Vaccines For Children: Medi-Cal Reference Guide

Dear Provider,

In case you have not heard, an exciting and valuable opportunity is available for pharmacies that provide vaccination services. The federal **Vaccines For Children (VFC)** program has modified its enrollment requirements and most pharmacies that offer vaccines should be able to successfully register and participate. Additionally, Medi-Cal Rx (MCRx) will reimburse for these services. This is a great opportunity to expand pharmacy services and to help the community's most vulnerable population.

For more information to enroll in this program and take an active part in improving the health of our community please look at the following links:
