How MercyCare may use or disclose your health information

The following categories describe the ways that MercyCare may use and disclose your health information. For each category of uses and disclosures, we will explain what we mean and present some examples. Not every use or disclosure in a category will be listed. However, all the ways we are permitted to use and disclose information will fall within one of the categories.

Payment Functions. We may use or disclose health information about you to determine eligibility for plan benefits, obtain premiums, facilitate payment for the treatment and services you receive from health care providers, determine plan responsibility for benefits, and to coordinate benefits. Health information may be shared with other government programs such as Medicare, Medicaid, or private insurance to manage your benefits and payments. For example, payment functions may include reviewing the medical necessity of health care service, determining whether a particular treatment is experimental or investigational, or determining whether a treatment is covered under your plan.

Health Care Operations. We may use and disclose health information about you to carry out necessary insurance-related activities. For example, such activities may include underwriting, premium rating and other activities relating to plan coverage; conducting quality assessment and improvement activities; submitting claims for reinsurance and stop-loss coverage; conducting or arranging for medical review, legal services, audit services and fraud and abuse detection programs; and business planning, management and general administration.

Treatment. We may use or disclose your health information to a physician or other health care provider to treat you. For example, a doctor prescribing a medication may need to know if you have diabetes or heart disease and what medications you are currently taking, as this might affect what he or she can prescribe. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

Required by Law. As required by law, we may use and disclose your health information. For example, we may disclose medical information when required by a court order in a litigation proceeding.

Public Health. Information may be reported to a public health authority or other appropriate government authority authorized by law to collect or receive information for purposes related to: preventing or controlling disease, injury or disability; reporting child abuse or neglect; reporting domestic violence; reporting to the Food and Drug Administration problems with products and reactions to medications; and reporting disease or infection exposure.

Health Oversight Activities. We may disclose your health information to health agencies during the course of audits, investigations, inspections, licensure and other proceedings related to oversight of the health care system.

Judicial and Administrative Proceedings. We may disclose your health information in the course of any administrative or judicial proceeding.

Law Enforcement. We may disclose your health information to a law enforcement official for purposes such as identifying or locating a suspect, fugitive, material witness or missing person, complying with a court order or subpoena and other law enforcement purposes.

Public Safety. We may disclose your health information to appropriate persons in order to prevent or lessen a serious and imminent threat to the health or safety of a particular person or the general public.

National Security. We may disclose your health information for military, prisoner, and national security.

Worker's Compensation. We may disclose your health information as necessary to comply with worker's compensation or similar laws.

Marketing. We may contact you to give you information about health-related benefits and services that may be of interest to you. If we receive compensation from a third party for providing you with information about other products or services (other than drug refill reminders or generic drug availability), we will obtain your authorization to share information with this third party.

Disclosures to Plan Sponsors. We may disclose your health information to the sponsor of your group health plan, for purposes of administering benefits under the plan. If you have a group health plan, your employer is the plan sponsor.

Fundraising. You have the right to opt out of receiving fundraising communications. MercyCare does not conduct fundraising activities. If MercyCare ever did disclose your health information for the purposes of fundraising, you would receive an opt-out notice before each such communication explaining how to opt out.

When MercyCare may not use or disclose your health information

Written Authorization. Except as described in this Notice of Privacy Practices, we will not use or disclose your health information without written authorization from you. If you do authorize us to use or disclose your health information for another purpose, you may revoke your authorization in writing at any time. If you revoke your authorization, we will no longer be able to use or disclose health information about you for the reasons covered by your written authorization, though we will be unable to take back any disclosures we have already made with your permission.

- Your authorization is necessary for most uses and disclosures of psychotherapy notes.
- Your authorization is necessary for any disclosure of health information in which the health plan receives compensation.

Genetic Information and Underwriting Activities.

MercyCare is prohibited from using or disclosing genetic information for underwriting purposes, including determination of benefit eligibility. If we obtain any health information for underwriting purposes and the policy or contract of health insurance or health benefits is not written with us or not issued by us, we will not use or disclose that health information for any other purpose, except as required by law.

Applicability of More Stringent State Law. Some of the uses and disclosures described in this notice may be limited in certain cases by applicable State laws that are more stringent than Federal laws, including disclosures related to mental health and substance abuse, developmental disability, alcohol and other drug abuse (AODA), and HIV testing.
