# Together We Save Lives

You can't have a successful community hospital without community support. So we thank you for demanding and supporting excellence in healthcare on Maui.

By committing your own resources to the cause – whether it's \$10 or \$1 million – you've helped make it possible to improve the depth and breadth of the services that are needed on this island. You've also sent a powerful message to not only our staff and physicians, but to our elected officials that their hard work to fulfill this critical need is valued.

**With your support, we've been able to improve access to care and enhance quality of care. The result? Better patient outcomes and fewer people leaving the island to receive the care they need.**

Some of our accomplishments in 2019 included:

- Recruiting several accomplished specialists to Maui, including two neurosurgeons, an oncological surgeon, a vascular surgeon, two trauma surgeons, and a nephrologist.
- Our Foundation Funding \$1 million in state-of-the-art equipment for our neurosurgery program.
- Earning hospital accreditation and certification as a Primary Stroke Center from the Joint Commission, an independent, not-for-profit accreditation group. Its rigorous reviews require that we not only currently comply with the highest national standards for safety and quality of care but demonstrate how we are continually improving patient care.
- Earning a 4-star rating from the Centers for Medicare and Medicaid Services - a nationally recognized rating system that helps consumers compare the quality of healthcare at Medicare-certified hospitals.
- Attaining American Heart Association's highest award in heart failure care, the Get With The Guidelines Gold Plus Target: Heart Failure Honor Roll, as well as a Gold Plus Target: Stroke Honor Roll Elite award for our stroke diagnosis and treatment response rate.

But there's still more to do. With your help we can achieve our goals for 2020 which include:

- Upgrading our Emergency Department – the second busiest ER in the state of Hawaii – from a trauma level 3 to 2. This means a trauma surgeon will be available to provide specialized, high-level care within 15 minutes of a patient's arrival at the ER.
- Becoming an accredited American Heart Association Chest Pain Center in our Emergency Department.
- Having all Maui physicians established in our system to ensure seamless care for any who arrive at our hospital.
- Continuing recruitment of specialty physicians including urology, infectious disease, orthopedic surgery, and gastroenterology.

Together we can continue to build world-class healthcare for Maui County.

Mahalo,

Michael A. Rembis

# Together We Are Family

## THE PATIENT

The week leading up to a 12-mile canoe race, I had been feeling ill and weak. But I've canoed for decades and done much longer outrigger voyages, so I didn't think it would be a problem.

It nearly cost me my life.

We ended up caught in high wind and surf. As we tried to paddle out to open water and away from the reefs, our canoe flipped and we ended up in the water. The swells were so big the safety team couldn't see us, and no one knew what had happened until our canoe washed ashore. We spent about two hours in the water until we were rescued. I was so ill that I don't remember much of that, and once on shore, I couldn't stop shaking and got worse.

I was rushed to Maui Memorial Medical Center in septic shock. The culprit was a liver abscess, which worsened after being trapped in cold ocean water for two hours. I developed a severe lung infection and my kidneys began to fail. I was put in an induced coma and placed on equipment to keep my kidneys and lungs going.

The machinery kept my body alive, but I would not be here today if not for the skill and persistence of Dr. Shea and the ICU staff. Being a good doctor, nurse, or aide is one thing, but this team's care for each patient as a person is entirely another: their commitment to doing whatever it took, 24 hours a day, was what returned me to a whole person.

It was a true expression of aloha.

Since then, I feel great. I travel, I canoe, my health is good and all I've needed since then is a regular annual checkup.

Dr. Shea and the entire hospital staff are my family, my *ohana*. And when I look at Maui Memorial Medical Center, I see more than a hospital. I see love and care for the family we call Maui.

**Kimokeo Kapahulehua**

## THE HEALTHCARE PROVIDER

When Kimokeo was brought in to Maui Memorial Medical Center, we were told he wouldn't survive. He was in septic shock and when his kidneys began to fail, he developed ARDS, a very serious inflammatory lung condition.

But I knew we had a chance to save him.

Kimokeo was placed in an induced coma and on a ventilator and given continuous dialysis to keep his organs functioning. The liver abscess was diagnosed and drained.

