 presentation, with no effect on change in net position.

NOTES TO FINANCIAL STATEMENTS

Subsequent events: KHS has evaluated subsequent events through April 1, 2022, the date on which the financial statements were available to be issued. There were no subsequent events identified by management which would require disclosure in the financial statements.

Authoritative pronouncement adopted: In June 2018, the Government Accounting Standards Board (GASB) issued Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

Authoritative pronouncement not yet adopted: In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lesse is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Management is evaluating the impact of the implementation of this statement on their financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 2. Cash, Cash Equivalents and Investments

Cash, cash equivalents and investments at December 31, 2021 are classified in the accompanying financial statements as follows:

Cash and cash equivalents: Deposits LAIF and money market funds Cash on hand Total cash and cash equivalents		\$ 3,291,537 87,122,611 200 \$ 90,414,348

NOTES TO FINANCIAL STATEMENTS

Investments are principally held in debt securities and are classified as current assets without regard to the securities' contractual dates because they may be readily liquidated. The securities are recorded at fair value with unrealized gains and losses, if any, recorded on a quarterly basis.

Deposits are carried at cost plus accrued interest. The bank balances are protected by a combination of FDIC insurance and the bank's collateral pool, in accordance with California Government Code.

Investments Authorized by KHS' Investment Policy

The investment portfolio is managed by KHS' Chief Financial Officer (CFO) to meet the short and longterm obligations of the business while maintaining liquidity and financial flexibility. Investments managed by the CFO are invested in accordance with KHS' investment policy and are reviewed by the KHS Board of Directors and the KHS Finance Committee quarterly. The investment policy stipulates the following order of investment objectives:

- Preservation of principal
- Liquidity
- Yield

Permitted investments are subject to a maximum maturity of five years. The investment portfolio is designed to attain a market-average rate of return through economic cycles given an acceptable level of risk. Additionally, under the supervision of the CFO, a portion of the investment portfolio is managed by an investment manager that adheres to the KHS investment policy.

The table below identifies the *cash equivalent and investment types* that are authorized by the KHS investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Of Portfolio	Maximum Investment of Portfolio of One Issuer	Allowed or Maximum Ratings
U.S. Treasury Obligations	5 years	100%	None	Not Rated
Federal Agencies and U.S. Government Enterprises State of California and Local Agency	5 years	100%	35%	Not Rated
Obligations	5 years	100%	5%	A-1
State and Local Agency Obligations outside of California	5 years	20%	5%	A-1
Banker's Acceptances	180 days	40%	(1)	A-1
Commercial Paper	270 days	25%	(2)	A-1
Negotiable Certificates of Deposit	5 years	30%	5% (7)	A-1
Government Repurchase Agreements	1 year	100%	(3)	A-1
Corporate Debt Securities	5 years	30%	(5)	А
Money Market Funds	5 years	20%	(4)	AAA
Mortgage or Asset-Backed Securities	5 years	20%	(6)	AAA
Variable and Floating Rate Securities	5 years	30%	5%	AAA
Local Agency Investment Fund (LAIF)	5 years	50%	5%	Not Rated

(1) May not exceed the 5% limit of any one commercial bank and may not exceed the 5% limit for any security on any bank.

NOTES TO FINANCIAL STATEMENTS

- (2) May not exceed more than 10% of the outstanding commercial paper of the issuing corporation.
- (3) May not exceed 50% if maturity is less than or equal to 7 days; 25% if maturity is greater than 7 days.
- (4) May not exceed more than 10% of the money market fund's assets.
- (5) Medium-term notes or other corporate security of any one corporate issuer must not exceed more than 5% of the portfolio.
- (6) Rated AAA by a nationally recognized rating service and issued by an issuer having an A or better rating for its long-term debt.
- (7) Maturities greater than one year and less than five years may not exceed the FDIC Insurance maximum at the time of purchase.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The longer the maturity of an investment, the greater the sensitivity of its fair value to changes in the market interest rates. Generally, investments will decrease in value if interest rates increase.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. KHS is required to disclose the rating for all investments. Cash invested in the Local Agency Investment Fund (LAIF) is considered "exempt from disclosure" under GASB Codification Section 150.

GASB Codification Section 150 requires disclosure of any investments of any single issuer in excess of 5% of its total investments, excluding investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments. There were no investments of any single issuer that exceeded 5% of its total investments as of December 31, 2021or 2020.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, KHS will not be able to recover its deposits or not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, KHS will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and KHS' investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

NOTES TO FINANCIAL STATEMENTS

Cash Equivalents in State Investment Pool

KHS is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the KHS' investment in this pool is reported in the accompanying financial statements at amounts based upon the KHS' pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to be the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that KHS has the ability to access.
Level 2	 Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Certificates of deposit: Valued based on amortized cost or original cost-plus accrued interest.

Corporate, Municipal and Government agency bonds and notes: Valued at the closing price reported on the active market on which the individual securities are traded.

All investments excluding LAIF, held by KHS at December 31, 2021 and 2020 are considered to be level 1 assets. LAIF funds are considered to be level 2 assets.

NOTES TO FINANCIAL STATEMENTS

Note 4. Hospital Directed Payments

Beginning with the July 1, 2017 rating period, the Department of Health Care Services (DHCS) implemented two statewide directed payment programs for designated public hospitals (DPH), the Enhanced Payment Program (EPP) and the Quality Incentive Program (QIP), and one statewide directed payment program for private hospitals (PHDP). EPP provides supplemental reimbursement to Network Provider DPHs through uniform dollar increases for select inpatient and non-inpatient services, based on the actual utilization of qualifying services as reflected in encounter data reported to DHCS. QIP provides quality incentive payments to participating Network Provider DPHs that meet quality metrics designated in the program. PHDP provides supplemental reimbursement to participating Network Provider DPHs that meet quality metrics designated in the program. PHDP provides for select inpatient and outpatient services based on actual utilization of qualifying services as reflected in encounter data reported to DHCS. The Hospital Directed Payment programs were created to maintain access and improve the quality of care for Medi-Cal beneficiaries. These programs direct Managed Care Plans (MCP), like KHS, to pay specified contracted Network Providers in accordance with terms approved by the Centers for Medicare & Medicaid Services (CMS) and directed by DHCS.

The projected value of the program payment obligations to designated hospitals are accounted for as medical expenses and paid through additional capitation revenue. Due to the timing of the program acceptance by CMS and delays in funding to MCPs, KHS retroactively accrued Hospital Directed Payments receivable of approximately \$318.4 million and Hospital Directed payments payable of approximately \$318.4 million and Hospital Directed payments payable of approximately \$318.4 million reported as of December 31, 2021. For the year ended December 31, 2020 KHS accrued Hospital Directed Payments receivable of approximately \$195.7 million and Hospital Directed Payments payable of approximately \$195.7 million. The amount of additional premium revenue for Hospital Directed Payment programs recognized for the years ended December 31, 2020 was approximately \$243.7 million and \$56.1 million, respectively, and is reported as part of operating revenues. Hospital Directed Payment expense obligations recognized for the years ended December 31, 2021 and 2020 was approximately \$242.7 million and \$55.9 million, respectively, and are reported as part of operating expenses.

Note 5. Other Receivables

Other receivables consist of the following at December 31, 2021 and 2020:

		2021		2020
Pharmacy rebates Other Interest	\$	705,000 566,096 42.610	\$	510,000 489,272 111,800
Interest	\$	1,313,706	\$	1.111.072
	ψ	1,515,700	φ	1,111,072

Note 6. Provider Advances

In April 2020 as part of the response to the COVID-19 pandemic and in an effort to support its network of providers of care for the more than 258,000 members served, KHS advanced \$5.7 million under a COVID-19 Provider Financial Relief Program. Under the Program, provider advance payments were offered to select local network providers of up to 50% of their average 2019 monthly claim payments multiplied by three months. The no interest payment advances were aimed at providing financial assistance to those network providers experiencing financial hardships due to lower utilization of medical services as the result of the Governor's shelter in place order. Monthly repayments of provider advances began in September 2021 and are due on January 1, 2023. In the event of a program payment default, KHS has the right to offset amounts owed by providers against any future monies owed to the provider. As of December 31, 2021 and 2020, provider advances due to KHS totaled \$5,068,733 and \$5,506,518, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 8. Split Dollar Life Insurance

In October 2017, KHS entered into a split-dollar life insurance agreement with a key employee and his beneficiary, whereby the employee is eligible to receive distributions, and KHS will receive \$774,526 upon the death of the employee and his beneficiary or termination of the agreement. The policy had a cash surrender value of \$858,223 and \$795,851 at December 31, 2021 and 2020, respectively.

In June 2020, KHS entered into a second split-dollar life insurance agreement with the same employee and his beneficiary as the 2017 agreement, whereby the employee is eligible to receive distributions, and KHS will receive \$847,832 upon the death of the employee and his beneficiary or termination of the agreement. The policy had a cash surrender value of \$794,788 and \$761,093 at December 31, 2021 and 2020, respectively.

