

36 YEARS AND GROWING.....

Since 1983 the Powell Medical Foundation has been working to fulfill our mission to ‘Support Powell Valley Healthcare through Education, Advocacy, and Fundraising.’

You, our generous donors, along with the community of Powell have made this possible.

As the new Executive Director, I wanted to take time to share what we have done throughout our history, and to assure you that our future is bright. With your continued support the Powell Medical Foundation will continue to support Powell Valley Healthcare, to assure that quality care is always here at **HOME**.

Through the years...

1983
First major donation received from First National Bank, \$10,000

MISSION IN ACTION... MARDI GRAS 2020

Powell Medical Foundation held our 11th annual Mardi Gras. Our objective for 2020 is Breast Health.

Breast Cancer Awareness is not just a **M**ONTH!

We teamed up with Powell Valley Health Care's Imaging Department to help them continue their pursuit to be 'The Breast Care Center' of the Big Horn Basin. PVHC's Imaging Department became the first in the Big Horn Basin to make specialized MRI breast imaging available with the addition of a new breast coil. The MRI breast coil has proven valuable in detecting and staging breast cancer.

With the addition of the 3D Mammography our team will be able to detect cancer earlier with fewer images needed. 3D Mammography provides greater detail of the breast tissue, allowing our Radiologist to see 'inside' the breast layer by layer. This integral piece of equipment will allow our community to stay 'home' for their breast care.

Thank you for helping us keep healthcare local and supporting our campaign to continue to provide equipment for our staff to better serve the healthcare needs in our community.

Food

Fun

Thank you,
to all of our donors, bidders,
servers & participants.
You make us successful!

With the generous support of all attendees, Powell Medical Foundation was able to raise....

\$26,000.00

to aid in the purchase of a 3D Mammography Unit for PVHC's Radiology Department.
