Memorandum

To: Gold Coast Health Plan Providers

From: Vicki Wrighster, Senior Director of Provider Network Operations

Re: **GCHP Medicare 101 Webinar**

Date: September 15, 2025

On Oct. 1, 2025, Gold Coast Health Plan (GCHP) will be launching a Dual Special Needs Plan (D-SNP) – also known as a "Medi Medi" plan – for those with both Medi-Cal and Medicare benefits and will begin serving new members on Jan. 1, 2026.

GCHP has scheduled a series of general training sessions covering Medicare and Medicare Advantage to help providers gain a foundational understanding of the product GCHP will begin offering to members starting next month.

In Oct. 2025, we will be hosting a second round of webinars focused specifically on GCHP's new D-SNP. These sessions will provide insight into program structure, member benefits, and operational expectations.

We encourage your teams to attend trainings this month and next month to prepare for the upcoming launch. Your participation in these sessions is vital to helping us develop subsequent training sessions and/or materials to meet your needs as providers.

We look forward to your participation in our upcoming webinars!

If you have any questions, please email ProviderRelations@goldchp.org.