We had resolved the initial culprit that brought this all on, but he wasn't improving beyond that. So I took a step back and re-evaluated all of his individual therapies to figure out how to make all of them not just work, but work together. We began making small adjustments and carefully tracking results to find the right balance.

It took a few weeks, but the persistence and effort paid off: his blood pressure and organ function improved, and he was brought out of the coma. He made a full recovery.

There was one other key to Kimokeo's success: the care he received from our ICU staff. I've worked at hospitals on the mainland and here, and hands down, this passionate, dedicated ICU team is the best I've ever worked with.

Once Kimokeo was out of the coma and recovering, it was wonderful for us to get to know this person we had been caring for. He's an amazing individual. We're all honored to be part of his *ohana*.

### Dr. Michael Shea

*Critical Care Physician/Pulmonologist/*

*Immediate Past Chief of Staff at Maui Memorial Medical Center*

## THE DONOR

I've lived here for 60 years. I spent 50 of them in opposition to Maui Memorial Medical Center.

But about 10 years ago, I was invited to come take a new look – several times, actually. I finally relented, with zero expectations that this would change my mind.

There was a whole different feeling to the place than had been there before: there was this atmosphere of service among staff and physicians alike.

Since that visit, I've been a patient at Maui Memorial and had friends who've been patients. Each of those experiences confirmed that what I saw as a visitor was the same for a patient: top-rate medical care provided by doctors and staff who are responsive in how they care for and relate to their patients.

That is what makes this a community hospital – its attitude of service to those it serves.

And that's why Maui Memorial has my support.

### C. Pardee Erdman

# Together We Heal

## THE PATIENT

My husband Tom was having dizzy spells for a few days, so when he started to feel worse, we knew it was time to go to the ER. Before this, while we were living in northern California, Tom had had two episodes where he unexpectedly fainted. Both times, the doctors were not able to find anything wrong with him.

In the Emergency Department at Maui Memorial Medical Center, Tom had four of these episodes. The two nurses caring for him, Carol and Lisa, captured them on a monitor.

He wasn't fainting – his heart was stopping, one time for 12 seconds.

With that recording, attending physician Dr. Lee Weiss was able to promptly diagnose Tom. He needed an emergency pacemaker, and Dr. Weiss facilitated his referral for surgery that afternoon.

The ER team took such excellent care of Tom that day, but they also took care of me. When Tom's heart stopped and the nurses had called for a crash cart, I nearly lost my mind. As soon as Tom came to, one of them took the time to make sure I was alright, too. After diagnosis, with surgery still a few hours away, Carol and Lisa promised to not leave his side. They stayed with us until he was wheeled to surgery. Throughout that ordeal, I was so impressed with how thoughtful and on top of their game they both were.

Today, Tom's heart keeps a steady beat as the pacemaker keeps pace with him. No more dizziness or fainting spells, and he feels so much better. I don't think we will ever forget the excellent care, or kindness, we received from the team at Maui Memorial Medical Center.

### Tom and Carolann Carter

## THE HEALTHCARE PROVIDER

Timing can be everything – in diagnosis as well as in treatment. After examining Tom, I suspected he was suffering from a complete heart block – when the heart literally stops beating because its electrical system isn't working properly.

This can be difficult to diagnose because the symptoms are often generic. But because we had Tom on an EKG, we were able to capture one of those stoppages as it happened. It confirmed my diagnosis – and that he needed a pacemaker to survive.

I discussed this with Tom and Carolann. Tom was then seen by his cardiologist. By that time, Tom's heart had returned to normal function. His cardiologist reviewed everything with the Carters and they decided it was prudent to admit Tom to the hospital, run a battery of tests, then insert a permanent pacemaker the following day.

I always follow up with my patients after consultants leave the bedside to answer any remaining questions. As I walked in to see the Carters, Tom was again in complete heart block. I immediately called his cardiologist, and we agreed he needed a permanent pacemaker immediately. Tom's surgery was a complete success, and after a short recovery in the hospital, he was on his way home with no further problems.

In other situations where there isn't the robust cardiology support like we have here on Maui, patients like Tom would have a temporary pacemaker inserted and then be flown elsewhere to have a permanent one inserted.

