Where did you attend medical school?
WVSOM - West Virginia School of Osteopathic Medicine

What is your hometown?
Phillipsburg, NJ

What are your medical practice interest?
Hospital Medicine

Why did you choose the Unity Health Graduate Medical Education program?
I wanted to grow both as a physician and as a person. I realized that I would never be able to complete the vision I have for myself if I had stayed back home or anywhere remotely similar to it. I chose Unity because I get to be myself unabashedly. I get to come to work everyday and do what I have dreamed of for years, and it feel so gratifying and fulfilling.

What impact do you hope to have on the medical field?
Medicine, like any field, is not perfect, which it means it can be better. As physicians, we always should strive for advancement and progress in patient care and outcomes. I frankly don’t know if I will or can have impact on the medical field in those regards. But I hope through my travels and experiences, I can encourage the next generation of healthcare professionals to approach medicine with empathy, compassion, and a dedication to improving patient's lives.
