

# PANARAT PONGSAKUL, D.O., FAMILY MEDICINE

## Where did you attend medical school?

West Virginia School of Osteopathic Medicine

## What other higher education, credentials, or certificates have you obtained?

University of Richmond-Health Studies

## What is your hometown?

Falls Church, Virginia

## What are your medical practice interest?

Global Health, Mental Health, Women's Health, Preventive Medicine

## Why did you choose the Unity Health Graduate Medical Education program?

I like that Unity Health is a smaller program with opportunities to work with underserved patients. Being from Virginia, I also really wanted to try living in a different part of the country.

## What impact do you hope to have on the medical field?

I have a huge interest in digital health and public health, so I hope to combine these passions along with my clinical knowledge to help create a better healthcare system for my patients locally and globally.

## What hobbies, interests, or talents do you have outside of medicine?

Traveling, learning new languages, working out, hanging out with friends, discovering all the great places to eat
