

Regular Meeting of the

**Santa Clara County Health Authority
Provider Advisory Council**

Wednesday, November 14, 2018, 12:15 PM – 1:45 PM
 Santa Clara Family Health Plan, Sycamore Conference Room
 6201 San Ignacio Ave, San Jose, CA 95119

AGENDA

<u>AGENDA ITEM</u>	<u>RESPONSIBLE PARTY</u>	<u>TIME ALLOTMENT</u>
Roll Call / Establish Quorum Introductions of New Members: <ul style="list-style-type: none"> • Laurie Nakahira, MD, CMO • Meg Tabaka, MD, MPH 	Dr. Padua, Chair	10 minutes
1. Meeting Minutes (Attachment) Review minutes of the August 8, 2018 Provider Advisory Committee Possible Action: Approve minutes	Dr. Padua, Chair	5 minutes
2. Public Comment Members of the public may speak to any item not on the agenda; 2 minutes per speaker. The Committee reserves the right to limit the duration of public comment period to 30 minutes	Dr. Padua, Chair	10 minutes
3. Chief Executive Officer (Attachment) Discussion on SCFHP membership and current topics	Ms. Tomcala, CEO	10 minutes
4. Quality and Pharmacy (Attachment) Discussion on Drug Reports	Dang Huynh, Pharm D.	10 minutes
5. PAC Membership	Dr. Robertson	10 minutes
6. Provider Education on Requests for Non-urgent Authorizations	Eric Tatum	10 minutes
7. Prior Authorization List (Attachment)	Jana Castillo, RN	10 minutes
8. 2019 Meeting Dates (Attachment)	Eric Tatum	5 minutes
9. Discussion / Recommendations	All	5 minutes
10. Adjournment		

Next Meeting: February 13, 2018

Notice to the Public—Meeting Procedures

- Persons wishing to address the Committee on any item on the agenda are requested to advise the Recorder so that the Chairperson can call on them when the item comes up for discussion.
- The Committee may take other actions relating to the issues as may be determined following consideration of the matter and discussion of the possible action.
- In compliance with the Americans with Disabilities Act, those requiring accommodations in this meeting should notify Robyn Esparza 48 hours prior to the meeting at 408-874-1780.
- To obtain a copy of any supporting document that is available, contact Robyn Esparza at 408 874-1780. Agenda materials distributed less than 72 hours before a meeting can be inspected at the Santa Clara Family Health Plan offices at 6201 San Ignacio Ave, San Jose, CA 95119.
- This agenda and meeting documents are available at www.scfhp.com

EDUCATION

Stanford School of Medicine, Doctor of Medicine August 2011 to June 2017

University of Minnesota School of Public Health, MPH in Epidemiology September 2009 to June 2011
Thesis Title: *Risk of depressive episodes during the menopausal transition in women with a history of depression*

Wellesley College, Bachelor of Arts September 2002 to June 2006
Major: Neuroscience

CLINICAL EXPERIENCE

Stanford-O'Connor Family Medicine Residency Program July 2017 to the Present
Current second year resident at full-spectrum Family Medicine residency program located in San Jose, CA.

RESEARCH EXPERIENCE

Stanford School of Medicine – Department of Emergency Medicine January 2012 to January 2015
MedScholars funded research project in collaboration with Dr. James Quinn. Project evaluated the rate and predictors of infection following a dog bite that presents to the Emergency Department using data from a five-year prospective cohort study. Duties include database maintenance, follow-up phone calls to patients, data analysis, manuscript writing, and presenting findings at regional and national conferences.

University of Minnesota Medical School – Department of Microbiology February to December 2009
Junior Scientist in laboratory researching a complication of antiretroviral therapy, HIV immune reconstitution inflammatory syndrome (IRIS), in collaboration with Makerere University in Kampala, Uganda. Job responsibilities include RT-PCR, RNA extractions, cytokine profiling, data maintenance, and contributing to grant application writing.