Note 9. Accrued Medical Expenses Payable

KHS accrues a liability of unpaid claims for medical services, including estimates of costs related to incurred but not yet reported (IBNR) claims using standard actuarial development methodologies based upon historical data. This data includes the period between the dates services are rendered and the dates claims are received and paid, expected medical cost inflation, utilization trends, seasonality patterns, prior authorization of medical services, provider contract changes and/or changes in Medi-Cal fee schedules and changes in membership. A key component of KHS' IBNR estimation process is the completion factor, which is a measure of how complete the claims paid to date are relative to the estimate of the claims for services rendered in a given period. The completion factors are more reliable for claims incurred that are older than three months and are more volatile and less reliable for more recent periods, since a large portion of health care claims are not submitted to KHS until several months after services have been rendered. Accordingly, for the most recent months, the incurred claims are estimated from a trend analysis based on per member per month claims trends developed from the experience in preceding months.

The majority of the IBNR reserve balance held at year-end is associated with the most recent months' incurred services as these are the services for which the fewest claims have been paid. As mentioned in the preceding paragraph, the degree of uncertainty in the estimates of incurred claims is greater for the most recent months' incurred services.

Additionally, KHS contracts with an independent actuary to review the IBNR estimates. The independent actuary provides KHS with a review letter that includes the results of their analysis of the IBNR reserve. Actuarial Standards of Practice generally require that the medical claims liability be adequate to cover obligations under moderately adverse conditions. Moderately adverse conditions are situations in which the actual claims are expected to be higher than the otherwise estimated value of such claims at the time of estimate. This analysis is used as additional information, together with management's judgment, to determine the assumptions used in the calculation of the IBNR reserve.

KHS consistently applies the IBNR estimation from period to period. Any adjustments from the prior year are included in the current period as a change in accounting estimate. As more complete additional information becomes known, KHS will adjust assumptions accordingly to change the IBNR estimate. KHS recognized \$8.7 million and \$12.1 million of favorable prior year IBNR adjustments for the years ended December 31, 2021 and 2020, respectively, due to lower-than-expected utilization.

NOTES TO FINANCIAL STATEMENTS

The contract covering Expansion members requires KHS to expend a minimum percentage of 85% of premiums and a maximum of 95% on eligible medical benefits expense. To the extent that KHS expends less than the minimum percentage of the premiums on eligible medical benefits, KHS is required to refund to the state all or some portion of the difference between the minimum and its actual allowable medical benefits expense. To the extent KHS expends more than the maximum percentage, KHS is entitled to receive additional reimbursement from the state. At December 31, 2021 and 2020 KHS has accrued \$0 and \$8 million, respectively, to the state for the period July 1, 2016 to December 31, 2021.

Proposition 56: On November 8, 2016, California voters approved Proposition 56 to increase the excise tax rate on cigarettes and tobacco products. Under Proposition 56, a portion of the tobacco revenue is allocation to the Department of Health Care Services (DHCS) for use as the nonfederal share of health care expenditures in accordance with the annual state budget process. Proposition 56 appropriated funds resulted in directed payments made to Medi-Cal managed care health plans for the purposes of paying additional amounts for qualifying physician services based on certain specified CPT procedure codes. The directed payments are subject to a minimum medical expenditure percentage and a portion of capitation payments attributed to this directed payment arrangement will be subject to a two-sided risk corridor. At December 31, 2021 and 2020 KHS has accrued \$48.1 million and \$31.6 million, respectively, in payments to providers for Proportion 56. If less than the targeted amount accrued is paid to providers, amounts will be returned to the State through the performance of DHCS' risk corridor calculation.

Bridge Risk Corridor: Due to the unprecedented circumstances of the COVID-19 pandemic, DHCS and its contracted actuary determined that a two-sided, symmetrical risk corridor ("Bridge Corridor") would appropriately provide protection for both the State and Medi-Cal managed care plans (MCPs) like KHS. The purpose of the risk corridor is to mitigate potentially significant upward or downward risk associated with COVID-19 that was not determinable at the time of rate development. The Bridge Corridor was retroactive to July 1, 2019 and is based on an estimate provided by guidance obtained from DHCS. At December 31, 2021 and 2020 KHS has accrued \$25.5 million and \$6.9 million owed to the state for the period July1, 2019 to December 31, 2021.

		2021		2020
Estimated incurred but not reported claims	\$	82,747,978	\$	73,596,630

Accrued medical services and related claims adjustment expenses payable consist of the following at December 31, 2021 and 2020:

NOTES TO FINANCIAL STATEMENTS

Note 10. Accrued Expenses

Accrued expenses consist of the following at December 31, 2021 and 2020:

	2021	2020
MCO tax expense	\$ 29,533,392	\$ 26,536,275
Community grants payable	4,120,333	2,113,300
Salaries and employee benefits	3,818,601	3,474,673
Non-operating passthrough liability	2,050,194	833,451
Other administrative expenses	1,863,208	1,612,215
CalPERS employee and employer contributions	359,613	442,720
New building and construction	55,000	-
	\$41,800,341	\$ 35,012,634

Note 11. Restricted Investments and Tangible Net Equity

As required by the State of California's Department of Managed Health Care, Section 1300.76.1, KHS has acquired certificates of deposit with three financial institutions totaling \$300,000. These certificates of deposit have been assigned to the Director of the Department of Managed Health Care as part of the process of obtaining and maintaining its Knox-Keene license, and are legally restricted for this purpose. These certificates of deposit mature in amounts of \$100,000 each on June 5, 2022, June 8, 2022 and July 30, 2022.

KHS is a fully licensed health-care service plan under the Knox-Keene Health Care Services Plan Act of 1975 (the "Act"). Under the Act, KHS is required to maintain a minimum level of tangible net equity. The required equity level was approximately \$51.4 million and \$38.9 million at December 31, 2021 and 2020, respectively. KHS' tangible net equity was approximately \$247.5 million and \$227.1 million at December 31, 2021 and 2020, respectively.

Note 12. Employee Pension Plans

CalPERS

Plan description: All qualified permanent employees are eligible to participate in KHS' Miscellaneous Employee Pension Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at http://www.calpers.ca.gov.

Benefits provided: CaIPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to eligible employees. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 or 52 (classic miscellaneous members or PEPRA miscellaneous members, respectively) with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

NOTES TO FINANCIAL STATEMENTS

The Plans' provisions and benefits in effect at December 31, 2021 and 2020 are summarized as follows:

		20	21	20	20
	-	Classic	PEPRA	Classic	PEPRA
	Prior to	On or after	On or after	On or after	On or after
	January 1,	January 1,	January 1,	January 1,	January 1,
Hire date	2013	2013	2013	2013	2013
Benefit formula	2% @ 60	2% @ 60	2% @ 62	2% @ 60	2% @ 62
	5 years of	5 years of	5 years of	5 years of	5 years of
Benefit vesting schedule	service	service	service	service	service
		Monthly for	Monthly for	Monthly for	Monthly for
Benefit payments	Monthly for life	life	life	life	life
Retirement age	50	50	52	50	52
Monthly benefits, as a %					
of eligible compensation	2%	2%	2%	2%	2%
Retirement employee					
contribution rates	7%	6.92%	6.75%	6.918%	6.75%
Required employer	6.709% to	8.794% to	7.732% to	8.081% to	6.985% to
contribution rates	7.159%	8.650%	7.590%	8.794%	7.732%

Contributions: Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on the actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. KHS is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the years ended December 31, 2021 and 2020, the contributions recognized as part of pension expense were as follows:

	2021	2020
Contributions - employer	\$ 2,951,981	\$ 2,536,160
Contributions - employee (paid by employer)	\$ -	\$ -

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of December 31, 2021, and 2020, KHS reported net pension (asset) liability for its proportionate share of the net pension (asset) liability of (\$693,712) and \$8,432,377, respectively.

NOTES TO FINANCIAL STATEMENTS

KHS' net pension (asset) liability is measured as the proportionate share of the net pension (asset) liability. The net pension (asset) liability is measured as of June 30, 2021, and the total pension liability used to calculate the net pension (asset) liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. KHS' proportion of the net pension (asset) liability was based on a projection of KHS' long-term share of contributions to the plan relative to the projected contributions of all participating employers, actuarially determined. KHS' proportionate share of the net pension (asset) liability as of June 30, 2021 and 2020 was as follows:

Proportion - June 30, 2020	0.2881%
Proportion - June 30, 2021	0.3221%
Change - Increase	0.0340%

KHS' net pension liability is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. KHS' proportion of the net pension liability was based on a projection of KHS' long-term share of contributions to the plan relative to the projected contributions of all participating employers, actuarially determined. KHS' proportionate share of the net pension liability as of June 30, 2019 and 2020 was as follows:

Proportion - June 30, 2019	0.2642%
Proportion - June 30, 2020	0.2881%
Change - Increase	0.0239%

For the years ended December 31, 2021 and 2020, KHS recognized pension expense of \$963,272 and \$4,017,997, respectively. At December 31, 2021 and 2020, KHS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2021		20	020
	Deferred	Deferred	Deferred	Deferred
	Outflows of	Inflows of	Outflows of	Inflows of
	Resources	Resources	Resources	Resources
Pension contributions subsequent to the measurement date Changes in assumptions Differences between expected and actual experiences Net differences between projected and actual earnings on pension plan	\$ 2,980,058 - 685,763	\$ - - -	\$ 2,030,993 - 626,308	\$ - 86,684 -
investments	-	5,338,319	361,040	-
Total	\$ 3,665,821	\$ 5,338,319	\$ 3,018,341	\$ 86,684

NOTES TO FINANCIAL STATEMENTS

\$2,980,058 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as an increase of the net pension (asset) in the year ending December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year ended December 31,

2022 2023 2024	\$ (962,157) (1,036,494) (1,178,669)
2025	(1,475,236)
	\$ (4,652,556)

Actuarial Methods and Assumptions: The total pension liabilities in the June 30, 2020 and 2019 actuarial valuations were determined using the following actuarial assumptions:

	2021	2020
Valuation date	June 30, 2020	June 30, 2019
Measurement date	June 30, 2021	June 30, 2020
Actuarial cost method	Entry-Age Norm	al Cost Method
Actuarial assumptions:		
Discount rate	7.15%	7.15%
Inflation	2.50%	2.50%
Payroll growth	2.75%	2.75%
Projected salary increase	Varies by Entry	Age and Service
Investment rate of return	7.00% (a)	7.25% (a)
Mortality	Derived usir	ig CalPERS'
-	Membership Data	-

(a) Net of pension plan investment and administrative expenses; includes inflation

(b) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016.

