## LOIS VICE TO FOCUS ON SCR FAMILY MEDICAL SUPPLY, KAREN HOLIFIELD NAMED VP, POST ACUTE CARE SERVICES

*Lois Vice will focus on growing and managing SCR's Family Medical Supply*

*Karen Holifield has been named VP, Post Acute Care Services*

After a thirty-two year involvement with Home Health, with the last ten years as Administrative Director for HomeCare Programs, Lois Vice has decided to step back from her Leadership responsibilities to focus on growing and managing SCR's Family Medical Supply operation. Lois has provided outstanding leadership over a long period of significant development and intense change for Home Health, Hospice, Palliative Care and Family Medical Supply (formerly Home Medical Equipment Services).

As a result, Karen Holifield, has been named Vice President, Post Acute Care Services and will assume administrative responsibility for HomeCare Programs. Karen's responsibilities pull together all our post acute services and will assure their continued strategic development, operational effectiveness and coordination with acute care services.

## SCR, CHIEF INFORMATION OFFICER FEATURED IN HEALTHDATA MANAGEMENT MAGAZINE

St. Claire Regional Chief Information Officer, Randy McCleese is featured in the February issue of HealthData Management magazine.

Mr. McCleese is interviewed as part of the cover story, "Tackling the Health I.T. Workforce Shortage", which discusses the many obstacles facing healthcare facilities while adopting EHRs.

Health Data Management is leading source for news and in-depth analysis on using information technology to achieve business goals and improve the quality of care

# MEET THE RPLP COURSE DIRECTORS

*submitted By: Dee Halblieb*

The Rural Physician Leadership Program (RPLP) would like to introduce our Course Directors for the 2010-2011 year. There are currently eight physician RPLP Course Directors from a variety of medical specialties including; emergency medicine, family medicine, general/vascular surgery, internal medicine, neurology, obstetrics and gynecology, pediatrics and psychiatry. Over the last six months this group of dedicated educators has devoted their time, patience, wisdom and expertise to train the first class of RPLP students here in rural Kentucky.

RPLP Course Directors are not only responsible for the clinical education of the medical students, but their didactic education as well. Course Directors have worked closely with their counterparts at the University of Kentucky and the Morehead RPLP staff to develop a curriculum that fuses the goals and standards of the University of Kentucky with the values and ideals found in rural Kentucky communities. More specific objectives and competencies include:

- Populations-based study and research
- Health promotion and disease prevention
- Study of community health systems, services and agencies
- The role of community leaders in health care
- Identification of community health problems and their solutions
- Evaluation of the effectiveness and efficiency of a medical practice
- Economics of a medical practice, as well as the impact of a medical practice on the local economy.

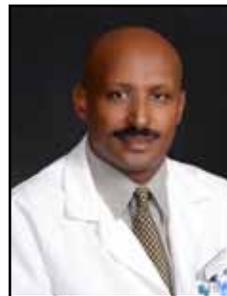

Additionally, the Course Directors further guide the students of the RPLP in their search to possess the knowledge and experience necessary to work with civic and community leaders to improve the general health of their communities and the Commonwealth as a whole.

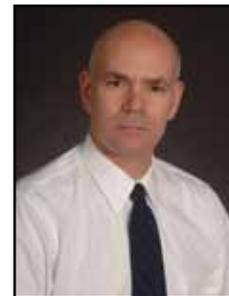

Brandy Fouch, MD  
Pediatrics  
Course Director

Lisa Goldstein, MD  
Family Medicine  
Course Director

Enawgaw Mehari, MD  
Neurology  
Course Director

Stephen Mitchell, MD  
OB/GYN  
Course Director

Laura Salyers, MD  
Psychiatry Course Director

John Sanders, MD  
Emergency Medicine  
Course Director

Ed Scott, MD  
Internal Medicine  
Course Director

David Victor, MD  
General/Vascular Surgery  
Course Director

As you are well aware our campus is in the process of changing as a result of the 2nd Street relocation project. As a result we have recently had to implement a new parking program. We appreciate everyone's cooperation; however, we have had to issue several staff tickets over the past few weeks. Due to increased construction activity and the subsequent demands on our parking we will be required to be more aggressive in our lot patrols. It is important that you follow the key elements of the new parking program including:

- Parking only in assigned lots
- Displaying hang tags properly in vehicle
- Registering all vehicles at SCR Vehicle Registration Web Site

\* Because conditions continue to evolve, we have decided to open another row of Parking in upper Lot A for staff.

For the benefit of our patients and visitors and the safety of our staff, failure to comply with the key elements listed above will result in disciplinary measures.

Thanks again for your cooperation!

Mark J. Neff  
President/CEO

**Disabled Person/Special Parking Needs (G & H):** Contact HR at ext. 6584/6585 to receive an application. If approved, you will receive either a "Short Term" or a "Long Term" parking permit. "Short Term" permits will be issued for requirements that are 9 mths or less. "Long Term" permits require reapplication after 2 years.

**Physicians (B G & H):** Contact Admin at ext. 6520/6513.

**Students/Residents (C, F, L, & M):** Contact Area Health Education Center in Suite 203 - 2nd floor CHER bldg.