Maui Memorial is blessed to have both a world-class cardiology department with incredible cardiologists, and an emergency department staffed with trained, board-certified emergency physicians and incredible emergency nurses. Because of this, Tom's problem was recognized immediately, and his life-threatening issue was resolved successfully here and in a matter of hours.

### Dr. Lee Weiss

*Medical Director and Chairman, Maui Memorial Medical Center Emergency Department*

## THE DONOR

Nearly 14 years ago, my friend was at an event here on Maui, and suddenly became very ill. He was rushed to the hospital, but the care he needed wasn't available there – the closest option was Honolulu. He had to wait for an available medevac helicopter for transport. That delay likely cost him his life – he died while undergoing emergency heart surgery on Oahu.

That experience really opened my eyes to the need for a truly full-service community hospital, right here on our island. So I'm excited to see how Maui Memorial is responding and growing to meet that need.

The Administration, the Foundation and the doctors are committed to making this a world-class institution. They're attracting highly qualified specialists, expanding the areas of specialty care, and investing in new technology. My husband and I have both received excellent care there.

In turn, it is a responsibility for all of us, full- and part-time residents, to support that effort. That is why I've made my financial support of Maui Memorial more formalized in the last few years.

We've all known people who have had to fly to Honolulu or the Mainland in order to get the level of care they needed, just as my friend unfortunately did.

But the good news is that today, thanks to Maui Memorial, that doesn't have to be the case.

**Carolyn Schaefer Gray**

# Together We Rebuild Lives

## THE PATIENT

I was plagued with back pain for seven years after injuring myself carrying a heavy sculpture. Initially no one on Oahu – not my primary care physician, not orthopedic surgeons, nor a neurologist – was able to accurately diagnose the cause of my pain. My options were powerful pain medications, or to live with it.

I would fall asleep exhausted from the discomfort, only to be woken up a few hours later from the same discomfort. Suffering unbearably was unacceptable, so after a year of research I found that a condition called sacroiliitis (SI) had symptoms that matched mine, and that there was a new, minimally invasive procedure that corrected it.

Few surgeons in Hawaii were experienced in this new procedure, so I was ready to book a consultation in California when I learned that one of the premier neurosurgeons of this procedure was relocating to Maui.

I was one of Dr. Taleghani's first consultations on Maui last April. After reviewing previous diagnostic tests, he performed the procedure in May.

Surgery started at 8:00 am. By 11:30 am, I was having lunch in the cafeteria, already discharged. By 5:00 pm, I was back in Honolulu. Following a brief recovery, I had no lower back pain for the first time in seven years.

At my age, it takes about a year for the SI joint to fully fuse, but the pain has not returned – I sleep well, and I can travel again. On a recent trip to Japan, I was able to climb the long, steep steps of shrines, which I couldn't previously.

I can't tell you how thankful I am that I only had to travel as far as Maui to receive Dr. Taleghani's specialized care. What he did for me has improved my life tremendously!

**Kelvin Kaneoka**

## THE HEALTHCARE PROVIDER

Sacroiliitis (SI) is often misdiagnosed because it can cause pain in the lower back, buttocks, and down one or both legs. In fact, about 20 percent of what is diagnosed as lower back pain is actually caused by this inflammation of the sacroiliac joints.

For years, the only option was open-back surgery, but the recovery and results weren't much better than the disease itself. About 10 years ago, a new minimally invasive procedure, known as an SI fusion, was developed. The surgery not only provided immediate improvement but could be done as an outpatient procedure.

I was so impressed with the results that I performed the first 75 procedures without reimbursement. Since the procedure was so new, insurance companies weren't covering it. I've performed about 500 of these procedures since then.

It was perfect for Mr. Kaneoka's condition. We performed the procedure in the morning, and he flew home to Oahu that same day. His pain from the sacroiliitis was gone immediately, and the only side effect he suffered was a little bruising.

There are about two dozen other neurosurgeons in the U.S. that have as much experience with this procedure as I do. Thankfully, Hawaii patients no longer have to travel to the mainland for specialized treatment for this common issue – or any other neurological treatments for spine and brain diseases or conditions. With our team, it's all available right here on Maui.