Discount Rate: The discount rate used to measure the total pension liability was 7.15% as of June 30, 2020 and June 30, 2019. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount rates of 7.15% as of June 30, 2020 and 2019 are adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website at http://www.calpers.ca.gov.

NOTES TO FINANCIAL STATEMENTS

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.15% as of June 30, 2020 and June 30, 2019, investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.30% as of June 30, 2020 and 2019. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension (Asset) Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. The rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Long-Term Expected Rate of Return
Public Equity (a)	51.4%	10.1%
Private Equity	8.3%	12.0%
Income (a)	29.8%	5.1%
Real Assets	9.6%	8.1%
Total Fund (b)	2.5%	-
Financing and liquidity (c)	-1.6%	1.2%
Total	100%	

(a) Includes exposure from derivatives and repo borrowing used for Trust Level leverage liquidity.

(b) Includes subtotal and totals that may not sum due to rounding.

(c) Reflects derivatives financing and repo borrowing in Trust Level Synthetic Cap Weighted and Synthetic Treasury portfolios. Liquidity reflects net asset value of the Liquidity Segment.

NOTES TO FINANCIAL STATEMENTS

Sensitivity of the Proportionate Share of the Net Pension (Asset) Liability to Changes in the Discount Rate: The following presents KHS' proportionate share of the net pension (asset) liability, calculated using the discount rate, as well as what KHS' proportionate share of the net pension (asset) liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	2021	2020
1% Decrease Net Pension (Asset) Liability	\$ 6.15% (1,656,732)	6.15% 13,465,820
Current Discount Rate Net Pension (Asset) Liability	\$ 7.15% (693,712)	7.15% 8,432,377
1% Increase Net Pension Liability	\$ 8.15% 102,403	8.15% 4,273,401

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Retirement Plan

Plan description and funding policy: KHS has a 401(a)-retirement plan, which was approved by the IRS on August 15, 1996. All full-time employees are eligible to participate in the Plan. KHS matches 100% of contributions made by KHS employees to their 457(b) plan up to a maximum of 6% of the employee's salary. KHS contributions do not vest until the employee has been employed for three years when at such time the employee becomes 100% vested. Participants are not allowed to make contributions to the Plan; only employer contributions are allowable. Expense determined in accordance with the plan formula was \$1,665,198 and \$1,614,047 for the years ended December 31, 2021 and 2020, respectively.

Note 13. Stop-Loss Insurance

KHS purchases stop-loss insurance to reduce the risk associated with large losses on individual hospital claims. The premium costs are based on a deductible for each member in addition to a deductible layer for the plan referred to as an Aggregate Specific Retention amount.

For the years ended December 31, 2021 and 2020 coverage provides reimbursement of approximately 95 percent of the cost of each member's acute care hospital admission(s) in excess of the deductibles, up to a maximum payable of \$2,000,000 per member per contract year.

For each of the years ended December 31, 2021 and 2020 the premium coverage is \$0.29 per member per month with no minimum annual premium requirement.

The deductible for each individual member was \$300,000 and the Aggregate Specific Retention deductible was \$0.23 per member per month (PMPM) for the year ended December 31, 2021. The deductible for each individual member was \$300,000 and the Aggregate Specific Retention deductible was \$0.27 per member per month (PMPM) for the year ended December 31, 2020.

Stop-loss insurance premiums of \$1,000,259 and \$904,111 are included in medical and hospital expense for the years ended December 31, 2021 and 2020, respectively. There were no stop-loss insurance recoveries for the year ended December 31, 2021. Stop-loss insurance recoveries of \$261,987 are included in operating revenue for the year ended December 31, 2020.

NOTES TO FINANCIAL STATEMENTS

Note 14. Commitments and Contingencies

Litigation

KHS is subject to litigation claims that arise in the normal course of business. A provision for a legal liability is made when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions, if any, are reviewed and adjusted to reflect the impacts of negotiations, estimated settlements, legal rulings, advice of legal counsel and other information and events pertaining to a matter. It is the opinion of management that there is no known existing litigation that would have a material adverse effect on the financial position, results of operations or cash flows of KHS.

Professional Liability Insurance

KHS maintains Managed Care Errors and Omissions Liability Insurance for an act, error, or omission in the performance of any health care or managed care services rendered by KHS. In addition, KHS maintains general liability insurance.

Cyber Insurance

KHS maintains Cyber Insurance to reduce the financial risk associated from a cyber-attack and/or a data breach involving sensitive member or employee information. The policy also assists with notification costs and data restoration expenses.

Pharmacy

As of December 31, 2021, KHS managed the pharmacy benefit for its members by contracting with a Pharmacy Benefit Manger ("PBM") to assist with claims processing and pharmacy rebate services. Effective January 1, 2022, DHCS transitioned most Medi-Cal pharmacy benefits from managed care plans like KHS to fee-for-service ("FFS"). DHCS believes that this was required to combat rising prices for prescription drugs by increasing the State's bargaining power in negotiating prescription drug prices with pharmaceutical companies. The impact of the pharmacy benefit transition is not expected to have a material adverse impact to the overall operations of KHS. For the year ended December 31, 2021, KHS recognized \$116,469,893 in Pharmacy revenue and \$3,224,445 in Hepatitis C supplemental kick revenue as part of its premium capitation which in total accounted for approximately 13.1% of reported Premiums earned. For the year ended December 31, 2021, KHS reported \$107,035,326 in Pharmacy expense and \$3,138,427 in Hepatitis C expense, and received \$1,494,616 from Pharmacy Rebates, which in total accounted for approximately 12.2% of reported Medical and hospital expenses. For the year ended December 31, 2020, KHS recognized \$117,750,322 in Pharmacy revenue and \$4,867,111 in Hepatitis C supplemental kick revenue as part of its premium capitation which in total accounted for approximately 13.1% of reported Premiums earned. For the year ended December 31, 2020, KHS reported \$99,509,583 in Pharmacy expense and \$3,776,146 in Hepatitis C expense, and received \$1,378,251 from Pharmacy Rebates, which in total accounted for approximately 13.3% of reported Medical and hospital expenses.

NOTES TO FINANCIAL STATEMENTS

COVID-19 Vaccination Incentive Program

Kern Health Systems embarked on an aggressive COVID-19 Vaccination Incentive Program that aligns with the Department of Health Care Service's initiative to materially increase vaccines among California's Medi-Cal population. This program focuses on identifying unvaccinated beneficiaries, educating them as to the vaccine's importance, increasing access to COVID-19 vaccination sites and providing incentives to encourage becoming vaccinated. Starting September 1, 2021 through February 28, 2022, KHS will be offering an incentive to members who get fully vaccinated. Providers that are willing to enhance their efforts in getting their assigned members vaccination and become a vaccination site, are also being incentivized. KHS has also partnered with several community organizations and initiatives that are focusing on education and access to COVID 19 vaccinations in Kern County. As of December 31, 2021, KHS reported additional Medi-Cal premium revenue of \$4,868,689 related to Vaccine Incentive Programs and medical expense of \$3,585,718.

Regulatory Matters

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties. KHS is subject to periodic financial and information reporting and comprehensive quality assurance evaluations from state regulators. KHS regularly submits periodic financial, encounters, utilization and operational reports. Management believes that KHS is in compliance with fraud, waste and abuse laws, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretations as well as regulatory actions unknown or unasserted at this time.

Changes in the regulatory environment and applicable laws and rules also may occur periodically in connection with political and administrative initiatives at the local, state, or national level. Much of the federal and state focus in 2021 was related to the COVID-19 response. This included federal and state efforts to expand access to COVID testing and treatment services. The State budget also put forth retro-active and prospective rate reductions for Medi-Cal Managed Care Plans. Additionally, in 2021 there were numerous temporary changes in regulatory requirements related to the COVID-19 Public Health Emergency (PHE). While most conversations were on hold during the COVID PHE, the Governor's administration and the legislature also continue to consider a single-payer healthcare system for California.

California Advancing and Innovating Medi-Cal (CalAIM) is a multi-year initiative by DHCS to implement policy changes with the objective of:

- 1) Reducing variation and complexity across the delivery system;
- 2) Identifying and managing member risk and need through population health management strategies; and
- 3) Improving quality outcomes and drive delivery system transformation through value-based initiatives and payment reform.

This initiative began January 1, 2022 and has a significant operational impact to Medi-Cal Managed Care Plans (MCPs) like KHS. Some examples include, transitioning the DHCS Health Homes Program and Whole Person Care Program to an Enhanced Care Management and Community Support Services programs along with additional Transplant services to MCPs, a proposal to carve-in Long Term Care to MCPs, a proposal requiring all MCPs operate a Duals Special Needs Plan (D-SNP), and a proposal requiring all MCPs to become NCQA accredited.