Tufts University School of Medicine & Christian Medical Hospital – International Research Assistant August to December 2008
Research Assistant for a clinical HIV/AIDS research project in Tamil Nadu, India. Project focused on the use of traditional Indian medicines by HIV positive patients and the risks and/or benefits of these practices. Duties included patient recruiting, survey completion, survey and study protocol design, and general organization of the study.

Tufts Medical Center – Neuromuscular Disorder Research Assistant January 2007 to August 2008
Research Assistant in a laboratory that utilized *Drosophila* as a model system to study neuromuscular disorders. Duties included performing RT-PCR, RNA and DNA extractions, immunohistochemistry analysis, plasmid cDNA cloning, dissections of *Drosophila* GI tract and brain. Other duties included data collection and analysis, assisting in writing grant proposals and academic papers, preparing poster presentations, and maintaining fly stocks.

PUBLIC HEALTH EXPERIENCE

Stanford School of Medicine – Department of Community Health & Valley Foundation July 2013 to July 2014
Selected as a Valley Foundation Scholar to research the policies and practices of the law created to protect the rights of mental health patients. Interviewed psychiatrists, social workers, a hospital risk management lawyer, and a representative from the California Hospital Association in addition to independent research. Produced a written report entitled "Deficiencies of the Lanterman-Petris-Short Act and Opportunities for Modernization" for the use of policymakers at the county and state level.

Stanford School of Medicine – Department of Community Health December 2011 to June 2012
Student researcher for Stanford Hospital & Clinics Psychiatric Respite Center Planning Project. Researched financial and care-delivery models to better serve unsponsored psychiatric patients that are repeat visitors to Stanford Hospital Emergency and Psychiatric Departments.

University of Minnesota School of Public Health & Mulago Hospital – International Judd Fellow August 2010
Recipient of a Walter H. Judd International Graduate Fellowship from the University of Minnesota to study attitudes towards lumbar punctures in meningitis patients at Mulago Hospital in Kampala, Uganda. Analyzed data pertaining to patient decision to accept or refuse a lumbar puncture and utilized this data to develop patient information sheet which addressed concerns patients and their families reported having. Collaborated with local interpreters to translate into several local languages and piloted information sheet with local workers, patients, and their families of varying education levels.

Massachusetts Department of Public Health – Arbovirus Surveillance Program*June to August 2005 & 2006*

Mosquito Field Surveillance Staff ('05 & '06): Set and collected mosquito traps, collected mosquito larvae samples, sorted mosquitoes by species and prepared for RT-PCR testing, maintained surveillance database.

West Nile Virus Information Line Staff ('05): Assisted callers with questions regarding WNV, coordinated transportation of specimens to State Laboratory, maintained bird report database.

TEACHING EXPERIENCE**Stanford University – Department of Biology Core Courses***September 2013 to March 2014 & January to March 2017*

Teaching Assistant for two quarters of undergraduate biology courses covering topics in genetics, biochemistry, molecular biology, cell biology, and animal physiology. Developed teaching material for two 1-hour discussion groups per week covering the challenging concepts from lecture and creating practice problems. Other duties included creating exam questions, grading exams, holding weekly office hours, and answering student questions via email.

Stanford University – Clinical Summer Internship*August 2016*

Teacher at summer program for high school and undergraduate students interested in a career in medicine. Developed and delivered lectures about physical exam skills and injections. Lead hands-on sessions for small groups of students in physical exam and history taking skills, ultrasound, injections, CPR, basic burn care, knot tying, injections, birth control methods, and heart dissection.

Stanford University – Pregnancy, Birth, and Infancy*September 2013 to June 2014*

Teaching Assistant for medical school course which paired pre-clinical medical students with pregnant women allowing the students to attend pre-natal, delivery, and post-natal visits. Through this continuity clinical experience the course augmented classroom studies in anatomy, physiology, embryology and human development, and emphasizing social, economic, and personal issues related to medicine. Responsibilities included recruiting expecting mothers, grading reflection essays, and scheduling expert speakers for didactic sessions.

