Re: **DHCS Office Hours: Data Sharing for Enhanced Care Management and Community Supports**

Date: Nov. 30, 2022

Gold Coast Health Plan (GCHP) would like to share the upcoming state Department of Health Care (DHCS) virtual Office Hours featuring information on California Advancing and Innovating Medi-Cal (CalAIM). The event is scheduled for Thursday, Dec. 1, 2022, from 2–3 p.m., and will discuss “How Organizations Are Sharing Data for Enhanced Care Management (ECM) and Community Supports (CS).”

This event is part of a series of Office Hours events, which focus on answering implementation questions from the field. Throughout the series, DHCS leaders will be joined by panelists, including Managed Care Plans (MCP), providers, and community-based organizations implementing CalAIM. Panelists will answer questions posed by participants during the office hours session, received in previous webinars, and submitted via email or the registration page prior to the meeting.

DHCS strongly encourages MCPs, providers, and community-based organizations to participate in these Office Hours sessions. Attendees will have an opportunity to ask questions during the session. Advanced registration is required. **To register, [click here](#).**