NOTES TO FINANCIAL STATEMENTS

Information Technology

KHS is dependent on effective and secure enterprise commercial information systems that assist in the operational processing and management of eligibility, benefits, payments, providers, clinical quality, benefit utilization, and clinical population oversight. These third-party systems, vendor relationships, and support models/contracts are critical in managing data that is essential for internal and external (regulators) oversight and required KHS to monitor data security measures to adhere to CMS and HIPAA regulations. This makes our operations vulnerable to adverse effects if such third parties fail to perform adequately. KHS' Management Information Systems department is constantly engaged in the third-party contracts that govern these systems while reviewing technical architectures, third-party operational models, and the business continuity and disaster recovery solutions using private and public cloud systems. KHS continued to be impacted by COVID-19 and a hybrid workforce and telecommuting model. KHS has operationalized its support team and processes leveraging third-party solutions to continue its operations for this new telecommuting work model. The KHS information systems require an ongoing commitment of significant resources to maintain, protect, and enhance existing systems while developing new systems to keep pace with continuing changes in information processing technology, evolving systems and regulatory standards, changing customer preferences, acquisitions, and increased security risks.

Encounter Data

KHS is required to submit complete and correct encounter data to DHCS. The accurate and timely reporting of encounter data is becoming increasingly important to determine compliance with performance standards and in setting KHS' premium rates. Inaccurate encounter reporting could result in penalties and fines being assessed by DHCS.

The Health Insurance Portability and Accountability Act

The Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and the regulations adopted under HIPAA are intended to improve the portability and continuity of health insurance coverage and simplify the administration of health insurance claims and related transactions. All health plans are considered covered entities subject to HIPAA. HIPAA generally requires health plans, as well as their providers and vendors, to:

- protect patient privacy and safeguard individually identifiable health information; and
- establish the capability to receive and transmit electronically certain administrative health care transactions, such as claims payments, in a standardized format.

Specifically, the HIPAA Privacy Rule regulates use and disclosure of individually identifiable health information, known as "protected health information" ("PHI"). The HIPAA Security Rule requires covered entities to implement administrative, physical and technical safeguards to protect the security of electronic PHI. Certain provisions of the security and privacy regulations apply to business associates (entities that handle PHI on behalf of covered entities), and business associates are subject to direct liability for violation of these provisions. Furthermore, a covered entity may be subject to penalties as a result of a business associate violating HIPAA, if the business associate is found to be an agent of the covered entity. HIPAA violations by covered entities may also result in civil and criminal penalties.

NOTES TO FINANCIAL STATEMENTS

Premium and Eligibility Reconciliations

Premium payments received by KHS from DHCS are based on eligibility lists generated between DHCS and by county agencies that are responsible for determining Medi-Cal eligibility. In a report issued on October 30, 2018 by the California State Auditor, the report indicated "questionable payments" for many counties throughout California, including Kern County. During the period January 1, 2014 through December 31, 2017 amounts of \$10,421,757 relating to Managed Care Premiums and \$2,854,656 relating to Fee For Service Payments for a total of \$13,276,413 of payments by DHCS were identified for Kern County primarily due to beneficiaries being eligible on the DHCS eligibility system and not being eligible on the county agency eligibility system. During the first quarter of 2020, DHCS recouped approximately \$563,000 relating to payments previously received by KHS for members that were determined to be deceased by DHCS. This amount was subtracted from KHS' 2019 revenues. There were no significant recoupments in 2021 for deceased members but it remains unclear if any additional amounts will be recouped by DHCS from KHS. Accordingly, premium revenues could remain subject to reconciliation and recoupment for many years. The refund of a premium overpayment could be significant and would reduce the premium revenue in the year that the repayment obligation is identified.

Expansion Risk Corridor Liability Adjustment

The Risk Corridor Liability is based on management's best estimate of a medical loss ratio estimate for KHS Expansion members that have medical expenses below 85% of premiums. KHS is required to refund to the State amounts below 85%. The calculation of the 85% medical loss ratio is subject to the following adjustments:

- Revenue rate adjustments by DHCS
- The inclusion and/or exclusion of certain medical expenses
- Eligibility adjustments
- DHCS and CMS audit adjustments

Bridge Corridor Liability Adjustment

Due to the unprecedented circumstances of the COVID-19 pandemic, DHCS and its contracted actuary determined that a two-sided, symmetrical risk corridor ("Bridge Corridor") would appropriately provide protection for both the State and Medi-Cal managed care plans (MCPs) like KHS. The purpose of the risk corridor is to mitigate potentially significant upward or downward risk associated with COVID-19 that was not determinable at the time of rate development. The Bridge Corridor was retroactive to July 1, 2019 and through December 31, 2020. The Bridge Corridor calculation is subject to the following adjustments:

- Revenue rate adjustments by DHCS
- The inclusion and/or exclusion of certain medical expenses
- Eligibility adjustments
- DHCS and CMS audit adjustments

Any adjustments to the Expansion or Bridge Risk Corridor Liability amounts could be significant and would increase or decrease reported medical expenses in the year the adjustment is required.

NOTES TO FINANCIAL STATEMENTS

Patient Protection and Affordable Care Act

In March 2010, the President signed into law the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively referred to as the Healthcare Reform Legislation), which considerably transformed the U.S. health-care system and increased regulations within the U.S. health insurance industry. This legislation expanded the availability of health insurance coverage to millions of Americans. The Healthcare Reform Legislation contains provisions that took effect from 2010 through 2020, with most measures effective in 2014. Under the Healthcare Reform Legislation, Medi-Cal coverage expanded as of January 2014 to nearly all low-income people under age 65 with income at or below 138% of the federal poverty line. The federal government paid 100% of the entire cost for Medicaid Expansion coverage for newly eligible beneficiaries from 2014 through 2016, 95% in 2017, 94% in 2018, 93% in 2019, 90% in 2020, and 95% in 2021. For the years ended December 31, 2021 and 2020, KHS served an average of 74,684 and 64,929 Medi-Cal Expansion members per month, respectively, which generated revenues of approximately \$345.8 million and \$320.6 million, respectively.

Contract Commitment

In September 2014 KHS entered into a ten-year contract with a vendor to supply software, licensing, support and maintenance, including a migration process from the existing software. Expenses are paid annually and are subject to change based on changes to the Consumer Price Index and changes in membership. At December 31, 2021 the total future contract commitments are as follows:

Years ending December 31,

2022	\$ 635,538	
2023	386,142	
2024	386,142	
	\$ 1,407,822	_

Note 15. Concentration of Revenue

KHS' operating revenue is primarily derived from the California Department of Health Care Services (DHCS). KHS' current contract term with DHCS is to provide health care services through December 31, 2022, and is subject to cancellation upon either party giving at least six months written notice. For the years ended December 31, 2021 and 2020 over 99% of KHS' total revenues were received from DHCS. Future levels of funding and premium rates received by KHS could be impacted by state and federal budgetary constraints.

OTHER INDEPENDENT AUDITOR'S REPORT

An independently owned member RSM US Alliance

Member of AICPA Division for Firms Private Companies Practice Section

NANCY C. BELTON

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors **Kern Health Systems** Bakersfield, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of **Kern Heath Systems**, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise **Kern Health Systems**' basic financial statements, and have issued our report thereon dated April 1, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered **Kern Heath Systems**' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **Kern Health Systems**' internal control. Accordingly, we do not express an opinion on the effectiveness of **Kern Health Systems**' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether **Kern Health Systems**' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Required Communications	1-2
Summary of Significant Accounting Estimates	3
Summary of Uncorrected Misstatement	4
Exhibit A – Representation Letter	5-10

Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication with Those Charged with Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments				
Our Responsibilities with regard to the Financial Statement Audit	Our responsibilities under auditing standards generally accepted in the United States of America have been described to you in our arrangement letter dated January 14, 2022. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities, which are also described in that letter.				
Overview of the Planned Scope and Timing of the Financial Statement Audit	We have issued a separate communication regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.				
Accounting Policies and Practices	Preferability of Accounting Policies and Practices Under generally accepted accounting principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.				
	Adoption of, or Change in, Accounting Policies Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Organization. The Organization did not adopt any significant new accounting policies nor have there been any changes in existing significant accounting policies during the current period.				
	Significant or Unusual Transactions We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.				
	Management's Judgments and Accounting Estimates Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached "Summary of Significant Accounting Estimates".				

Area	Comments
Audit Adjustments	There were no audit adjustments, proposed by us, made to the original trial balance presented to us to begin our audit.
Uncorrected Misstatement	An uncorrected misstatement is summarized in the attached "Summary of Uncorrected Misstatement".
Disagreements with Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.
Consultations with Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed with Management	No significant issues arising from the audit were discussed with or were the subject of correspondence with management.
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.
Certain Written Communications Between Management and Our Firm	Copies of significant written communications between our firm and the management of the Organization, including the representation letter provided to us by management, are attached as Exhibit A.

