

## **Appendix B – AGB Calculation**

**POLICY SUMMARY:** Truman Medical Center (TMC) has elected to use the look back method to determine the amounts generally billed (AGB) and the AGB percentage. To determine the AGB percentage TMC uses the sum of all claims allowed by Medicaid divided by the sum of associated gross charges for those claims. TMC will calculate the AGB at least annually using the prior 12 month period (July 1 – June 30) and the AGB will be effective no later than 120 days after the 12 month period TMC uses in calculating AGB.

### **FY 2018**
