PROLOGO

La ***Lista GCHP de Medicamentos Cubiertos*** està organizada por secciones. Cada sección esta dividida por tipos de fármacos terapéuticos definidos principalmente por el mecanismo de acción. A menos que estén señaladas las excepciones, las formas de dosificación de aplicación general y puntos fuertes del medicamento citado se incluyen en la lista ***GCHP de Medicamentos Cubiertos***. **Los Medicamentos Genèricos deben ser considerados la primera línea de prescripción.**

Los medicamentos representados en la ***Lista GCHP de Medicamentos Cubiertos*** pueden tener costos variables para el miembro del plan basados en la estructura de beneficios del plan. Los medicamentos Genèricos por lo general, estan disponibles al menor costo, los medicamentos de marca en la ***lista GCHP de Medicamentos Cubiertos*** por lo general cuestan mas que los genéricos, y los medicamentos de marca que no están en la lista por lo general son los que cuestan mas.

COMISION TERAPEUTICA Y DE FARMACIA (P&T)

Los servicios de **GCHP Comision Terapeutica y de Farmacia ("Comision P&T")** son utilizados para aprobar medicamentos de terapia seguros y clínicamente efectivos. La Comision P&T es un organismo externo consultivo de expertos. Los miembros del Comité P&T con derecho a voto incluye médicos y farmacéuticos, los cuales tienen una amplia base de experiencia clínica y academica en relación a los medicamentos recetados. Los empleados con experiencia clínica significativa estan invitados a reunirse con el Comité P&T. Los miembros del Comité P&T con Derecho a Voto deben revelar cualquier relación financiera o conflicto de intereses a los fabricantes de productos farmacéuticos.

SUBSTITUCION GENERICA

La substitución Generica es una acción de farmacia en la cual se dispensa una versión genérica en vez de un producto recetado de marca. Sin embargo, no todas las formas de dosificación o concentración del nombre genérico puede ser disponible. La ***Lista GCHP de Medicamentos Cubiertos*** es una lista obligatoria de medicamentos genericos. Asi que cuando un medicamento genérico esta disponible en lugar de uno de marca, es agregado. Y si el agente de marca era parte de la lista de medicamentos cubiertos, el agente de marca será removido de la lista de medicamentos cubiertos.

Los medicamentos Genericos tienen por lo general un costo mas bajo que sus equivalentes de marca. Los Medicamentos Genericos son:

- Aprobados por la Administracion de Comida y Medicamentos de los U.S.A. para seguridad y efectividad, y son fabricados bajo los mismos estándares estrictos que se aplican a los medicamentos de marca.
- Probado en seres humanos para asegurarse de que el genérico se absorbe en el torrente sanguíneo en un ritmo y grado similar en comparación al medicamento de marca (bioequivalencia). Los genéricos pueden ser diferentes en tamaño, color, e ingredientes inactivos, pero eso no altera su efectividad o habilidad para ser absorbidos como los medicamentos de marca.
- Son fabricados en la misma dosis y concentracion que los medicamentos de marca.
- Cuando se substituye un medicamento genérico por uno de marca, puede esperar que el genérico produzca los mismos efectos clínicos y perfil de seguridad que el medicamento de marca (equivalencia farmacéutica).

DISEÑO DE PLAN DE ESPECIALIDAD

El programa de administración de utilización esta disponible para todas las áreas terapéuticas dispensadas por nuestras farmacias especializadas. SGM esta diseñado para asegurar la seguridad y eficacia evitando al mismo tiempo la utilización fuera de las pautas. Los medicamentos que podrían estar incluidos en el programa SGM estan identificados en la ***Lista GCHP de Medicamentos Cubiertos*** bajo el titulo de "Especialidad" para su referencia. SGM también se puede combinar con el Manejo de Inventario/Optimizacion de la Dosis y Mezcla Optima de medicamento a través del Diseño Especializado de Alto Rendimiento para administrar adecuadamente los medicamentos especializados.