Kern Health Systems

Summary of Significant Accounting Estimates Year Ended December 31, 2021

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the Organization's December 31, 2021, financial statements:

Estimate	Managements Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Estimated claims payable	Estimates are based on historical information for total claims received and paid	Estimate is in accordance with accounting principles generally accepted in the United States of America
Provider performance quality incentive liabilities	Estimates are based on historical information for total claims received and paid	Estimate is in accordance with accounting principles generally accepted in the United States of America
Incurred but not reported claims	Estimates are based on historical information for total claims received and paid	Estimate is in accordance with accounting principles generally accepted in the United States of America
Net pension asset/liability	Estimate is based on actuarial reports provided by CalPERS	Estimate is in accordance with accounting principles generally accepted in the United States of America
Expansion and bridge risk corridor liabilities	Estimates are based on management's best estimate of medical loss ratio	Estimate is in accordance with accounting principles generally accepted in the United States of America

Kern Health Systems

Summary of Uncorrected Misstatement Year Ended December 31, 2021

During the course of our audit, management made us aware of a correction recorded in the current year for prior year depreciation expense which resulted from facts made known to management during the current audit period. Depreciation expense for the current year should not have included any depreciation expense relating to the prior period. This uncorrected misstatement was determined by management to be immaterial, both individually and in the aggregate, to the financial position, results of operations, cash flows and related financial statement disclosures. Following is a summary of those differences.

	Effect — Increase (Decrease)								
Description	Assets		Liabi	lities	Eq	uity	Reve	nue	Expense
To record depreciation expense in									
the proper period.	\$	-	\$	-	\$	1,492,971	\$	-	\$ (1,492,971)

Exhibit A Representation Letter

April 1, 2022

Daniells Phillips Vaughan & Bock 300 New Stine Road Bakersfield, California 93309

This representation letter is provided in connection with your audits of the basic financial statements of **Kern Health Systems** as of December 31, 2021 and 2020, for the purpose of expressing an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

We confirm, to the best of our knowledge and belief, that as of April 1, 2022:

Financial Statements

- 1. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated January 14, 2022, for the preparation and fair presentation of the financial statements referred to above in accordance with U.S. GAAP.
- 2. We acknowledge our responsibility for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- 3. We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud.
- 4. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events, and our assumptions about conditions we expect to exist and courses of action we expect to take.
- 5. Related-party transactions have been recorded in accordance with the economic substance of the transaction and appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
- 6. All events subsequent to the date of the financial statements, and for which U.S. GAAP requires adjustment or disclosure, have been adjusted or disclosed.
- 7. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
- 8. We have no direct or indirect legal or moral obligation for any debt of any organization, public or private, that is not disclosed in the financial statements.

- 9. We have complied with all aspects of laws, regulations and provisions of contracts and agreements that would have a material effect on the financial statements in the event of noncompliance. In connection therewith, we specifically represent that we are responsible for determining that we are not subject to the requirements of the Single Audit Act because we have not received, expended or otherwise been the beneficiary of the required amount of federal awards during the period of this audit.
- 10. We have informed you of all uncorrected misstatements.

As of and for the year ended December 31, 2021, we believe that the effects of the uncorrected misstatements aggregated by you and summarized below are immaterial, both individually and in the aggregate, to the basic financial statements. For purposes of this representation, we consider items to be material, regardless of their size, if they involve the misstatement or omission of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

Description To record depreciation expense in the proper period.	Effect — Increase (Decrease)								
	Assets		Liabilities		Equity		Revenue		Expense
	\$		\$		\$	1,492,971	\$		\$ (1,492,971)

- 11. With respect to the service of drafting the financial statements and providing guidance on new authoritative pronouncements performed in the course of the audit:
 - a. We have made all management decisions and performed all management functions;
 - b. We assigned an appropriate individual to oversee the services;
 - c. We evaluated the adequacy and results of the services performed, and made an informed judgment on the results of the services performed;
 - d. We have accepted responsibility for the results of the services; and
 - e. We have accepted responsibility for all significant judgments and decisions that were made.
- 12. The following have been properly recorded and/or disclosed in the financial statements:
 - a. Compliance with bond indentures or other debt instruments;
 - b. Disclosures related to third-party payer agreements and settlements;
 - c. Disclosures related to professional liability coverages;
 - d. Disclosures related to self-insured risks.
- 13. Management is responsible for making the accounting estimates included in the financial statements. Those estimates reflect management's judgment based on knowledge and experience about past and current events and assumptions about conditions management expects to exist and course of action they expect to take. These include:
 - a. Estimated adjustments to revenue, such as retroactive adjustments by the Department of Health Care Services;

6

- b. Obligations related to third-party payer contracts, including risk sharing and contractual settlements;
- c. Audit and other adjustments by the Department of Health Care Services;
- d. Obligations related to providing future services under prepaid health care service contracts;
- e. Medical malpractice obligations expected to be incurred with respect to services provided through December 31, 2021
- 14. Data submitted to the Department of Health Care Services complies in all respects with applicable coding principles and laws and regulations (including those dealing with Medicare antifraud and abuse), and only reflect charges for services that were medically necessary, properly approved by regulatory bodies and properly rendered.
- 15. Recorded receivable valuation allowances are necessary, appropriate, and properly supported.
- 16. With respect to reports submitted to the Department of Health Care Services:
 - a. All required Medi-Care and similar reports have been filed;
 - b. Management is responsible for the accuracy and propriety of all reports filed;
 - c. All costs reflected on such reports are appropriate, allowable under applicable reimbursement rules and regulations, patient-related, and properly allocated;
 - d. The reimbursement methodologies and principles employed are in accordance with applicable rules and regulations;
 - e. Adequate consideration has been given to, and appropriate provision made for, audit adjustments by intermediaries, third-party payors, or other regulatory agencies.
 - f. All items required to be disclosed, including disputed costs that are being claimed to establish a basis for a subsequent appeal, have been fully disclosed in the report;
 - g. Recorded settlements include differences between filed (and to be filed) reports and calculated settlements, which are necessary based upon historical experience or new or ambiguous regulations that may be subject to differing interpretations. While management believes the entity is entitled to all amounts claimed on the cost reports, management also believes the amounts of these differences are appropriate;
 - h. The specialist used by management in preparing medical services payable estimates and reserves had a sufficient level of competence and experience in cost reporting. Management recognizes responsibility for estimated settlement amounts and balances and, that all such amounts are fairly presented.
- 17. In addition, we believe that the actuarial assumptions and methods used by the actuary for funding purposes and for determining the IBNR accrual are appropriate in the circumstances. We did not give instructions, or cause any instructions to be given, to the specialists with respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the Organization's actuary.

Information Provided

18. We have provided you with:

- a. Access to all information of which we are aware that is relevant to the preparation and fair presentation of the basic financial statements such as records, documentation and other matters.
- b. Additional information that you have requested from us for the purpose of the audits.Unrestricted access to persons within the Organization from whom you determined it necessary to obtain audit evidence.
- c. Minutes of the meetings of the directors and committees of directors and committees or summaries of actions of recent meetings for which minutes have not yet been prepared.
- 19. All transactions have been recorded in the accounting records and are reflected in the basic financial statements.
- 20. We have disclosed to you the results of our assessment of risk that the basic financial statements may be materially misstated as a result of fraud.
- 21. It is our responsibility to establish and maintain internal control over financial reporting. One of the components of internal control is risk assessment. We hereby represent that our risk assessment process includes identification and assessment of risks of material misstatement due to fraud. We have shared with you our fraud risk assessment, including a description of the risks, our assessment of the magnitude and likelihood of misstatements arising from those risks, and the controls that we have designed and implemented in response to those.
- 22. We have no knowledge of allegations of fraud or suspected fraud affecting the Organization's basic financial statements involving:
 - a. Management.
 - b. Employees who have significant roles in internal control.
 - c. Others where the fraud could have a material effect on the basic financial statements.
- 23. We have no knowledge of any allegations of fraud or suspected fraud affecting the Organization's financial statements received in communications from employees, former employees, analysts, regulators, short sellers or others.
- 24. We have no knowledge of noncompliance with laws or regulations, such as those related to Medicare and Medicaid antifraud and abuse statutes, in any jurisdiction, whose effects are considered for disclosure in the financial statements or as a basis for recording a loss contingency other than those disclosed or accrued in the financial statements. This is including, but not limited to, the anti-kickback statute of the Medicare and Medicaid Patient and Program Protection Act of 1987, limitations on certain physician referrals (the Stark law), and the False Claims Act.
- 25. We are not aware of any pending or threatened litigation and claims whose effects should be considered when preparing the financial statements.

- 26. We have disclosed to you the identity of all of the Organization's related parties and all the relatedparty relationships and transactions of which we are aware.
- 27. We are aware of no significant deficiencies, including material weaknesses, in the design or operation of internal controls that could adversely affect the Organization's ability to record, process, summarize and report financial data. We are aware of no communications from regulatory agencies, governmental representatives, employees, or others concerning investigations or allegations or noncompliance with laws and regulations in any jurisdiction, including those related to Medicare and Medicaid antifraud and abuse statues; deficiencies in financial reporting practices; or other matters that could have a material adverse effect on the financial statements.
- 28. The following have been made available to you:
 - a. Contracts with all significant third-party party payers or other providers;
 - b. Reports of regulatory examinations that are currently in process. Management is not aware of any allegations of noncompliance that should be considered for disclosure or as a basis for recording a loss contingency.
- 29. There are no:
 - a. Violations or possible violations of laws or regulations, such as those related to the Medi-Care and Medi-Caid antifraud and abuse statutes, including but not limited to the Medi-Care and Medi-Caid Anti-Kickback Statute, Limitations on Certain Physician Referrals (the Stark law}, and the False Claims Act, in any jurisdiction whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.
 - b. Communications, whether oral or written, from regulatory agencies, governmental representatives, employees, or others concerning investigations or allegations of noncompliance with laws and regulations in any jurisdiction, including those related to the Medi-Care and Medicaid antifraud and abuse statutes, deficiencies in financial reporting practices, or other matters that could have a material adverse effect on the financial statements.
- 30. During the course of your audits, you may have accumulated records containing data that should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.

