

## Community of Caring 2022

### Participating Nonprofit Organizations

The mission of Community of Caring is to improve the quality of health and wellbeing of our community with compassionate care by partnering to fill the most basic needs of food security, shelter and safety, and addiction recovery so that medical and mental health needs can also be met. Below is a list of some nonprofit organizations who work to meet these needs throughout the year. Additional nonprofit organizations will be added as their information is received.

\*Please contact the nonprofit organization to determine the items needed.
