RE: COVID update

Dear Mill Street Residents & Family Members,

As I mentioned earlier this week we had one of our residents recently test positive for COVID. Per MN Department of Health guidelines we are required to conduct outbreak testing of all residents and staff. The results from our first round of testing did turn up five additional positive cases. Fortunately, all six of the residents who have tested positive have very mild symptoms or no symptoms at all. A second round of testing is planned for early next week. We will continue to test on a weekly basis until we reach two continuous weeks of no positive results.

Please note that with these positive cases we are required to close our building to general visitation with Essential Caregiver and Compassionate Care visits only being allowed at this time. General visitation will re-open once we reach two continuous weeks of no positive results.

As always, the health and well-being of both our staff and our tenants continues to be our highest priority. If you have any questions or concerns, you are invited to contact me at 218-736-8590. Thank you!