Supplementary Information

- 31. With respect to management's discussion and analysis, the schedules of proportionate share of the net pension liability and the schedules of pension contributions presented as required by the Governmental Accounting Standards Board to supplement the basic financial statements:
 - a. We acknowledge our responsibility for the presentation of such information.
 - b. We believe such information, including its form and content, is fairly presented in accordance with U.S. GAAP, regulatory or contractual requirements, management's criteria, or other requirements.

c. The methods of measurement or presentation have not changed from those used in the prior period.

Re: Renewal of Zipari Agreement

Background

In December 2015, Kern Health Systems ("KHS") issued a Request for Proposal ("RFP") to identify vendors to replace the existing Provider and Member Portal. After evaluating proposals, KHS selected HealthX as the provider for these services. In December of 2020 HealthX merged with Zipari to improve connectivity between Payers, Members and Providers.

Overview

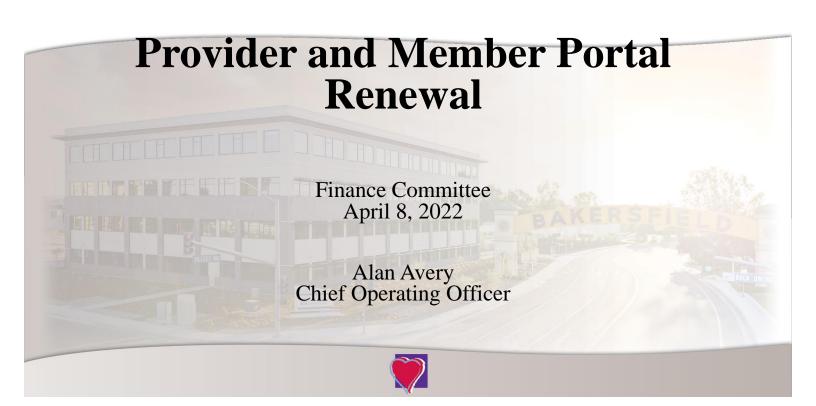

During the past years, Zipari has partnered with KHS to provide exceptional member and provider access. Provider acceptance and use of the KHS portal has increased to the point where currently 97% of professional prior authorization requests and 99% of all inpatient admissions are submitted via the portal. Providers also have availability to confirm member eligibility, patient gaps in care, check claim and authorization status along with geo mapping for the provider network. Member adoption and use of the member portal is also on the increase. Currently 44,301 members have registered and used the member portal. The top five reasons members call into Member Services could be resolved using the member portal along with access to gaps in care along with geo mapping for the Provider Network. Since the implementation of the Zipari Provider and Member Portals, KHS has successfully linked the core QNXT and JIVA administrative platforms to the Zipari Portals, thus improving Member and Provider connectivity. KHS has been very satisfied with the services provided by Zipari.

Financial Impact

This agreement will not exceed \$1,986,734 per three years.

Requested Action

Approve; Refer to the KHS Board of Directors.

Background

- December 2015 KHS conducted RFP process to replace its existing provider portal (Patriot) that was no longer supported and implement new member portal-<u>regulatory requirement</u>
- May 2016 selected HealthX and executed initial 3 year agreement.
- May 2019 renewed HealthX and executed additional 3 year agreement.
- December 2020 HealthX merges with Zipari to improve connectivity between payers, members and providers.
- The Zipari Member and Provider Portals are fully integrated with KHS Core Systems-QNXT & JIVA
- KHS has been very satisfied with the Zipari portal products and overall vendor performance.

KHS Provider & Member Portal Services

- <u>Self Help Tools</u>: Request ID Card, PCP Change, Demographic Change, Allow access to account, and request information
- <u>View Key Information</u>: View Healthcare Reminders-Gaps in Care, view referrals, take screenshot of Member ID Card
- <u>Locate Providers</u>: PCP & Specialty Provider Search, Locate Plan Urgent Care or Hospital, Google Directions to provider locations
- <u>View Benefits</u>: View/Download Member Handbook & Provider Directory
- <u>Member Assist</u>: KHS MSRs can assist portal users-see what they see, and we can help perform the on-line function for them.
- <u>Quick Links</u>: Several automatic links for transportation services, interpreting services and filing a complaint/grievance.
- <u>Member Utilization</u>: 44,301 Members have an on-line account 2021 Activity

Activity	
1630 PCP Changes	
6515 Demographic (Changes

KHS Provider Portal Services

- Check Member Eligibility
- View Members Gaps in Care (including COVID-19 Vaccination Status) for MCAS/HEDIS Compliance
- Check Claim receipt and payment status
- On-Line vs. Paper Submission of Outpatient Prior Authorizations & Inpatient Admissions (Participating Providers Only)
- Inpatient 99%
 - Outpatient 97%
- Review Authorizations
- 2D Provider peer profile comparison
- Complete PCS forms to authorize NEMT transportation services for members.
- Provider Portal 2021 Pageviews
 - Total views = 10,026,411
 - Unique Views = 4,273,396

Financial Terms

Recommendation

- KHS Management recommends to the Board to renew our current agreement with Zipari and sign a three (3) year renewal extension.
- Request the Board of Directors authorize the CEO to approve a three year contract renewal with Zipari in the amount not to exceed \$1,986,734 for three years for member and provider portal services.

Re: QNXT Claims Workflow

Background

The KHS Claims Department currently uses an internally developed claims workflow tool that allows management to route, prioritize and track provider claims inventory. This workflow tool was developed pre QNXT (current KHS' Core System) implementation and was adapted in October 2015 to work with the QNXT claims system. At the time of the QNXT implementation, the KHS workflow tool surpassed the functionality of the QNXT workflow tool. However, since 2015, Cognizant has invested significant developmental resources to the QNXT workflow tool, now surpassing the functionality of the outdated KHS internal developed workflow tool.

Overview

KHS Claims Management is recommending the acquisition and implementation of the robust QNXT workflow tool to improve the management of provider claims inventory. This fully integrated tool will provide increased flexibility to manage the new CalAIM claims, increase auto adjudication along with decreasing overall processing timelines. Not only does the functionality of the current QNXT workflow tool surpass the KHS internally developed workflow tool, Cognizant is continually making investments and quarterly updates to their workflow tool to remain current with regulatory and industry payment changes. It is estimated a savings of \$1,082,120 will be achieved as a result of eliminating the need to increase future claims staffing to accommodate membership growth by 2 claims examiners in the first three years, and an additional claims examiner in the last two years of the proposed five-year agreement.

Financial Impact

This agreement will not exceed \$793,758 per five years.

Requested Action

Approve; Refer to KHS Board of Directors.

Finance Committee April 8, 2022

Alan Avery, Chief Operating Officer Robin Dow-Morales, Director of Claims

Background

- Workflow software provides system functionality that allows the routing, prioritization, and tracking of provider claims inventory.
- Existing Claims Workflow was developed by KHS I.T. to work with previous claims platform and adapted in 2015 for QNXT.
- KHS continued to track progress of Cognizant QNXT Claims workflow development
- New QNXT Workflow product surpasses functionality of internal developed software system.
- CalAIM has added unique provider types requiring increased flexibility in distributing work to appropriate claims staff.
- KHS needs flexibility in provider reimbursement models.
- KHS continually looking for automation of claims distribution, auto adjudication, avoid increasing staff and improve provider satisfaction thru decreased processing time.

3

Current/New System Comparison

Current System	New System
Claims Processors are required to track the claim in Workflow and work the claim separately in QNXT.	Processor tracks and works the claim at the same time. One screen handles the work and tracking.
Distribute claims into queues using prioritization hierarchies and user defined rules.	Distribute claims into queues using increased robust prioritization hierarchies and expanded user defined rules.
Examiners must log in and out of each queue to have work routed. Time consuming for Lead and Examiners to monitor and move queues.	Ability to assign multiple queues to an examiner so that claims will be routed from all queues on set criteria.
KHS I.T. staff must continually manage updates and functionality to keep current with regulatory updates.	Cognizant continually invests in new functionality with quarterly updates by seeking input from end users.
N/A	Audit routing rules and integrates with current Claim Audit Tool.

Current/New System (cont.)

Ability to create target dates, allowing for prompt pay contracts. Ability to create rules to override specific edit criteria to allow for additional auto-adjudication to pay. Ability to create rules to accept specific edit
criteria to allow for additional auto-adjudication to pay.
Ability to create rules to accept specific edit
criteria to allow for auto-denials.
Dashboards for Mgt as well as one for End Users with real-time refreshes.

Cost

	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5
Membership Count	320,000	325,000	330,000	335,000	340,000
Annual License Fee based on Membership	\$120,828	\$122,628	\$124,308	\$125,868	\$127,068
Implementation	\$149,058	\$0.00	\$0.00	\$0.00	\$0.00
Technology	\$24,000	\$0.00	\$0.00	\$0.00	\$0.00
Total Annual Cost	\$293,886	\$122,628	\$124,308	\$125,868	\$127,068
5 Year Total Cost					\$793,758

ROI

- Based on projected membership increases and new Cal-Aim programs, 2 additional Claim Examiners were anticipated as needed beginning Year 1.
- Projected need for 2 additional Claim Examiners for other Cal-Aim programs, such as long term care in years 4 and 5.

