You'll provide some basic information to get started, such as your name, address and email address.

2

- **Fill out the online application.**

The Marketplace will tell you if you qualify for lower costs on your monthly premiums and out-of-pocket costs on deductibles, copayments and coinsurance. You'll see details on costs and benefits before you choose a plan.

4

After you choose a plan, you can enroll online and decide how you pay your premiums to your insurance company. If you or a member of your family qualify for Medicaid or CHIP, a representative will contact you to enroll. If you have any questions, there's plenty of live and online help along the way.

MercyCare Has a Plan for You

Health insurance plans tailored to suit your needs

We offer nine individual plans tailored to suit your needs and those of your family. The plans are laid out in metal tiers and detailed on pages 12-17.

Individual health plans offered through the Marketplace are grouped into four metal levels (bronze, silver, gold and platinum) to help you compare plans. All health plans in the Marketplace get a metal designation based on the level of cost-sharing. Cost-sharing refers to the costs that members share when they get medical care, such as a deductible and co-insurance.

Level	Premiums	Out-of-pocket costs	Plan pays*
Gold	Higher	Lower	80%
Silver**	Moderate	Moderate	70%
Bronze	Lower	Higher	60%

*On average, the plan will pay this percentage of the total cost of the policy's benefits.

**If your income level is between 100% to 250% FPL, you might qualify for cost-sharing subsidies to reduce out-of-pocket costs. You must enroll in the Silver plan for cost-sharing subsidies shown on pages 15-17.

Frequently Asked Questions

Why should I have health insurance?

No one plans to get sick or hurt, but most people need medical care at some point. MercyCare's individual plans cover many of your expected and unexpected health care costs, and protect you from very high expenses. Health insurance is a contract between you and MercyCare. You buy a plan that best meets your needs, and MercyCare pays part of your medical costs when you get sick or hurt. There are other important benefits of health insurance. MercyCare's individual plans provide free preventive care, vaccinations, screenings and check-ups. We also provide prescription drug coverage.

Can I keep my doctor?

If you currently see a Mercyhealth doctor, you can continue to see him/her by choosing a MercyCare plan. Please note that different plans have different networks and providers. Networks include health care providers that a plan contracts with to take care of the plan's members. Depending on the type of policy you buy, care may be covered only when you get it from a network provider. When comparing MercyCare plans in the Marketplace, you will see a link to the list of providers in each plan's network.

What if I have a pre-existing condition?

Whether you need health coverage or have it already, the health care law offers new rights and protections that make coverage fairer and easier to understand. Essential health benefits for pre-existing medical conditions are covered under all Marketplace plans. No insurer can reject you, charge you more, or refuse to pay for essential health benefits for any medical condition you had before your coverage started. MercyCare plans do not contain exclusions for any pre-existing conditions.

What is the health insurance marketplace?

Also called the Exchange, the Marketplace is a new way to find health coverage that fits your budget and meets your needs. With one application, you can see all your MercyCare options and enroll. When you use the Marketplace, you'll fill out an application and find out if you can get lower costs on your monthly premiums for private MercyCare plans.

You'll find out if you qualify for lower out-of-pocket costs through Medicaid or the Children's Health Insurance Program.

What do essential health benefits include?

- Ambulatory patient services (outpatient care without a hospital stay)
- Emergency services
- Hospitalization
- Maternity and newborn care (care before and after your baby is born)
- Mental health and substance use disorder services, including behavioral health treatment (counseling and psychotherapy)
- Prescription drugs
- Rehabilitative and habilitative services and devices (services and devices to help people with injuries, disabilities, or chronic conditions gain or recover mental and physical skills)
- Laboratory services
- Preventive and wellness services and chronic disease management
- Pediatric services

These benefits are minimum requirements for all MercyCare plans.

How do I find out if I qualify for assistance?

When you buy health insurance coverage in the Marketplace, you may be able to get a premium tax credit that lowers what you pay in monthly premiums. This will depend on your 2021 household size and income. You can apply part or all of this tax credit each month to your premium payments. The Marketplace will send your tax credit directly to your insurance company, so you pay less for your premiums each month.

The Federal Poverty Level (FPL) is the measure of income level issued annually by the Department of Health and Human Services. Federal poverty levels are used to determine your eligibility for certain programs and benefits. If your 2021 income falls within the following ranges you'll generally qualify for a premium tax credit. The lower your income is within these ranges, the bigger your credit. To see the ranges turn to page 9. Call a MercyCare sales representative at (608) 314-2508 to see if you qualify for additional premium assistance.

