

STEVEN PHAM, D.O., INTERNAL MEDICINE

Where did you attend medical school?

Kansas City University

What other higher education, credentials, or certificates have you obtained?

Master of Business Administration (MBA) in Healthcare Leadership

What is your hometown?

Bakersfield, CA

What are your medical practice interests?

Hospitalist or fellowship (still exploring specialties of interest)

Why did you choose the Unity Health Graduate Medical Education program?

With residency training, I want to gain a deeper understanding of internal medicine and build a strong foundation for my future career. Unity Health undoubtedly has everything I was looking for, from a wide range of educational opportunities to a strong sense of camaraderie. During my interview, I met many nice and humble faculty members and residents who made the experience extremely pleasant. Furthermore, I am also inclined to rank this program highly based on the testimony of a current resident friend. It is an honor to match here, and I am looking forward to receiving the training at Unity Health.

What impact do you hope to have on the medical field?

I am dedicated to being an outstanding patient advocate. My goal is to become a physician who not only evaluates and treats the patients' conditions, but also walks with them and reassures them throughout the process. In addition, it would be a pleasure for me to contribute to the training of future generations of physicians and to be a part of the medical education process.
