

VERIBOX

You get what you order!

VERIBOX makes the supply chain an essential component of product protection.

Continuous recording:

- Unauthorized package opening
- Unauthorized replacement of the product
- Tampering of the product
- Environmental parameters e.g. temperature, humidity, shocks

Generated data are stored using the blockchain technology.

One scan is enough to verify the box at any time.

The applications and our market go beyond basic product shipping!

- Pharmaceuticals
- Food
- Critical spare parts (car, truck)
- Lubricants
- Paints
- Personal hygiene
- Clothes
- etc.

VERIBOX

That's how it works!
