

Physician Direct Phone Line

Please call the Dedicated Physician Line at **(573) 651-5880**, or **x5880** from within the hospital, if you need to contact the switchboard. This is a priority line and provides a faster response to physician calls. Please save this number for future use.

The physician direct phone line is given priority over answering regular switchboard traffic. This line may be used by Physicians, Nurse Practitioners, and Physician Assistants who need assistance from the switchboard, such as transferring calls, reaching the Access Center, dialing another hospital, or connecting a call to an outside line.
