### FORMAL ACTION

### 2. September Year to Date Financial Results

Staff: Sara Dersch, Chief Financial Officer

RECOMMENDATION: Receive and file the report.

CFO Dersch stated that we are exactly where we thought we should be, and we continue to be a fiscally healthy organization. Our TNE as of the end of September is 358.8 million and the state required TNE is 37.2 million. We do have a 700% TNE requirement now that was approved by this commission last June, and that required TNE is \$260 million. That gives us approximately \$100 million in excess. Our results continue to demonstrate that we are managing this excess thoughtfully.

Highlights for September are that the revenue continues to fall short of our budget, which is driven primarily by the membership misses that we are having. However, the membership mix continues to be favorable.

We are almost caught up with everything that was backlog in claims processing and as a result we were able to relieve our IBNR/IBMP by \$10 million. In the month of September, because we were catching up, from a volume perspective, our total claims costs are going up, but we are not seeing anything from a PMPM perspective that would give us concern. September was a quiet month.

CFO Dersch noted that the project portfolio for OOTF is catching up and the future costs are approximating budget. We have the revised OPS of the future budget where we will be working those dollars into our total revised budget that will be presented soon.

Commissioner Abbas asked if the budget that was approved is not part of the September budget. CFO Dersch stated that is correct, those numbers will be included in our full revised budget.

CFO Dersch reviewed results by category by service. There is nothing to call out on the categories because this is a catch-up month and most of the line items are within where we thought they would be. She also noted that we will be bringing the reserve down by a few more million dollars, so she expects to see that inpatient unfavourability start to even out. From a medical cost perspective, we are exactly where we thought we would be.

The rate, actions, and advocacy for 2025 we do not have any additional news from the state yet. They are aggressively going back and recalculating 2025 rates. We hope that by mid-January we will have additional insight into positive improvements in those 2025 rates. The revised budget will be presented in the January commission meeting.

CFO Dersch stated that as part of our promise to complete transparency on how we are spending the OPS of the Future dollars, we have all the fiscal year to date vendors listed along with costs.

Commissioner Abbas motioned to approve the financials as presented. Commissioner Pupa seconded the motion.

### Roll Call Vote:

AYES: Commissioners Anwar Abbas, James Corwin, Anna Monroy, and Dee Pupa

NOES: None.

ABSTAIN: Commissioner Laura Espinosa

The clerk declared the motion carried.

### 3. Conversion of Fiscal Year

Staff: Sara Dersch, Chief Financial Officer

RECOMMENDATION: Approve the plan to convert the fiscal year to follow the calendar year.

CFO Dersch stated that we currently have a fiscal year that begins on July 1 and ends on June 30<sup>th</sup>. This is the fiscal year that the state and DHCS used to follow for rate development. It is a best practice from an organizational perspective to have the fiscal year mirror the business cycle. Our business cycle is now January 1 to December 31<sup>st</sup>. Our rates are effective January and go through December 31<sup>st</sup>. This is the same business cycle that Medicare is on. In addition, we have regulatory reports that follow that same fiscal year cycle. We are recommending that we adopt a new fiscal year by

adopting the calendar year. There are no risks with this. We will have what is called a stub year. This current fiscal year will end on June 30<sup>th</sup>. July 1 through December 31<sup>st</sup> will have a shortened fiscal year, a step period. We will have an audit on the six-month period and will have an approved budget at time. We will then have a new budget that will be effective January 1 through December 31. This will change our annual budgeting cycle. We want to try to get the budget approved earlier in the year. This change will also allow us to better prepare fiscally for the new year, get our accounting set up, get reporting set up, get resources set up so that we have more than just a few days to make any changes we might need to make.

We will also work with Mr. Aguilar and his team on moving performance goals to follow the new fiscal year. CFO Dersch also noted that approximately half of the local plans have already made this conversion.

Commissioner Pupa stated that she would gladly do this with her plan, but because they are government, and their budget is on a fiscal year, but everything else with DMHC is on a calendar year.

Commissioner Abbas motioned to approve the conversion of the fiscal year as presented. Commissioner Monroy seconded the motion.

### Roll Call Vote:

AYES: Commissioners Anwar Abbas, James Corwin, Anna Monroy, and Dee Pupa

NOES: None.

ABSTAIN: Commissioner Laura Espinosa

The clerk declared the motion carried.

