

SCR DATA CENTER PROJECT TO EXPAND INFORMATION TECHNOLOGY INFRASTRUCTURE

John Gibson, SCR Network Analyst, is assisting in the project coordination of the new data center.

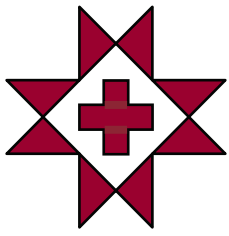

The SCR data center is designed with fail-safe features to reduce computer system downtime with backups for power, cooling and network connectivity.

The St. Claire Regional data center project will expand the medical center's information technology infrastructure. The medical center depends on information technology 24/7 and the innovative data center expansion is designed to accommodate increasing use of electronic information services. Transferring the infrastructure equipment to the 1200 sq/ft facility will relieve space and facility infrastructure limitations that currently limit future system development.

"The data center will provide the redundancy and reliability required to maximize clinical application performance for the implementation of the SCR electronic medical record systems," says John Gibson, the SCR Network Analyst assisting in the project coordination of the new data center.

The SCR data center is designed with fail-safe features to reduce computer system downtime with backups for power, cooling and network connectivity. Plus, the facility can operate uninterrupted on emergency generator power in the case of an utility electrical outage. The data center will also utilize state-of-the-art modular technology that will allow network bandwidth and computer processing power to be added as needed.

Amazing. Medicine. Close to Home.

Staff Notice

Announcement of 401(k) Contribution

Dear Participants,

We are pleased to announce that the Board of Directors has approved a 5% contribution to the St. Claire Regional Medical Center 401(k) Plan for the Plan Year Ended December 31, 2009. All eligible participants will receive a contribution amounting to 5% of your eligible compensation during the Plan Year.

The contribution is scheduled to be transferred to Transamerica Retirement Services on June 1, 2010 for deposit to your individual accounts during the first week of June. Participants should review their investment choice elections for the managing and asset allocation of new contributions.

While we have been experiencing a challenging economic environment, the Board recognizes that St. Claire Regional and its employees and staff have continued to provide outstanding quality care for our service area.

The Board extends its appreciation for your continued efforts in fulfilling our mission: "To proclaim God's goodness through a healing ministry to the people of Eastern Kentucky."

Mark J. Neff, SCR President/CEO

401K DAY Celebration

CANCER AWARENESS SUCCESS “BOWLIN’ FOR THE COLON”

Submitted By: Robin Franklin

Brenda Mabry, SCR staff member, volunteered at the t-shirt booth during the “Bowlin’ for the Colon” bowl-a-thon

St. Claire Regional recently participated in the first “Bowlin’ for the Colon” bowl-a-thon on Friday, March 26th. The purpose of this event was to raise awareness about early screening for colon cancer in Rowan and surrounding counties. The night was packed full of fun activities – not only bowling, but local musicians provided entertainment and good food was plentiful along with educational presentations.

A big hit was the distinctive T-shirts which were sold to commemorate the event. We encourage the shirts to be worn often to increase awareness of this important screening. Shirts are still available and can be purchased from Dr. Ann Colbert for \$10.

X-RAY SERVICES NO LONGER AVAILABLE AT SCR OUTPATIENT CENTER

Submitted By: LeeAnn O’Brien

Effective, May 7, 2010 SCR will no longer be providing general radiography services (X-ray) at the Outpatient Center located at 1028 East Main Street in Morehead, Kentucky. However, patients can still receive mammography and DEXA (Bone Density) services at the Outpatient Center location. Please ensure your patients know that they will need to come to our main hospital for all general radiography services (X-ray) beginning May 7, 2010.

We truly appreciate your understanding of the transition of X-ray services back to the main facility. This transition will benefit the overall organization as it allows us to make more efficient usage of our equipment and resources. We will work to make this change as accommodating to patients as possible, if you have any questions please contact us at 606-783-6761.

CAMP

SMILE

Sharing Memories in a Loving Environment

Camp SMILE (Sharing Memories in a Loving Environment) is a collaborative effort by St. Claire Hospice & Palliative Care and the Morehead State University Department of Nursing. **Camp SMILE** is offered to children, 5-17 years old, who have been involved in Hospice services or who have suffered the loss of a loved one. Trained bereavement counselors will offer a variety of participatory activities to guide the children through understanding feelings of grief and loss. There is no charge for the campers, who will receive lunch and afternoon swimming and fun activities each day, bereavement materials and a camp T-shirt. Hospice conducts **Camp SMILE** as a free community service and receives no reimbursement for it. We depend on cash and in-kind contributions.

WHO: Children ages 5-17
WHERE: Morehead State University, Laughlin Health Building
WHEN: Tuesday, July 21 through Friday, July 24, 9 a.m. to 4 p.m.
CONTACT: Melanie Hurst, Camp SMILE Coordinator, at (606) 783-6808

**FREE LUNCH, AFTERNOON SWIMMING
AND FUN ACTIVITIES**

*Campers will receive a camp tee shirt and a variety
of bereavement materials.*

SCR DIETARY SERVICES LEND A HELPING HAND

Submitted By: Glenda may

Kim Hamilton checks out a customer in the SCR Cafeteria

Kim Hamilton, a dietary staff member, was working the register when an adolescent was paying for his purchase. He only had a debit card. Kim told him that she had no way to use it and instead took her badge and paid for his food.

Kim was spotted helping an elderly gentleman that was confused about how to go through the buffet line. She not only asked if she could help

him, but she asked him what he would like to eat and filled his plate of food.

Thank you Kim for providing such a good example of great SCR customer service.

Carolyn Hayden, 20 year SCR staff member with her family at her retirement party

BEST WISHES

Submitted By: Nancy Maggard

Carolyn Hayden, LPN from 3 central retired April 2nd, 2010. Carolyn has been a dedicated and loyal employee for 20 years at SCR and has worked in many departments through the years. Carolyn is an excellent nurse with a wonderful bedside manner to patients and families. Carolyn will be deeply missed by her St. Claire Regional family, patients and families.

Dinner 4:30 p.m. - 6:00 p.m.

Location: Foundation Ground, in the event of rain BBQ will be held in cafeteria

MAY 19TH IS WORLD HEPATITIS DAY

Submitted By: Charlotte Kinney

One in 12 people worldwide are living with either chronic Hepatitis B or Hepatitis C. In the United States, approximately 1.2 million people have chronic Hepatitis B and 3.2 million have chronic Hepatitis C. Each year an estimated 25,000 persons become infected with Hepatitis A, 43,000 with Hepatitis B, 17,000 with Hepatitis C. Many do not even know they are infected.

Hepatitis A Virus is usually spread when a person ingests fecal matter-even in microscopic amounts-from contact with objects, food or drinks contaminated by the feces or stool of an infected person.

Hepatitis B Virus is spread through contact with infectious blood, semen, and other body fluids, from having sex with an infected person, sharing contaminated needles to inject drugs, or from an infected mother to her newborn.

Hepatitis C Virus is spread through direct contact with infected blood. Today, most people become infected with the Hepatitis C virus by sharing needles or other equipment to inject drugs.