**Dr. Christopher Taleghani**  
*Neurosurgeon*

## THE DONOR

I'm a third-generation resident, born and raised on the Valley Isle in Puunene. I can recall numerous times my family received wonderful care from Maui Memorial Medical Center.

But it was an experience at another hospital years ago that was the catalyst for my ongoing financial support for Maui Memorial Medical Center.

I was a new mom studying for my bachelor's degree in education in northern Minnesota. My then-11-month-old son contracted a virus and was rushed to the nearest hospital. The hospital wasn't equipped to provide the care he needed to survive, so we were airlifted to a hospital in southern Minnesota.

As a new mother, it was a terrifying and emotional experience. Access and time were literally the difference between life and death.

That realization stuck with me after I returned to Maui. My mission is giving back to my community, so it was an easy decision to support our community hospital. I understand how having medical expertise available right here directly impacts the health of those who live on and visit Maui.

I am committed to Maui Memorial Medical Center because they are committed to offering the best possible medical care to any and all who need it, when and where they need it. They impact thousands, one at a time.

**Alexa Higashi**

# Together We Have Faith

## THE PATIENT

A stomach pain that wouldn't go away sent me to the ER at Maui Memorial Medical Center. An endoscopy showed a bowel obstruction, which as a retired nurse, I knew is often caused by an adhesion or hernia.

But mine was a cancerous tumor, stage III.

A friend who was an endoscopy nurse told me that Maui Memorial now had a fellowship-trained oncological surgeon on staff and my gastroenterologist suggested a consultation with him. I fell in love with Dr. Beech right away. I was thrilled there was someone with his specialized experience and caring demeanor available here on Maui to remove the tumor.

Dr. Beech successfully removed the tumor but found something else: the cancer had spread to my omentum. So the tumor was gone, but I now was facing stage IV cancer.

Chemotherapy is recommended for this type of cancer, but I didn't want to go through that. I told Dr. Beech "I'm done. Jesus Christ is the great healer and I'm going to let him decide." Dr. Beech never questioned my decision, but suggested we continue to track the progression.

I had another scan in November, and had yet another surprise: no cancer, not in my colon, not in my omentum, not anywhere.

I am so thankful for not only the skill of Dr. Beech and his Maui Memorial team for their expert care with my initial diagnosis, but also for the respect shown when I chose how to deal with the second one. They viewed me not as an illness to be cured, but a whole person.

**Lucille Costantino**

## THE HEALTHCARE PROVIDER

A cancerous bowel obstruction such as Ms. Costantino had is often managed with a colostomy and multiple operations rather than treated by a single procedure because the surgery is complicated and carries a higher risk. But I've performed hundreds of these complex procedures during my 24-year academic career as a fellowship-trained surgical oncologist, so I was able to offer Ms. Costantino another option.

We discussed her options and her goals for treatment, then together mapped out a plan. She chose to undergo surgery to remove the tumor and to resect her colon cancer and liver mass. The surgery was a success, but cancer cells had spread to the tissue that surrounded the liver, intestine, and stomach, which would require chemotherapy and further surgery.

Over the course of my career I've seen how health can be affected by more than medical treatment: faith, attitude, energy, and family support all can play a role. So when Ms. Costantino chose to decline further treatment, I supported her decision, because she has an amazing personal strength, the support of her family, and a deep, abiding faith.

I believe that is why she has done so incredibly well.

There is an art to the science of medicine and surgery. It lies in the decision to treat not just the disease or operative need, but the whole person - body, mind, and spirit.

**Dr. Derrick Beech**  
*Surgical Oncologist*

## THE DONOR

No one ever wants to go to the hospital. But honey, if I get sick again, I want to go to Maui Memorial Medical Center.

I've been hospitalized three times at Maui Memorial – twice for bowel obstructions that required surgery and once for a severe case of pneumonia. Each time, the treatment that I needed to make a full recovery – from the ER to surgery to inpatient – was available right here. The doctors, the nurses, and the aides all knew what to do, when to do it, and how to do it.

Each of those experiences made me realize how fortunate we are. We no longer have to fly to Honolulu for expert medical care. We have highly trained professionals and state-of-the-art technology available right here at home.

