## **AGENDA ITEM NO. 1**

**TO:** Quality Improvement Committee

**FROM:** Felix L. Nuñez, MD, MPH, Chief Medical Officer

**DATE:** October 17, 2023

**SUBJECT:** Findings to Continue to Hold Remote Teleconference / Virtual Quality Improvement Committee Meetings Pursuant to Assembly Bill 361

### **SUMMARY/RECOMMENDATION:**

At their February 28, 2023, meeting, the Quality Improvement Committee (“Committee”) adopted findings to continue to meet remotely pursuant to Assembly Bill 361. To continue this practice, it is required, that the Committee determine that they have considered the facts of the COVID-19 state of emergency in deciding to continue to have teleconference meetings under AB 361 and that state officials have imposed or recommended measures to promote social distancing in connection with COVID-19 and that as a result of these considerations and findings, meeting in person or pursuant to traditional teleconferencing rules would impose risks to the health or safety of attendees and that teleconference meetings under AB 361 should continue.

### **BACKGROUND/DISCUSSION:**

Traditionally, the Brown Act allows for teleconference or virtual meetings, provided that the physical locations of the legislative body’s members joining by teleconference are posted on the agenda, that those locations are open to the public and that a quorum of the members is located within its jurisdiction. AB 361 provides an exception to these procedures in order to allow for fully virtual meetings during and after proclaimed emergencies, including the COVID-19 pandemic. Now that the state and county state of emergency declarations are over, the Committee may continue to meet remotely pursuant to AB 361 if it makes both of the following findings:

- The Committee has reconsidered the circumstances of the prior states of emergencies; and
- State officials continue to impose or recommend measures to promote social distancing.

COVID-19 continues to present a threat to the health and safety of Committee members, and its personnel. Although vaccines are now widely available, many people in the State and County are still not fully vaccinated and remain susceptible to infection and the vaccinations have not proven successful in stemming the spread of COVID-19. In recent months both the rate of persons testing positive (currently at 9.4% of people testing positive) Covid-19 hospitalizations continue and an average of 16 people die from Covid-19 each day, up from 11 people last month. Additionally, several Committee members attend meetings in medical facilities or offices and allowing members of the public to attend meetings at these posted locations when they may not be vaccinated would pose a threat to the health or safety of attendees. Further, on February 3, 2023, a new set of non-emergency COVID-19 prevention regulations were issued by Cal/OSHA which carry over some of the same requirements imposed by earlier regulations, including social distancing measures. These new measures will continue to be imposed, unless changed, until February 3, 2025. Thus, facts supporting the continued findings exist.

As such, it is recommended that the Committee should make the findings and determine that teleconferencing under AB 361 will promote and protect the public's health, safety and welfare.

**CONSEQUENCES OF NOT FOLLOWING RECOMMENDED ACTION:**

The Committee will have to follow the Brown Act provisions that existed prior to the COVID-19 pandemic.

**FOLLOW UP ACTION:**

That the Committee make the findings under AB361 at the November 14, 2023 meeting.
