## SPOTLIGHT: 3rd Central

Submitted By: Janie Waltz

The 3rd Central staff has taken initiative to decrease the number of patient falls that happen on the unit. Recently, a “fall” tree was implemented to track and display the number of days without a fall on 3Central. For each 24 hour period without a fall there is a leaf applied to the tree. If a fall happens the leaves all fall off the tree and the process starts over. This tree is displayed on the unit. Currently, 3 Central is 48 days without a fall!! There was a celebration with cake and snacks after 40.

“We are now working toward the next celebration! I am so proud of the work and effort all of the staff on 3Central has put into keeping our patients safe and decrease falls, Janie Waltz, SCR patient representative said. “Through their hourly rounding, screening of patients, and utilizing bed alarms they have demonstrated true dedication to patient safety.”
