

# MASON SHAW, INTERNAL MEDICINE

## Where did you attend medical school?

University of Arkansas for Medical Sciences

## What is your hometown?

Conway, Arkansas

## What is your medical practice interest?

I am currently interested in private practice and procedural medicine

## Why did you choose the Unity Health Graduate Medical Education Program?

I chose Unity Health because it is in a rural community and it allowed me to give back to this wonderful state that I have been fortunate enough to call home.

## What impact do you hope to have on the medical field?

I hope to be able to help my patients live to their greatest potential for as long as they can. As doctors, we transition people into an out of the world and everything in between.

## What hobbies, interests, or talents do you have outside of medicine?

I am interested in tinkering. I have tried my hand at many activities including forging, blade-smithing, and car and furniture restoration. I enjoy the small-town life. I refer to myself as an amateur conversationalist. I love talking to people and making new friends. I recently moved into a 32-foot trailer that I park down by the river with my hoard of lawn flamingos.