Notice of Privacy Practices

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

MercyCare is required by law to maintain the privacy of your health information and to provide you with notice of its legal duties and privacy practices with respect to your health information. If you have questions about any part of this notice or if you want more information about the privacy practices at MercyCare, please contact the Privacy Officer at MercyCare Health Plans, PO Box 550, Janesville, WI 53547-0550, (608) 752-3431.

How MercyCare may use or disclose your health information

The following categories describe the ways that MercyCare may use and disclose your health information. For each category of uses and disclosures, we will explain what we mean and present some examples. Not every use or disclosure in a category will be listed. However, all the ways we are permitted to use and disclose information will fall within one of the categories.

Payment Functions. We may use or disclose health information about you to determine eligibility for plan benefits, obtain premiums, facilitate payment for the treatment and services you receive from health care providers, determine plan responsibility for benefits, and to coordinate benefits. Health information may be shared with other government programs such as Medicare, Medicaid, or private insurance to manage your benefits and payments. For example, payment functions may include reviewing the medical necessity of health care service, determining whether a particular treatment is experimental or investigational, or determining whether a treatment is covered under your plan.

Health Care Operations. We may use and disclose health information about you to carry out necessary insurance-related activities. For example, such activities may include underwriting, premium rating and other activities relating to plan coverage; conducting quality assessment and improvement activities; submitting claims for reinsurance and stop-loss coverage; conducting or arranging for medical review, legal services, audit services and fraud and abuse detection programs; and business planning, management and general administration.

Treatment. We may use or disclose your health information to a physician or other health care provider to treat you. For example, a doctor prescribing a medication may need to know if you have diabetes or heart disease and what medications you are currently taking, as this might affect what he or she can prescribe. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

Required by Law. As required by law, we may use and disclose your health information. For example, we may disclose medical information when required by a court order in a litigation proceeding.

Public Health. Information may be reported to a public health authority or other appropriate government authority authorized by law to collect or receive information for purposes related to: preventing or controlling disease, injury or disability; reporting child abuse or neglect; reporting

domestic violence; reporting to the Food and Drug Administration problems with products and reactions to medications; and reporting disease or infection exposure.

Health Oversight Activities. We may disclose your health information to health agencies during the course of audits, investigations, inspections, licensure and other proceedings related to oversight of the health care system.

Judicial and Administrative Proceedings. We may disclose your health information in the course of any administrative or judicial proceeding.

Law Enforcement. We may disclose your health information to a law enforcement official for purposes such as identifying or locating a suspect, fugitive, material witness or missing person, complying with a court order or subpoena and other law enforcement purposes.

Public Safety. We may disclose your health information to appropriate persons in order to prevent or lessen a serious and imminent threat to the health or safety of a particular person or the general public.

National Security. We may disclose your health information for military, prisoner, and national security.

Worker's Compensation. We may disclose your health information as necessary to comply with worker's compensation or similar laws.

Marketing. We may contact you to give you information about health-related benefits and services that may be of interest to you. If we receive compensation from a third party for providing you with information about other products or services (other than drug refill reminders or generic drug availability), we will obtain your authorization to share information with this third party.

Disclosures to Plan Sponsors. We may disclose your health information to the sponsor of your group health plan, for purposes of administering benefits under the plan. If you have a group health plan, your employer is the plan sponsor.

Fundraising. You have the right to opt out of receiving fundraising communications. MercyCare does not conduct fundraising activities. If MercyCare ever did disclose your health information for the purposes of fundraising, you would receive an opt-out notice before each such communication explaining how to opt out.

When MercyCare may not use or disclose your health information

Written Authorization. Except as described in this Notice of Privacy Practices, we will not use or disclose your health information without written authorization from you. If you do authorize us to use or disclose your health information for another purpose, you may revoke your authorization in writing at any time. If you revoke your authorization, we will no longer be able to use or disclose health information about you for the reasons covered by your written authorization, though we will be unable to take back any disclosures we have already made with your permission.

- Your authorization is necessary for most uses and disclosures of psychotherapy notes.
- Your authorization is necessary for any disclosure of health information in which the health plan receives compensation.

Notice of Privacy Practices *continued*

Genetic Information and Underwriting Activities.

MercyCare is prohibited from using or disclosing genetic information for underwriting purposes, including determination of benefit eligibility. If we obtain any health information for underwriting purposes and the policy or contract of health insurance or health benefits is not written with us or not issued by us, we will not use or disclose that health information for any other purpose, except as required by law.

Applicability of More Stringent State Law. Some of the uses and disclosures described in this notice may be limited in certain cases by applicable State laws that are more stringent than Federal laws, including disclosures related to mental health and substance abuse, developmental disability, alcohol and other drug abuse (AODA), and HIV testing.
