SUMMARY

I currently pursuing BCA specializing in Data Analytics with a strong foundation in Python, SQL, and Machine Learning. Eager to apply problem-solving and analytical skills to extract meaningful insights from data. As a student, I pride myself on being hardworking and determined.

INTERNSHIP

GOOGLE AI-ML Virtual Internship (Cohort 11)

EduSkills Foundation | January 2025 – March 2025

- Explored core concepts of Artificial Intelligence and Machine Learning.
- Built real-world ML models and worked on hands-on AI -based projects.

ALTERYX Data Analytics Process Automation (Cohort 10)

EduSkills Foundation | October 2024 – December 2024

- Learned data preprocessing, transformation, and automation using Alteryx Designer.
- Built dashboards and reports using Alteryx BI + visualization tools.

SKILLS

- **Technical Skills**
 - **Languages:** Python, SQL, JavaScript, HTML, CSS
 - **Databases:** MongoDB, DBMS
 - **Libraries:** Pandas, NumPy, Scikit-learn, ExpressJS, React, Node
 - **Tools & Platforms:** Alteryx, Node.js, Socket.io, Git, Excel, PowerBI

EDUCATIONS

- **Bachelor of Computer Application - Data Analytics**
Galgotias University, Greater Noida | Expected Graduation: 2026
Focus: Problem Solving, Teamwork, Data Analytics, Programming Languages

PROJECTS

1. **MegaBasket – FullStack Ecommerce Website – August, 2025**
Framework: React, NodeJS, MongoDB, ExpressJS
A full-featured, responsive e-commerce platform with user, admin, cart, order tracking, and all required functionality for customer & Admin.
2. **Real Time Chat Application – July, 2025**
Framework: React, NodeJS, MongoDB, Socket.io
A real-time chat application enabling instant messaging, profile creation, and user status tracking.
3. **DataVisCSV - CSV Data Visualizer – June, 2025**
Skills: Chart.JS, PapaParse, JavaScript, HTML
A browser-based tool for visualizing CSV data as interactive charts, graphs, and tables.
4. **Email Spam Detection – May, 2025**
Skills: Python, Machine Learning, Pandas, NumPy
Built a machine learning classifier to detect spam emails with accuracy evaluation.
5. **Weather Data Visualization – May, 2024**
Skills: SQL, DBMS
Managed and visualized weather datasets using database queries and reporting tools.

PERSONAL INFORMATION

- Date of Birth : 12 JAN, 2005
- Language Known : English & Hindi
