

SafePark 2.0

A brand new parking experience

SafePark digitalizes parking, enabling a completely new parking experience full of added extras.

SafePark provides a brand new parking experience, including:

- Simple parking reservations with just 2 clicks
- Parking overview with real-time prices
- Transparent pricing
- Digital tickets (which can't be lost)
- In App payments and billing
- Additional local services

SafePark can't do the parking for you, but can transform it to a most simple and rewarding experience.

SafePark is myData enabled! The customer can control and manage the flow of their data at any time, thus allowing them to create their own personal parking experience!

SafePark 2.0

A brand new parking experience!
