

# \$19.1 MILLION

---

The amount of net community benefits St. Claire HealthCare provided for the year ended June 30, 2018

## **BENEFITS FOR THE MEDICALLY UNINSURED/UNDERINSURED/ELDERLY .....\$10.5 MILLION**

### **Charity and Uncompensated Care..... \$2,781,170**

To help meet the medical needs of patients who have no healthcare coverage and cannot afford to pay for health services, SCH provided \$254,660 in charity care (at cost) last year. Uncompensated care, which totaled \$2,526,510, is the cost of SCH services to individuals who were unable or unwilling to pay, and did not officially meet guidelines for traditional charity care.

### **Medicaid and Medicare Shortfall ..... \$7,733,140**

SCH routinely treats patients who receive Medicaid and Medicare benefits. Last year's government reimbursement for those services fell \$7.7 million short of the actual cost of care.

## **BENEFITS FOR THE BROADER COMMUNITY ..... \$8.6 MILLION**

### **Health Professions Education ..... \$2,618,215**

The educational development and professional training of medical personnel is key to improving our community's health. Programs in this category include physician and medical student training, nurse development and professional medical education, and scholarship support for students pursuing health careers degree programs.

### **Subsidized Health Services ..... \$5,849,540**

These are patient care services that are provided despite a negative margin, because they are needed in the community and would otherwise not be available to meet patient need. These include some of SCH's specialized physician services, which if not provided, would require some patients to travel an hour or more for the care that they need.

### **Community Support and Partnerships ..... \$133,875**

These benefits include activities and programs provided to improve our community's health, such as health fairs and screenings, free sports physicals for area students, support groups for patients and families, and partnerships to advocate for the enhancement of community health.

### **Donations .....\$25,625**

This includes cash donations and in-kind gifts that SCH made directly to programs, organizations and foundations that serve the health and well-being of our region.

## **TOTAL BENEFITS TO THE COMMUNITY ..... \$19.1 MILLION**