	Year 1	Year 2	Year 3	Year 4	Year 5	Total
CEIII	\$78,012	\$78,012	\$78,012	\$78,012	\$78,012	\$390,060

TO:KHS Finance CommitteeFROM:Richard Pruitt, Chief Information OfficerDATE:April 8, 2022RE:Phone System Licensing

Background

KHS leverages the Cisco Call Manager software to operate its phone system to include the customer service call center, normal inbound and outbound calling, and the automated robocalls. Cisco is migrating customers to a new subscription-based licensing model and the new licensing model applies to the 2022 maintenance and support renewal.

KHS performed a formal RFQ for the licenses and selected the lowest priced vendor. The following presentation provides an overview of the process.

Overview

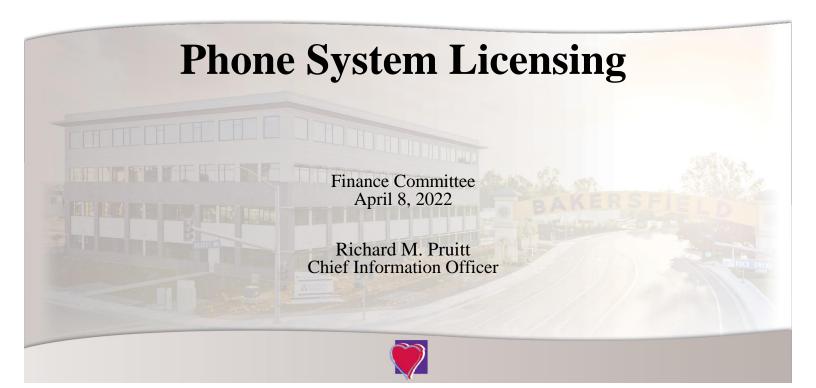

SHI will provide KHS with subscription-based licensing for Cisco Call Manager for a term of three (3) years. This licensing is required to operate the KHS phone system. The licensing is used by all KHS staff for their day-to-day job functions.

Financial Impact

This agreement will not exceed \$188,716.00 per three years.

Requested Action

Approve; Refer to KHS Board of Directors.

Agenda

Overview

KHS leverages the Cisco Call Manager software to operate its phone system to include the customer service call center, normal inbound and outbound calling, and the automated robocalls. Cisco is migrating customers from perpetual licensing to a new subscription-based licensing model and the new licensing model applies to the 2022 maintenance and support renewal. KHS published an RFQ for the licenses and selected SHI (https://www.shi.com/) as the vendor. The following presentation provides an overview of the process.

Cisco Licensing

Software Functions:

•

- Core call processing and routing
- Enables use of physical phones
- Enables use of softphones for remote work
- Enables integration to third party applications (Screen Pops, Robocalls)
- Call logging and reporting

New license model:

- Subscription Based New Model
- Required for phones system to operate
- Secures pricing for three (3) years
- Allows for 20% growth of phones at no charge

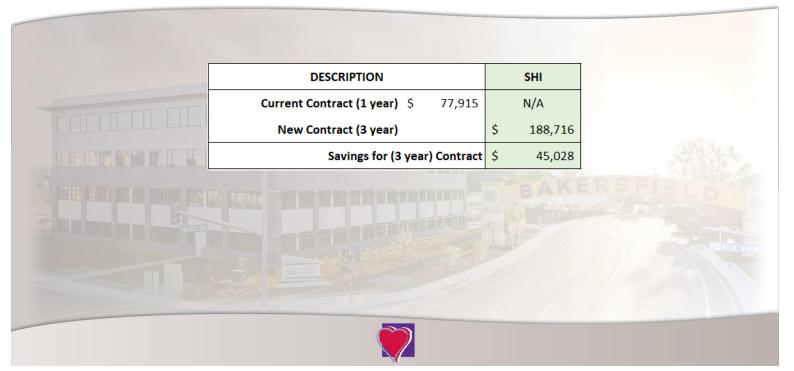

Procurement Process

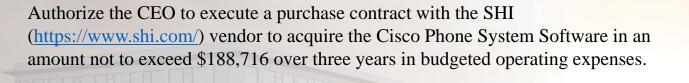

- Reviewed and Defined Licensing Needs
- Created and Published RFQ
- Reviewed and Selected Vendor
- Created Recommendation and Presentation for Board of Directors

Re: Community Supports Referral System

Background

In January 2022, Kern Health Systems ("KHS") began offering Community Supports Services (CSS) to eligible members as required under the new CalAIM initiative. CSS are medically appropriate and cost-effective alternatives to traditional services covered under the state plan. Community Supports can be a substitute for a range of covered Medi-Cal benefits and potentially decrease utilization.

Currently, KHS is providing six (6) pre-approved CSS. These services include: Housing Transition Navigation Services, Housing Deposits, Housing Tenancy and Sustaining Services, Short-Term Post-Hospitalization Housing, Recuperative Care, and Asthma Remediation. In June 2022, KHS plans to add an additional CSS, Community Integration (AKA Tattoo Removal), then in January 2023, another two (2), Medically Tailored Meals and Detox Center(s) will be added. In order to appropriate manage the referral and authorization process, provider follow up, and administrative oversight for these community resources, a new technology platform is required. This need was acknowledged by DHCS as a result provided incentive opportunities to offset the cost of a community resources system.

Discussion

KHS published a Request for Proposal ("RFP") for a Community Supports Referral System. The review committee used the standard KHS scoring template and metrics. The tally of final scores showed FindHelp ranked first in both system/technology and price. The final committee consensus was to recommend FindHelp as the vendor to provide the Community Supports Referral System.

KHS requests to sign a three-year agreement with FindHelp for the licensing fees for its platform which will provide a tool to be used by CBOs, providers, and internal staff to make referrals, submit/track claims, track and monitor status, and reporting of outcomes, etc.

Community Supports Referral System April 8, 2022 Page 2

Financial Impact

FindHelp's cost for their platform is as follows:

Year 1: \$95,004 Year 2: \$80,004 Year 3: \$80,004

KHS requests a three (3) year contract with FindHelp in the amount not to exceed \$255,012.

The cost for this system was incorporated in the 2022 capital budget previously approved by the Board of Directors. Further, KHS has submitted the CSS system procurement as a CalAIM Delivery System Infrastructure project and requested incentive funds that may offset costs.

Requested Action

Approve; Refer to KHS Board of Directors.

Background

- KHS is proposing to implement a Community Supports Services (CSS) Referral System to accommodate the CalAIM Community Supports initiative.
 - Community Supports (CS) allows health plans to provide health-related services as an alternative or substitute for covered Medi-Cal benefits.
 - CS will be integrated with care management for members with high levels of risk and allow plans to address social determinants of health in a way that is cost effective and consistent with a whole person care approach.
- The CSS Referral System will be utilized by 200+ community-based organizations (CBOs), Enhanced Care Management (ECM) providers, physician groups and KHS users.
- This system will be utilized to track, document and create a comprehensive community resources network.
- This purchase is a major component to ensure the success of Kern Health Systems and its partners to meet the regulatory statute which was initiated January 1, 2022.

RFP Timeline

Requested Action

Refer to the Board of Directors to authorize the CEO to execute a three-year agreement with FindHelp for the procurement of the Community Supports Services (CSS) Referral System in the amount not to exceed \$255,012.

Note: KHS has incorporated the CSS system procurement as a CalAIM Delivery System Infrastructure project and requested incentive funds that may offset costs.

What services will this vendor provide to KHS? Community Supports Service Referral System

Description of Contract						
Type of Agreement: Software	Background: KHS established this project to acquire an					
Ontract	integrated referral software system to support the Community Based Organizations (CBOs) for the new Medi-Cal Community					
Purchase	Based Supports benefits (formerly known as In Lieu of Services, ILOS). This software will provide connectivity					
New agreement	between the Health Plan and the CBO for a seamless process to coordinate the new non-clinical services/benefits and ensure					
Continuation of Agreement	that KHS is meeting the regulatory and contractual requirement					
Addendum	as outlined by the Department of Health Care Services (DHCS).					
Amendment No.						
Retroactive Agreement	Brief Explanation:					

Summary of Quotes and/or Bids attached. Pursuant to KHS Policy #8.11-I, KHS will secure competitive quotes and bids to obtain the maximum value from the expenditures. Electronic (e-mail for solicitation may be used for purchases of up to Fifty Thousand Dollars or more if not budgeted (\$50,000.00) and One Hundred Thousand Dollars or more if budgeted (\$100,000.00) but must be documented on the RFQ form (Attachment A). Actual bid, sole or single source justification and/or cost price analysis documents are required for purchases over Fifty Thousand Dollars or more if not budgeted (\$50,000.00) and One Hundred Thousand Dollars or more if budgeted (\$100,000.00). Request for Purchases over Fifty Thousand Dollars or more if not budgeted (\$100,000.00) and One Hundred Thousand Dollars or more if budgeted (\$100,000.00). Request for Proposal (RFP) shall be used to solicit bids for professional services over Fifty Thousand Dollars (\$50,000). Lowest bid price not accepted must be fully explained and justified in writing. All bids will be treated as a not to exceed amount with "change orders" used to track any changes.)