Stanford University – Parasites and Pestilence: Infectious Public Health Challenges*January to March 2014*

Teaching Assistant for undergraduate seminar examining parasitic diseases and other neglected diseases of global public health importance. Topics covered included the pathogenesis, life cycle, clinical presentation, treatment, historical impact, and health policies pertaining to these diseases. Duties included creating and teaching bimonthly interactive lab sessions, guiding students in selecting final project topics, and writing and grading exams.

Stanford University – Dilemmas in Current Medical Practice*September to December 2013*

Teaching Assistant for undergraduate sophomore seminar course examining the social, political, scientific, and economic forces affecting modern medical practice in the United States. Duties included co-leading weekly class discussions, managing course materials and website, scheduling medical student panel, and grading final papers.

Stanford Department of Medicine - Global Health: Beyond Diseases and International Organizations*September 2013*

Teaching Assistant for two-week intensive global health course for Resident Physicians from various fields interested in global health clinical practice and research. Topics included themes in systems and public health practices, health policy, ethics, and developing practical skills required to care for patients in an overseas setting through training on clinical, laboratory, and diagnostic aspects of patient care. Duties included maintaining course MedWiki site, course schedule, and all course materials, developing and compiling lecture evaluations, writing guest lecturer biographies, assisting with laboratory training sessions.

Stanford School of Medicine - Queer Health & Medicine Course*Spring Quarter 2012-2013*

Teaching Assistant for weekly seminar entitled "Queer Health & Medicine." Charged with selecting and scheduling all speakers to create a well-rounded curriculum pertaining to the special health needs of LGBTQ communities. Additional duties include creating budget, maintaining class Coursework website, booking room, and ordering food on a weekly basis.

Stanford School of Medicine - EXPLORE Program*April to July 2012 & 2013*

Teaching Assistant (Head TA for 2013 program) for 4-week summer educational program designed to expose high school students to biomedical research and medical specialties, with special attention to recruiting students with backgrounds that are generally underrepresented in science and medicine. Programming duties include scheduling speakers (Stanford faculty, post-docs, and graduate students) and planning and executing interactive activities twice a week.

University of Minnesota - Epidemiological Methods Course*September 2010 to December 2010*

Teaching Assistant for Epidemiological Methods introductory graduate level course in the School of Public Health. Responsibilities included answering questions pertaining to class content and grading homework assignments and exams.

ACTIVITIES & VOLUNTEER WORK

Stanford School of Medicine – Cardinal Free Clinics Physician Recruitment Coordinator

March 2016 to March 2017

Duties include ensuring physician staffing for clinic each week, recruiting new physician volunteers, and creating training materials.

Stanford University – Graduate Public Service Fellowship

September 2013 to May 2014

Selected as a Graduate Public Service Fellow from the Haas Center for Public Service. The Fellowship brings together a diverse group of graduate students from various disciplines to explore and prepare for careers in public scholarship and service through lectures, group discussions, and practical skills training. Mentored undergraduate students that wished to participate in service learning courses, internships, and post-graduate training, particularly in the area of healthcare disparities.

Stanford School of Medicine – Cardinal Free Clinics Student Manager

March 2013 to March 2014

Worked closely with the Office of Community Health and the student Clinic Managers at Stanford's two student-run free clinics (Arbor Free Clinic, Menlo Park, CA and Pacific Free Clinic, San Jose, CA). Provide administrative support to both clinics, including grant writing, and facilitate collaborative projects between the clinics such as volunteer recruiting, national conference presentations, and leadership course development.

Stanford School of Medicine – Arbor Free Clinic Student Manager

March 2012 to March 2013

One of four student managers charged with running a free clinic. In-clinic duties include overseeing all volunteers in clinic, setting patient cap, arranging efficient use of clinic space, and making action plans for issues that arise during the clinic day. Out-of-clinic duties include managing sub-committees including HIV Opt-out Counselors, Health Education team, Health Services Screening team, and Flu Crew. Additional duties include developing physician and pre-clinical training materials.