### 4. FY 2024-25 Duals Special Needs Plan (D-SNP) Revised Operational Readiness Costs

Staff: Eve Gelb, Chief Innovation Officer Sara Dersch, Chief Financial Officer Robert Franco, Chief Compliance Officer

<u>RECOMMENDATION:</u> It is GCHP's recommendation that the Executive Finance Committee recommend the Ventura County Medi-Cal Managed Care Commission to approve up to \$5.3M additional budget for D-SNP operational readiness for the remainder of the 2024/2025 Fiscal Year.

CIO Gelb stated that they will be presenting on right-sizing the D-SNP budget. She stated that she would like to shar the regulatory schedule. She noted that we are on track and moving quickly.

CCO Franco stated that with the onset of the D-SNP program all the plans have created subgroups for compliance operations and the administration of it. All plans are doing something similar to one another. We are all under the same timeline and at about the same place as well. We are making good progress.

CIO Gelb stated that we have filed our notice of intent to apply to CMS, and this is non-binding. This is a very important step because it gets us access to HPMS, which is basically how you submit and get things from Medicare.

We have filed the notice, and we have been given our contract number, which drives everything else that we do from here. The next two things coming up is submission of our Model of Care and our application to CMS which includes our network. Everything in terms of our regulatory filing is on track.

We would like to focus on the operational systems and status. Regulatory, we have two; main work streams all the regulatory things we must do and then all of the operational things we have to do while the regulatory items are all on track, the operational things, it is a mix. There are some things on track and some that are slightly behind. We have slight delays, and they will be on track in the next week, and there are some things that are more delayed.

We have held out kickoff for our PBM, that started this week. Contracts are in place. We are close to getting our vision provider as well as our behavioral health provider. We have skilled nursing facilities, contracted dialysis facility and hospitals contracted. We also have software which will determine our network adequacy so that we can work to fill the gaps. There is a requirement with the state that we would have a 90% crossover with our medical network for primary care. We are also on track is our bid planning and financial system build. The approval to switch to an annual financial cycle is a great step in this process because all reporting happens this way.

Milliman will be working with us to develop our bid and will be bringing that bid to this committee and to the Commission in April.

Our Model of Care design is a very complex structure with lots of rules and regulations. It is how you build the care delivery and provider network and measure your quality. We have completed out initial review.

The other item that has a slight delay is benefit design. This delay we intentionally slowed things down because we wanted to get feedback from our members. We are

trying to balance and deliver what is going to be meaningful to our members. We must do all that before the bid. We will have three cycles of the bid – the initial bid, a next bid and the final. The middle bid will be presented to this committee for review and feedback. Supplemental benefits will also get adjusted after CS releases certain benchmarks. If CMS releases something that says you need to spend more money, then we rachet up on the supplemental benefits, if they say we are over the benchmark then we rachet down.

CIO Gelb reviewed risks, issues, and lessons learned from OOTF. She then reviewed the mitigation plan which included avoiding delays by bringing in subject matter expertise and bandwidth by hiring D-SNP staff sooner than originally planned. CIO Gelb that reviewed the staffing proposal which is a total of twelve D-SNP hires in the 2024/2025 fiscal year. She also reviewed the proposed fiscal year 24/25 additional budget request for Operational readiness success. The revised budget will range from \$7.1M to \$7.6M, depending on the need for a Third-Party Administrator for core operations.

Commissioner Pupa motioned to approve the D-SNP revised operational readiness costs as presented. Commissioner Corwin seconded the motion.

## **Executive Summary**

### December YTD Results

- Premium revenue variance of \$5.4M driven by lower membership offset by slight rate favorability
- Investment income continues to be favorable to budget
- Medical cost unfavorability is primarily result of Dignity contract combined with PCP and Mental Health
- We continue to release reserves as a result of prior months' claims "completing" at lower-than-projected ı

### FY2024-25 Revised Annual Budget

- The Revised Budget is built using July through December actuals and January through June projections; we refer to this as a "6+6" view
- modified rate development methodology by the State has resulted in premium rate increases for half of our Categories of Aid; overall revenue impact is an 8% increase over original projected rates of roughly \$10M Emerging experience not known at the time of the 2024 calendar year rate assignment combined with a ١
- Revised medical cost projections are influenced by a combination of increased PCP utilization and revised contractual rates with providers; note: medical loss ratio remains healthy at 89.0% I
- Administrative costs have increased primarily as a result of:
- o continued refinement of Operations of the Future (OOTF)
- a more-informed development of our Medicare launch
- expansion of Call Center staff

