New York State Hospital Facility Fee Notification

New York State Public Health Law 2830 requires hospitals to notify patients about potential facility fees that may not be covered by your insurance. Your upcoming service may include a facility fee. Facility fees cover a portion of your care within the hospital, such as the cost of diagnostic tests, equipment, supplies, and/or services rendered by nurses, technicians, and other members of your care team.

These fees may include charges for the following examples:

- Use of exam or surgery rooms
- Medications given in the hospital or clinics
- X-rays and other diagnostic tests (e.g., echocardiograms and stress testing)
- Services provided by technicians, nurses or other members of your healthcare team
- Room and care charges for an in-patient stay
- Any other charges that are not the professional fee for the services of licensed healthcare practitioners, such as physicians or advanced practice providers

The facility fees are billed by the hospital and would be included on your statement for services for any balance you may be responsible for.

If you have questions about your potential financial responsibility or would like an estimate prior to services, you can use MyChart Patient Estimates by visiting our website: <https://www.wphospital.org/patients-visitors/patients/billing-information/>

You may also contact our hospital billing department at (914) 681-1004.