Stanford School of Medicine – Arbor Free Clinic Flow Coordinator

September 2011 to March 2012

Assigned all patients medical student and physician care teams, assigned patient room, checked proper use of EHR system by volunteers, and ensured efficient use of clinic space.

Stanford School of Medicine – LGBT Medical Student Association

September 2011 to Present

Member of LGBT Medical Student Association and served on Leadership Board September 2013 to August 2014. Group serves to advocate for LGBT rights and healthcare, promote LGBT welcoming practices in the Medical School and Stanford Hospital, and to provide fellowship and support for LGBT students and applicants. Activities include conducting interclass surveys and presenting results to our peers, organized documentary screening and patient panel for campus-wide event, staffed table at medical school orientation events, and coordinated social events for group members.

Stanford School of Medicine – Flu Crew Student Volunteer

September 2011 to November 2012

As first-year medical student, volunteered weekly September through January as influenza vaccinator and event leader providing free influenza vaccines to students and staff at Stanford University in addition to farm workers in the San Francisco Bay area. As a second-year medical student, provided event oversight and vaccination training to first-year medical students.

University of Minnesota Medical School – Phillips Neighborhood Clinic Student Volunteer

October 2009 to June 2011

Volunteered in free clinic run by academic health students at the University of Minnesota serving the Phillips Neighborhood in Minneapolis, MN. Various roles included acting as clinic manager and coordinating multi-disciplinary care teams.

MINUTES

For a Regular Meeting of the
**SANTA CLARA COUNTY HEALTH AUTHORITY
PROVIDER ADVISORY COUNCIL (PAC)**

Wednesday, August 8, 2018, 12:15-1:45 PM
Santa Clara Family Health Plan
Sycamore Conference Room
6201 San Ignacio Ave, San Jose, CA 95119

COMMITTEE MEMBERS PRESENT

Bridget Harrison, MD
Jimmy Lin, MD
Peter Nguyen, MD
Sherri Sager
Richard Garcia MD
Thad Padua, MD, Chair

COMMITTEE MEMBERS ABSENT

Chung Vu, MD
David Mineta
Dolly Goel, MD
Kingston Lum

STAFF PRESENT:

Christine Tomcala, CEO
Jeff Robertson, MD, CMO
Eric Tatum, Director, PNM

OTHERS PRESENT:

Dana Castillo, RN, BSN, Mgr, UM
Dang Huynh, PharmD, Mgr, Pharm
Robyn Esparza, Admin Asst, PNM

ROLL CALL/ESTABLISH QUORUM

Thad Padula, MD, Chair, called the meeting to order at 12:30 pm.

- o Roll call was taken and a quorum was established.
- o Introduction of new Provider Network Management Director, Eric Tatum.
- o Introduction of new Council member, Dr. Richard Garcia (PMG, CMO).
- o Clara Adams, LCSW will be joining the Council in the beginning of 2019. She will be an ideal addition to the Council as she is very familiar with mild to moderate behavioral health issues.

1. MEETING MINUTES (ATTACHMENT)S

The previous minutes from February 8, 2018 and May 9, 2018 were reviewed

- o February 8, 2018 minutes approved as written.
- o May 9, 2018 minutes approved as written.

2. PUBLIC COMMENT

- There were no public comments.

3. CHIEF EXECUTIVE OFFICER UPDATE (ATTACHMENT

Christine Tomcala, CEO, presented the July 2018 Membership Summary (copy attached herein), noting no dramatic changes in the current enrollment (258,556):

- Healthy Kids: 3,278 (1%)
- Cal MediConnect: 7,523 (3%)
- Medi-Cal: 247,755 (96%)
- Total: 258,556 (100%)

With regard to Medi-Cal Membership by Age Group the following was noted:

- Pediatrics: 101,830 (41%)
- Adults: 145,925 (59%)

Observations regarding the membership of SCFHP include:

- Medi-Cal continues to decrease, which most likely is due to the concern of undocumented families.