How the doctors and staff provided care was just as impressive. They went beyond the call of duty in their responsiveness to my needs and concerns. They saw me not just as a condition to be cured, but as a human being to be treated with dignity as part of my healing.

I've been a donor to Maui Memorial for four years. It's a comfort to know that this caliber of care and expertise is available here on Maui. I'm proud to help ensure this kind of care remains accessible to all who live or visit here.

**Tish Perri**

**"There is an art to the science of medicine and surgery. It lies in the decision to treat not just the disease or operative need, but the whole person-body, mind, and spirit."**

- Dr. Derrick Beech

# Together We Make A Difference

## EVENTS

### Because of You - Honoring Betty Leis

Our 2019 Because of You event, held on October 31 at the Fairmont Kea Lani, honored long-time community member Betty Leis. The annual event raised more than \$325,000 to help fund the Patient Resource Assistance program, which helps provide patients who are in need of home-care equipment, transportation, and other services in order to be discharged and continue healing at home.

Betty has been an active community member for many years, serving on the board of many community organizations, and has been a long-time supporter of Maui Memorial Medical Center.

Maui Health Foundation is honored to celebrate such a treasure to our community.

### Fairmont Kea Lani Gives Back

We are also grateful to have the support and partnership of the Fairmont Kea Lani which was our Premier Sponsor for the event. They have graciously agreed to host our Because of You events for the next 2 years.

"We're delighted to continue our support of Maui Health Foundation's mission to improve healthcare for our kama'aina and visitors. It's a privilege to be the premier sponsor of the annual "Because of You" event that raises critical funds to support this mission."

Michael J. Pye  
Area General Manager, Fairmont Hawaii  
General Manager, Fairmont Kea Lani

**"Maui is my home and my community. It is my sincere pleasure to be able to play even a small part in helping to secure better healthcare and a better future for this place that I love."**

- Rebecca Vandaele  
Catering Sales Manager,  
Fairmont Kea Lani, Maui

## An Evening at Spago

Maui Health Foundation raised Over \$770,000 at our ninth annual “An Evening at Spago”

Thanks to our Hospital Hui members and generous supporters, we raised more than half of the \$1.5 million that is needed to become an American Heart Association Certified Chest Pain Center at Maui Memorial Medical Center. The distinguished accreditation status will be the first of its kind in Hawaii, and is an elite mark of excellence for the care of acute coronary syndrome (ACS) patients. A hospital with an accredited Chest Pain Center meets or exceeds quality-of-care measures for treating ACS patients across the continuum of care – from the onset of the patient’s symptoms through discharge from the hospital.

When your heart is in trouble, every second is precious.

A Chest Pain Center significantly reduces the time it takes for a patient experiencing symptoms of a possible heart attack to see a physician, thus reducing the time to treatment during the critical early stages, when treatments are most effective in preserving the heart muscle. It also provides a specialized observation setting in which physicians are better able to monitor patients when it is not clear whether they are having a coronary event. Such observation helps ensure that patients are not sent home too early, or needlessly admitted to the hospital.

Dr. Lee Weiss, Medical Director and Chairman of MMMC’s Emergency Department, explained to the group that 14 to 18 patients a day come to the ER presenting with chest or heart pain, and that “a center like this is critical for saving lives and with our surgeons, cardiologists, and interventional cardiologists like Dr. Colin Lee and his team, we are truly standing on the shoulders of greatness,” he said. “We will be leveraging the extraordinary talents of our physicians and staff to provide extraordinary care to our community.”

## Charity Walk

The 41st annual Maui Visitor Industry Charity Walk took place on May 11 at the War Memorial Soccer Field. With the help of our dedicated hospital staff and community donors, Maui Health Foundation raised \$53,646, earning us 4th place in the “Nonprofit Raising the Most Funds” category.

## Guardian Angel

Our annual Guardian Angel celebration was held on May 7 at the Kahili Golf Course Waikapu Ballroom. Maui Health CEO Mike Rembis, Chief Development Officer Melinda Sweany, and Maui Health Foundation President Tamar Goodfellow honored doctors, nurses, and hospital staff who were nominated as “Guardian Angels” by their patients. Maui Health HR Director Tara Cole also honored Maui Health’s 2018 “Employees of the Month.”

