MAUI HEALTH

Our Community. Our Hospitals. #WeAreMauiHealth

About Maui Health

Maui Health is a not-for-profit organization that provides high-quality, patient-centered, affordable care for all residents and visitors on Maui and Lanai, and supported by Kaiser Permanente’s industry-leading technology systems, evidence-based medicine, and nationally recognized quality care. Maui Health has more than 1,500 employees and has partnerships with hospital-based physicians, clinicians and community based primary and specialty physicians including neurosurgery, oncological surgery, and trauma surgery.

Governance

Maui Health is a non-profit, tax exempt, 501(c)(3) limited liability corporation, governed by a board of directors which includes representatives from the Maui community. The board is responsible for guiding strategy and overseeing hospital quality.

Awards & Recognition

Maui Memorial Medical Center was recently awarded one of the highest honors in the state, by the American Heart Association for Gold Plus Achievement and Honor Roll awards for stroke, diabetes and heart failure care.

Committed to Patient Safety & Satisfaction

We’re dedicated to continuous improvement – building upon our rich history, connection to our community, and our many strengths and accomplishments, to continually find ways to evolve, grow, and improve.

Community Outreach

Maui Health is proud to provide health education, awareness, and other resources to our community. As an integral part of our community, we are committed to the health and wellness of our family, friends, and neighbors. As part of this outreach, our team of nurses, leaders, volunteers, nursing students, and support staff managed our COVID-19 vaccine clinics for the residents of Maui, administering over 63,000 doses of the COVID-19 vaccine in just the first six months, and our work isn’t done yet! We will continue to do what we can to protect our community, to provide vital resources such as stroke care education, trauma/injury prevention and Stop the Bleed awareness, and many other virtual and in-person educational and supportive opportunities to keep everyone informed, engaged and healthy.

Maui Health Foundation

Maui Health Foundation is dedicated to the philanthropic support of the Maui Health hospitals. Our Foundation works hand in hand with Maui Health to be a lifeline for our patients by supporting patient care, advancing programs and technology, and creating healing environments for all who walk through our doors. For more information visit mauihealth.org/foundation.