The following current events were noted:

a. SCFHP's NEW BUILDING

Ms. Tomcala welcomed the Council members to the new SCFHP administrative offices, noting that the contractor is still completing a few outstanding items. She stated that the entrance and boardroom will be completed by the time of the next Council meeting. The Council members had positive feedback regarding the building.

b. CMS AUDIT

Ms. Tomcala informed the Council that SCFHP recently received notification from CMS that they will be conducting a Program Audit of the plan. She stated that SCFHP employees are currently in the midst of a number of webinars and uploading data universes in preparation for the audit. The audit and corresponding responses will be an ongoing process for the remainder of the year, and a number of corrective action plans may be required by CMS.

c. HEALTH PLAN LOGO

Ms. Tomcala noted that the new SCFHP logo has also been launched. The goal was to roll it out with the relocation. She pointed out that the eight point star logo represents community with little hands/heads of people.

4. REVIEW PAC CHARTER (ATTACHMENT

Dr. Robertson, CMO, noted that, as discussed at the last meeting, the **slash** between “**high quality/effective**” in the PAC Charter (copy attached herein) will be replaced with the word “**and**” for clarification. In addition, Dr. Robertson recommended that the Charter be modified to allow the CEO to appoint physicians who are enrolled in an accredited residency program as non- voting members of the Council. It was agreed that residents should be at least a year into their residential program before being considered. Council members with suggestions of residents for consideration for Council membership should email Dr. Robertson directly. Both of these items were approved by the Council.

- CEO to recommend the above PAC Charter modifications to the Board.

5. QUALITY AND PHARMACY (ATTACHMENT

Ms. Johanna Liu, Director of Quality Improvement and Pharmacy, presented drug utilization reports on the Top 10 Drugs by Total Cost and Top 10 Drugs by Prior Authorization for the date range April 1, 2018 to June 30, 2018 (copy attached herein). It was recommended that any drug that is currently required to be prior authorized, but is being approved 100% of the time by the Plan, be removed from the prior-authorization list.

- Ms. Liu to take back the above recommendation to the P&T Committee for review.

6. MEMBERSHIP OF PAC

Dr. Robertson reminded the Council members that there is a minimum participation requirement of attending two meetings per calendar year. Active members coming to end of their term can be reappointed by the CEO. It was noted there have been a couple of current members that have failed to meet this requirement; namely, Mr. Kingston Lum and Mr. David Mineta.

- o Dr. Robertson to follow-up with both Mr. Lum and Mr. Mineta regarding their meeting participation.

Dr. Robertson mentioned that Mr. Steve Church, SNF/ MLTSS representative, was an excellent attendee and a vital contributor to the Council and a replacement would be ideal.

- o Dr. Robertson to look into identifying a replacement Council member from the MLTSS/SNF area.

7. SIX C'S OF CARE

Dr. Padua led a discussion surrounding the Six C's of Care, reminding the Council of what SCFHP is trying to accomplish with them. New appointee, Dr. Garcia, shared that he has significant background experience encompassing compliance, and CMS/NCQA requirements, and he has some improvement suggestions that he would like to share in the future. Dr. Robertson commented that perhaps a seventh C should be added to include compliance. This has been SCFHP's focus the last few years.

Dr. Robertson thought one opportunity for improvement is educating the physicians that an "urgent" authorization means "life threatening" and that they shouldn't mark every authorization request as "urgent" to simply move their request to the top of the pile. The Council agreed that provider education via "communication" is the key, which is actually the fourth C.

- o Develop an action plan to address the issue of providers submitting non-urgent authorization requests as urgent.