We are grateful to Goodfellow Bros. for their continued support in underwriting this event each year.

## Kiwanis Club of Kahului Charity Golf Tournament

Mahalo to the Kiwanis Club of Kahului for sponsoring its annual golf tournament benefiting MMMC’s Pediatrics Department. The 7th annual tournament was held on December 15 at the Makena Golf & Beach Resort and raised \$8,400 for our pediatric patients.

# Together We Can

## Kokua for a Cause

This year we launched Kokua for a Cause in October to raise funds for our breast cancer screening program. With the support from local businesses, other organizations, individual community supporters, and an internal campaign of Maui Health employees, we raised close to \$50,000.

This fund is used to provide mammograms and follow-up biopsies, if needed, to women on Maui who are uninsured or underinsured. Through our partnership with Malama I Ke Ola Health Center, we have been able to help over 1,000 women since the start of our program in 2005.

*"The best part of being a doctor is knowing I can do something positive for my patients.*

*One of the saddest is knowing what a patient should have—such as a mammogram—and knowing she might not get it because she doesn't have the funds or insurance to cover the cost.*

*Because screening mammograms can save lives: when breast cancer is diagnosed early, patients typically need less extensive treatment and have better outcomes.*

*Fortunately, Maui Health Foundation is helping us ensure that doesn't happen. When we deem a mammogram is critical for a patient who is uninsured or has no other means to pay for the test, the Foundation will cover the cost of the screening at Maui Memorial Medical Center through its Kokua for a Cause fund. This fund also helps cover costs if a follow-up biopsy is necessary.*

*Maui Health Foundation makes it easier for us to ensure our patients are getting the standard of care we all deserve, and that our patients, and our community, stay healthy."*

Dr. Aaron Altura  
*Malama I Ke Ola Health Center Obstetrics/Gynecology*

## A Story of Gratitude

Not many patients would choose to return to the ICU room or the operating room where they had been treated.

But I am so very grateful for this place, because if it hadn't been for the timely and excellent care I received from Dr. Ronald Boyd and the staff at Maui Memorial Medical Center in these two rooms, I wouldn't be sharing this story today.

We were at home when my wife, Durriya, noticed I seemed fidgety. She asked what was wrong, and when I wasn't able to respond, she called 911. I was rushed to Maui Memorial.

Dr. Boyd, Maui Memorial's head of radiology, discovered I had two arterial blockages and my brain had been oxygen deprived for more than six hours. Surgery was the only viable option. I had a 30 percent probability of surviving, but without it, I wouldn't make it to morning.

The surgery was a success, and I spent nine days in the ICU recovering. The way the staff cared for me was truly remarkable, and when my family from the mainland came to visit, the staff made every effort to make my family feel welcomed.

After I was released from Maui Memorial, I was transferred to an acute care facility, then continued therapy at my home in California. It has not been an easy road to recovery. Because of the stroke, I reluctantly retired at age 73 from business life, having previously served as Chairman of Best Buy and Chairman/CEO of Verifone.

But my mind is alive and active, I'm walking, and I've even gotten my driver's license reinstated.

When I recently returned to Maui, I invited Dr. Boyd and two of my nurses, Nicki and Almie to dinner as a thank you. I also asked to go to the hospital so I could see the OR and my ICU room where I had been cared for, and to meet the rest of the staff. It was an emotional experience for us all. My situation had been dire, yet here I was, able to thank them personally.

I am forever grateful to Maui Memorial Medical Center.

**Hatim Tyabji**

# Philanthropy Snapshots

**Makena Golf and Beach Club** has graciously supported Maui Health Foundation by donating several priceless auction items for our events, hosting golf tournaments, as well as our annual Makena Valentine's Day dinner, which raises funds to support hospital programs, medical equipment, and improvements including our newly announced American Heart Association Certified Chest Pain Center at Maui Memorial.

**First Hawaiian Bank Foundation** awarded the Foundation a \$50,000 grant in support of our Patient Resource Assistance Program which helps patients in need receive the necessary medication, equipment, or services required to be discharged and continue healing at home.

**Central Pacific Bank Foundation** awarded the Foundation a \$15,000 grant in support of our Patient Resource Assistance Program.