### **AGENDA ITEM NO. 3**

TO: Executive Finance Committee

FROM: Felix Nunez, Acting Chief Executive Officer

DATE: January 23, 2025

SUBJECT: Advance Payment Agreement to County of Ventura

### **Summary and Background**

Gold Coast Health GCHP (GCHP) management seeks approval to provide an advance payment to the County of Ventura, for its Health Care Agency (VCHCA). This Advance Payment Agreement (APA) would be effective January 28, 2025. The APA would specify terms for a one-time payment in the amount of twenty-six million dollars (\$26,000,000.00) made by GCHP to the County of Ventura as a payment made in advance of VCHCA services to be performed pursuant to the primary care provider, specialist, and hospital Provider Agreements and GCHP's complete processing of applicable claims. This funding is allowable for reasons stated below, including that it is to a governmental entity for the public purpose of supporting the continued operation and viability of a Safety Net Provider, which is essential to the ability of GCHP to provide an adequate network for its members.

The APA details an Advance Payment that would be fully recouped within a five-month period. The Advance Payment would support VCHCA's critical operational expenses and is necessary due to a cash flow strain impacted by delays in supplemental funding reimbursement from the State of California.

Major terms of the APA are as follows:

- A one-time Advance Payment would be made on February 1, 2025.
- The funds will be recouped from VCHCA in April, May, and June of 2025.
- GCHP will offset against the Advance Payment from capitation payments, fee-for-service
  payments relating to claims submitted or processed for payment, or any other amounts
  due to VCHCA for the applicable month.
- The maximum offsets for each month are:
  - o April 2025: \$2,000,000
  - May 2025: \$12,000,000
  - o June 2025: \$12,000,000
- If the advance payment has not been fully repaid by June 30, 2025, upon the written request of GCHP, VCHCA shall within thirty days of such request pay to GCHP the amount necessary to repay the Advance Payment in full. In addition, GCHP may continue to offset any unpaid amount against capitation payments, fee-for-service payments

- relating to claims submitted or processed for payment, or any other amounts due to VCHCA for subsequent months.<sup>1</sup>
- To reimburse GCHP for the additional costs of administering this Advance Payment, a fee of \$297,000 will be assessed and offset from payments due to VCHCA starting in April 2025.
- The APA requires GCHP and VCHCA to collaborate in strategic planning activities and permits the GCHP CEO and the VCHCA Director to establish a Strategic Planning Collaborative with the goal of improving and advancing the health care system, specifically hospital services, in Ventura County.

This Advance Payment Funding Agreement does not constitute a gift of public funds because (1) the funds advanced will be fully recouped within five months as described above, and (2) the advance payment includes an administrative fee that was calculated to account for any lost opportunity cost associated with investment of GCHP reserves and related costs. Therefore, the temporary advance of funds from GCHP reserves is not anticipated to result in lost revenue or additional costs to GCHP. Even if the administrative fee were insufficient to cover all costs associated with the advance payment, the payment would not be considered a prohibited gift of public funds because, as described above, the funding is to a governmental entity for a public purpose (Cal Const art XVI, Section 6, *City and County of San Francisco* (1932) 216 C 187, 193), and further such funding further serves a purpose of GCHP, the donor agency. (Golden Gate Bridge & Hwy. Dist. v. Luehring, 4 Cal.App.3d 204 (1970).)

This request for an advance on capitation and claims payments is specifically within the authority and purpose of the Commission. The statutory purpose of the Commission is to "meet the problems of the delivery of publicly assisted medical care in the county and to demonstrate ways of promoting quality care and cost efficiency." (Welf. & Inst. Code §14087.53.) The County Board of Supervisors ordinance establishing the Commission requires the Commission to, among other things, implement "reimbursement mechanisms which promote the long-term viability of a locally operated Medi-Cal managed care system and the existing participating provider networks inclusive of 'Safety Net' providers herein defined as Medi-Cal disproportionate share hospitals, county clinics, federally qualified health centers, and licensed rural health clinics" (Ord. 4613, Art. 6, 1380-4(c).).

### Financial Impact

The Advance Payment will result in a temporary reduction in GCHP's reserves. This is not anticipated to have additional financial impact as the administrative fee was calculated to mitigate direct and opportunity costs of providing the advance amount.

<sup>&</sup>lt;sup>1</sup> This Advance Payment would not be subject to VCHCA's ability to satisfy repayment of any loans or other outstanding payments it may have because it will be directly offset by amounts due to VCHCA by GCHP in future months.

### **Recommendation**

The GCHP recommends that the Ventura County Medi-Cal Managed Care Commission authorize the CEO to execute the Advance Payment Agreement in the amount of \$26,000,000 with the County of Ventura.
