

Spine Surgery

Twin Cities Spine Center

Dr. Bayard Carlson, MD; Dr. Eduardo Beauchamp, MD

Twin Cities Spine Center is a specialty medical practice focused exclusively on one incredible and complex area of the body: the spine. Your spine is central to your body, your movement and your life. So when your neck or back is causing you pain, numbness or dysfunction, it can be life-disrupting and concerning. The specialists at Twin Cities Spine Center are here to help.

We congratulate our physicians named to *Mpls St. Paul Magazine's* Top Doctors Rising Stars list:

Dr. Bayard Carlson completed medical school at Northwestern University Feinberg School of Medicine in Chicago, and his residency at Mayo Clinic, Rochester. He completed the John Moe Spine Fellowship at Twin Cities Spine Center. He is a Board-Certified Orthopedic Spine Surgeon and a member of the Cervical Spine Research Society. He has special interests in cervical disc replacement and minimally invasive spine surgery.

Dr. Eduardo Beauchamp completed medical school and residency at University of Puerto Rico. He completed the John Moe Spine Fellowship at Twin Cities Spine Center and an Advanced Pediatric Spine Deformity fellowship at New York Presbyterian Hospital/Columbia University Medical Center. Dr. Beauchamp is a Board-Certified Orthopedic Spine Surgeon with special interests in adult and pediatric spine deformity and scoliosis surgery. He serves as the Director of Clinical Research at Twin Cities Spine Center.
