

COVID-19 & FLU

Did you know?

COVID-19 positive individuals must delay getting their flu vaccination

People who are moderately or severely ill should wait until they recover before getting the flu vaccine.

Vaccination should be postponed for people with suspected or confirmed COVID-19, regardless of whether they have symptoms, until they have met the criteria to discontinue their isolation.

If you are experiencing any COVID-19 or Flu symptoms, call 404-CARE(2273)
