

Financial Assistance Summary

White Plains Hospital Center (hereafter referred to as the “Hospital”) recognizes that there are times when patients in need of care will have difficulty paying for the services provided. Under our Financial Assistance Policy, discounts may be provided to qualifying individuals based on their income. In addition, we can help you apply for free or low-cost insurance if you qualify. Just contact a Financial Counselor at 914-681-1004 or go to 101 E. Post Rd, 3rd Floor (Business Office) for free, confidential assistance.

Who qualifies for a discount?

Financial Assistance is available for patients with limited incomes and no health insurance. The Hospital also provides financial assistance, including payment arrangements, upon request, to qualifying patients who have insurance coverage but have an out-of-pocket expense that they cannot afford or deem a hardship. Any financial aid allowance will be determined on a case-by-case basis, upon completion of a Financial Assistance application and submission of required documentation.

You may apply for a discount regardless of immigration status.

What services are covered?

Everyone who resides in New York State who needs emergency services can receive care from the Hospital and qualify for a discount if they meet certain income limits and are determined eligible by the Hospital.

Everyone who resides in Bronx, Orange, Putnam, Rockland, and Westchester counties can qualify for a discount on non-emergency, “medically necessary services” (as this term is defined in the Hospital’s Financial Assistance Policy) if they meet certain income limits and are determined eligible by the Hospital. This includes outpatient services and inpatient admissions provided by the Hospital and its substantially related entities (not including the following captive professional corporations: Cancer & Blood Medical Services of NY, PC and White Plains Medical Diagnostics, PC).

You cannot be denied “medically necessary services” because you need financial assistance.

What are the income limits?

The amount of the discount varies based on your income and the size of your family.

Generally, patients are eligible for Financial Assistance, using a sliding scale, based on the Federal Government’s Federal Poverty Guidelines (FPG).

How much do I have to pay if I do meet the income limits?

Eligibility for Financial Assistance means that patients will have their bills covered fully or partially, based on a sliding fee scale capped at the “Amounts Generally Billed” (AGB) to patients who have insurance coverage. Financial Assistance levels, based solely on Family Income and FPG, are:

Family Income at or below 100% of FPG:	Patient responsible for Nominal Payment Rate only for the following services: <ul style="list-style-type: none">• Inpatient – \$150/discharge• Ambulatory Surgery – \$150/procedure• MRI Testing – \$150 per session• Adult Emergency Room and Clinic Services – \$15/visit• Prenatal and Pediatric Emergency Room and Clinic Services – no charge
Family Income at 101% to 200% of FPG:	Patient eligible for partial Financial Assistance; AGB is maximum amount billable to the patient.
Family Income at 201% to 300% of FPG:	Patient eligible for partial Financial Assistance based on a percentage of the Hospital’s highest volume payer. AGB is maximum amount billable to the patient.
Family Income at 301% to 500% of FPG:	Patient eligible for partial Financial Assistance.

Our Financial Counselor will give you the details about your specific discount(s) once your application is processed.

What if I do not meet the income limits?

If you are not eligible for financial assistance because you do not meet the income limits, the Hospital may also offer extended payment plans to those who apply.
