TRANSITIONAL CARE REHAB

For patients who no longer require acute hospital care but are not yet ready to go home

We will work closely with your discharging acute care hospital to **ensure a safe transition** to our Transitional Care Rehab Program.

We provide you with the highest quality care close to home.

KEY FEATURES

- A **personalized** plan of care.
- **Bedside Rounds** that engage you, your family and your care team to help you reach your goals.
- **Hospital-level nurse staffing**
Four-five patients per nurse, compared to 10-15 patients in skilled nursing facilities
- Promotes a **home-like environment** accommodating family and individualized activity programs, as well as therapy in several environments.
- **Our on-site** physician, rehab therapy, respiratory therapy, radiology, laboratory and pharmacy **teams will address all your medical needs.**

OUR TEAM

We are especially equipped to meet the needs of even the most complex patients.

After Complex Surgery