Brief vendor selection justification, RFP published in Jan. 2022. 6 vendors submitted bids; 5 provided demos. Review committee consisting of representatives from I.T., Claims, PNM, and CSS used a scoring matrix to decide on recommendation to the Board of Directors to approve contract.

Sole source – no competitive process can be performed.

Re: Renewal of SS&C Agreement

Background

KHS has contracted with SS&C for many years for pharmacy billed services. Although many services have been carved out to MCRx, the MCPs are still responsible for some services. The contract with SS&C is triennial, terming this May. It is still a good business decision to renew the contract with SS&C for the remaining claims processing for the services KHS is responsible to administer.

Overview

During the past years, SS&C has partnered with KHS to provide exceptional member and provider experiences to obtain pharmacy billed services. DHCS has stated that some of the medical supplies are carved out and will be handled by MCRx. However, a number of common pharmacy billed supplies will remain with the health plans. Supplies such as nebulizers (and accessories), blood pressure machines, braces (wrist, back, knee, ankle), ostomy products, incontinence products, thermometers, pill cutters, crutches, and others are examples of these services remaining with the plan. Pharmacies have historically billed and continue to bill these at their locations. Besides the convenience of billing these medical supplies through the pharmacy on a pharmacy claim, continuing with the current arrangement eliminates the need for education, training, contracting, and reconfiguring both internally and externally. It is also more cost effective to continue the current process. The monthly administration costs are still less than the than overall costs to the plan, if we were not to continue with our relationship with SS&C. Besides maintaining the current mode of operations, savings are expected to exceed \$66,000 easily. KHS has been very satisfied with the services provided by SS&C.

Financial Impact

This agreement will not exceed \$300,000 per 12 months.

Requested Action

Approve; Refer to KHS Board of Directors.

Background

- KHS has long established congenial and efficient history with SS&C for pharmacy billed services, drug and non-drug (medical supply/device) services.
- Current contract expiring May 30, 2022.
- Pharmacy services are carved out to MCRx, however there are medical supplies that can continue to be provided by SS&C at preferred pricing.
- The SS&C services are fully integrated with KHS workflow.
- Retaining current SS&C arrangement requires no new configuration, provider contract changes, system or operational changes (internally or externally.)
- KHS has been very satisfied with the SS&C services and overall vendor performance.

Pharmacy Billed Medical Supplies

KHS Support of continuing current arrangement

- Locale Providers: PCP & Specialty Provider, and Pharmacies would continue business as usual.
- Member : Continue receiving pharmacy based medical supplies as usual and in an efficient manner.
- <u>Cost/Utilization</u>: \$25,000/month. Increase in admin fee offset by otherwise increase in overall cost of supplies.

	PBM rate	Claims rate	Difference	Qty	Potential Savings Comparison
Nebulizer	\$45	\$155	\$110	501	\$55,100
BP machine	\$38	\$60	\$22	184	\$ <u>4,100</u>
					\$59,200/2 = \$29,600
• tra	in staff in providers (l onfigure syste	both pharmacies	and prescriber	rs)	
	ontract				
	icate member	s			

 \mathbb{Z}

Financial Justification

Approximate total cost (administration and product) is shown below. Approximate total spend by using SS&C is less than if KHS was to process itself. Using SS&C would save at least \$66,000.

		SS&C		KHS		Savings/Diff	
Nebulizer Price	\$	45	\$	155	\$	110	
250 Nebulizers Monthl	y \$	11,250.00	\$	38,750.00	\$	27,500.00	
Annual	\$	135,000.00	\$	465,000.00	\$	330,000.00	
		SS&C		KHS			
BP Machine Price	\$	38	\$	60	\$	22	
92 Blood pressure monitors Monthle	y \$	3,496.00	\$	5,520.00	\$	2,024.00	
Annual	\$	41,952.00		66,240.00	\$	24,288.00	
		SS&C		KHS			
Admin Monthl	y \$	25,000.00	Ś	991.80	Ś	(24,008.20)	
Annual	, , , \$	300,000.00		11,901.60	\$	(288,098.40)	
	Ť					())	
Total Cost		SS&C		KHS			
	\$	476,952.00	\$	543,141.60	\$	66,189.60	

Recommendation

- KHS Management recommends to the Board to renew our current agreement with SS&C and sign a one-year renewal extension.
- Request the Board of Directors authorize the CEO to sign a one-year contract renewal with SS&C in the amount not to exceed \$300,000.

Questions

Re: December 2021 Financial Results

The December results reflect a \$5,399,891 Net Increase in Net Position which is a \$6,746,316 favorable variance to the budget. Listed below are the major variances for the month:

- 1) Total Revenues reflect a \$11.7 million favorable variance primarily due to:
 - A) \$8.3 million favorable variance primarily due to higher-than-expected budgeted membership.
 - B) \$1.3 million favorable variance in revenues earned from DHCS under the KHS Covid-19 Vaccination Incentive Program by meeting key performance measurements designed to improve the vaccination rate with our members. Under this Program, KHS has offered incentives to Providers to perform significantly expanded outreach to KHS Members that are based on achieving specified outcomes. Additionally, there are Member Incentives (not to exceed \$50 per member) for our Members that get vaccinated. This amount is offset against amounts included in 2D below.
 - C) \$2.7 million favorable variance in Premium-Hospital Directed Payments primarily due to receiving updated rates for calendar year 2021 from DHCS and higher than expected membership offset against amounts included in 2E below.
- 2) Total Medical Costs reflect a \$5.7 million unfavorable variance primarily due to:
 - A) \$2.7 million unfavorable variance in Physician Services primarily due to higher-thanexpected utilization of Referral Specialty Services and Urgent Care Services for Family/Other members.
 - B) \$1.2 million favorable variance in Emergency Room primarily due to lower-than- expected utilization over the last several months.
 - C) \$1.7 million unfavorable variance in Inpatient primarily due to higher-than-expected utilization.
 - D) \$1.3 million unfavorable variance in Other Medical due to Vaccine Incentive Program expenses earned by our Providers along with Incentives earned by our members offset against amounts included in 1B above.

- E) \$2.7 million unfavorable variance in Hospital Directed Payments primarily due to receiving updated rates for calendar year 2021 from DHCS and higher than expected Membership offset against amounts included in 1C above.
- F) \$1.0 million favorable IBNR, Incentive, Paid Claims Adjustment primarily from lower-than-expected P4P payouts relating to the prior year.
- G) Items 2A-2C above include approximately \$4.0 million of favorable IBNR adjustments primarily from favorable Inpatient utilization from the June 30, 2021 Milliman Actuary Review liability estimate.
- 3) Administrative Expenses Adjustment reflects a \$.2 million favorable variance primarily due to:
 - A) \$1.8 million favorable variance relating from the CalPERS Net Pension adjustment for the period July 1, 2020 to June 30, 2021 required under GASB 68.
 - B) \$1.4 million unfavorable variance in Depreciation Expense relating to Capitalized Projects that were completed in the prior year.
 - C) \$.2 million unfavorable variance from an increase in the Allowance for Claims Processing Expense which is a statutory requirement.

The December Medical Loss Ratio is 87.4% which is favorable to the 93.4% budgeted amount. The December Administrative Expense Ratio is 6.4% which is favorable to the 6.6% budgeted amount.

The results for the 12 months ended December 31, 2021 reflect a Net Increase in Net Position of \$20,390,141. This is a \$29,317,451 favorable variance to budget and includes approximately \$5.9 million of favorable adjustments from the prior year. The year-to-date Medical Loss Ratio is 92.2 % which is favorable to the 93.2% budgeted amount. The year-to-date Administrative Expense Ratio is 5.6% which is favorable to the 6.7% budgeted amount.

Date: April 8, 2022

Re: January 2022 Financial Results

The January results reflect a \$3,269,994 Net Increase in Net Position which is a \$3,664,626 favorable variance to the budget. Listed below are the major variances for the month:

- 1) Total Revenues reflect a \$6.8 million favorable variance primarily due to:
 - A) \$3.4 million favorable variance primarily due to higher-than-expected budgeted membership.
 - B) \$1.1 million favorable variance in revenues earned from DHCS under the KHS Covid-19 Vaccination Incentive Program by meeting key performance measurements designed to improve the vaccination rate with our members. Under this Program, KHS has offered incentives to Providers to perform significantly expanded outreach to KHS Members that are based on achieving specified outcomes. Additionally, there are Member Incentives (not to exceed \$50 per member) for our Members that get vaccinated. This amount is offset against amounts included in 2B below.
 - C) \$.8 million favorable variance in Premium-Hospital Directed Payments primarily due to higher-than-expected membership offset against amounts included in 2C below.
 - D) \$1.0 million favorable variance in Rate/Income Adjustments primarily due to retroactive revenue received for the prior year.
- 2) Total Medical Costs reflect a \$3.5 million unfavorable variance primarily due to:
 - A) \$1.0 million unfavorable variance in Inpatient primarily due to higher-than-expected SPD utilization.
 - B) \$1.8 million unfavorable variance in Other Medical primarily due to Vaccine Incentive Program expenses earned by our Providers along with Incentives earned by our members offset against amounts included in 1B above.
 - C) \$.8 million unfavorable variance in Hospital Directed Payments primarily due to higherthan-expected Membership offset against amounts included in 1C above.

The January Medical Loss Ratio is 89.4% which is favorable to the 92.8% budgeted amount. The January Administrative Expense Ratio is 6.1% which is favorable to the 7.2% budgeted amount.