**Susan G. Komen** awarded the Foundation \$17,500, which supported our Kokua for a Cause - Breast Cancer Screening Program.

**The Roy H. and Lorraine M. Okumura Foundation** donated \$15,000 towards equipment for our Nutrition Services department.

## Supporting Award-Winning Care

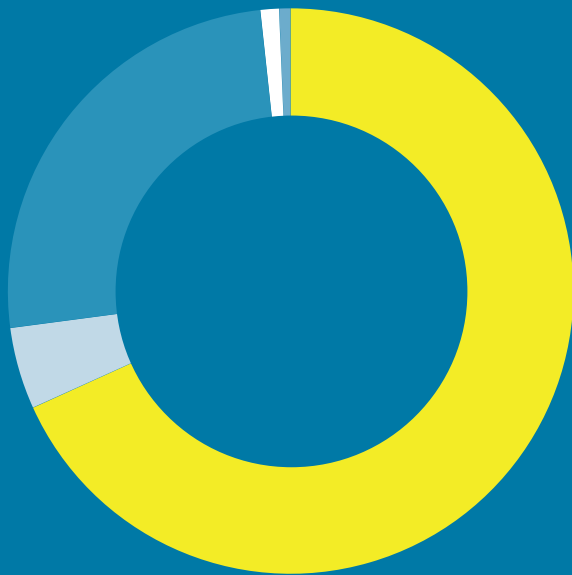

# Financial Highlights

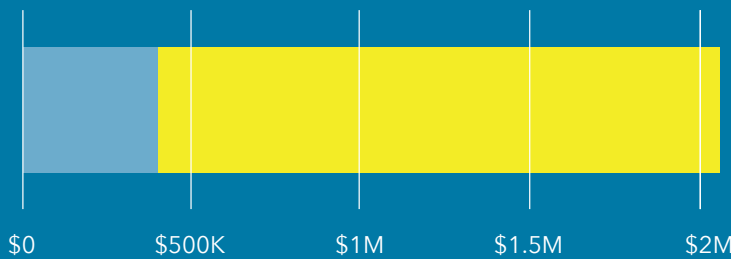

Maui Health Foundation's mission is to engage our community and visitors in supporting our hospitals in order to ensure Maui Health delivers the highest level of patient-centered healthcare.

## Ways to Give

Maui Health Foundation gratefully accepts gifts to support Maui Memorial Medical Center, Kula Hospital, and Lana'i Community Hospital.

No gift is too small, and will be used for the project or program of your choice. Your contributions are tax deductible, and you will receive a letter of acknowledgment for tax purposes.

**ANNUAL GIVING** – gifts provided throughout the year.

**CAPITAL GIVING** – a substantial gift with a targeted purpose for facility or equipment.

**GIFTS-IN-KIND** – a product or experience used for further fundraising.

**MULTI-YEAR PLEDGES** – a financial commitment paid over multiple years.

**ONLINE GIVING** – visit [www.mauihealth.org/foundation](http://www.mauihealth.org/foundation) to make a secure, online donation today with a credit or debit card.

**PLANNED GIVING** – gifts through your estate plans - bequests, charitable gift annuity, charitable remainder trust.

**TRIBUTE /MEMORIAL GIFTS** – an honorarium or memorial gift.

# Hospital Hui

The Hospital Hui is a dedicated and caring group of people who love Maui and want to see the highest quality health care available to everyone, right here in our own backyard. Members have committed to a multi-year pledge totaling \$50,000 which will support the following three critical care areas - Emergency Room, Intensive Care Unit, and Operating Room. Hospital Hui membership includes immediate family members.

**Maui Health Foundation** would like to express our gratitude for the generosity of an anonymous donor who made it possible to produce this report to the community. Because of you, we are able to continue to share all the great work the Foundation, Hospital, and the Community have done together. Mahalo.

## WE APOLOGIZE

for any omissions, misspellings, or misrepresentations in our donor gift lists. Please contact Cassie Chavez at [cassie.chavez@kp.org](mailto:cassie.chavez@kp.org) or (808) 242-2632 to notify us of a correction and/or if you would like to opt out of future Foundation mailings.
