

WALDO

Today was another milestone for Patty and our team of cancer experts

Twelve years cancer-free. Patty Ferris and Dr. Green, her oncologist, have been through a lot together. From Patty's diagnosis of breast cancer to her mastectomy, chemo, and many, many follow-up visits. At the White Plains Hospital Center for Cancer Care, every patient's battle with cancer is our battle, too. And our partnership with Montefiore Health System gives our patients access to breakthrough clinical trials right here in White Plains. It's this commitment to delivering exceptional care every day that has kept Patty cancer-free for all these years.