8. SCFHP AUTHORIZATION PROCESS FOR MEDICAL, BEHAVIORAL HEALTH & LTSS SERVICES (ATTACHMENT 8(S))

Ms. Jana Castillo, RN, BSN, Manager, Utilization Management Department, was in attendance to advise the Council on SCFHP's authorization process for medical, behavioral health, and LTSS services. At the last Council meeting, this was suggested as a topic to be evaluated.

Ms. Castillo summarized the Prior-Authorization and Organization Decisions Procedure (HS01.01) and she clarified that for the Medi-Cal (MC) and Healthy Kids (HK) products, urgent requests must be processed in three (3) days; and routine requests must be processed in five (5) business days. For the Medicare line of business, urgent requests must be processed within 24 hours and routine requests within 14 days. She stressed that SCFHP aims to process the Cal MediConnect routine requests within five (5) days as it reduces confusion of providers. This is also an industry "best practice". Some Council members stated that there is some misunderstandings in the provider community about what services require a prior authorization.

- o Present SCFHP's Prior Authorization list for review at next meeting.

9. SCFHP AUTHORIZATION PROCESS FOR PHARMACY (ATTACHMENT 9(S))

Dang Nguyen, PharmD, Manager, Pharmacy Department, was in attendance to present the SCFHP authorization process for pharmaceutical items. Included in the meeting packet was the policies and procedures related to this subject, including Pharmacy Prior Authorization (PH03), Med-Cal/Healthy Kids Prior Authorization (PH.03.01), Cal MediConnect Coverage Determination (PH.03.02), Part B J-Code Authorization (PH.03.03), and Part B Authorization (PH.03).

Mr. Nguyen summarized all the above, by reviewing the slide deck for Pharmacy Prior Authorization Turn-Around-Times (copy attached herein). He advised that SCFHP staff work on the weekends and holidays, processing prior authorizations as DHCS requires that all Medi-Cal prior authorization requests for pharmaceuticals must be processed within 24 hours. For Healthy Kids enrollees, the urgent requests must be processed within 72 hours and standard requests within 5 business days. For Cal MediConnect enrollees the urgent requests must be processed with 24 hours and standard requests within 72 hours.

10. DISCUSSION / RECOMMENDATIONS

There were no further discussion / recommendations.

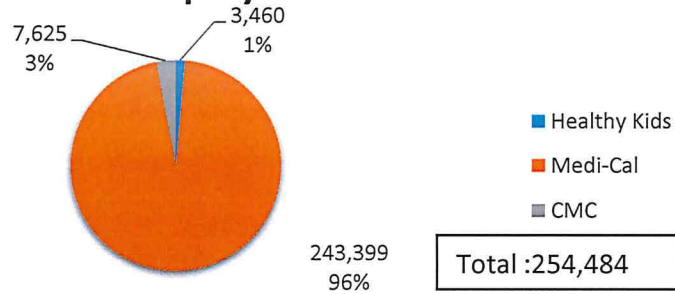

11. ADJOURNMENT

It was moved, seconded and approved to adjourn the meeting at 1:45. The next meeting is scheduled for Wednesday, November 14, 2018. A meeting reminder will be sent in the near future, confirmation meeting and location.

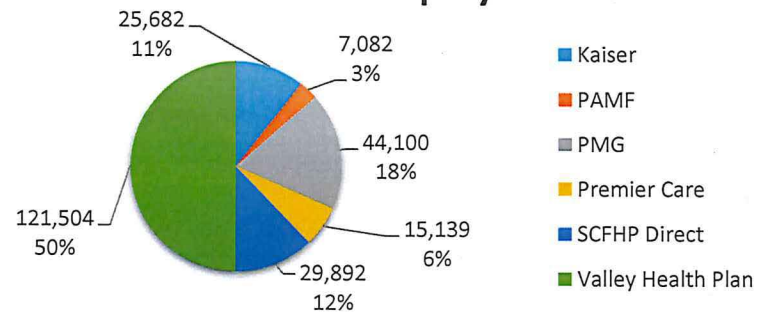

Dr. Thad Padua, Committee Chairman
