Business Unit	Country	Status	Patent Number	Sold to Customer Today	Product	Product Description
Alltrista	United States	Granted	8,561,281	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
Alltrista	United States	Granted	7,214,286	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
Alltrista	United States	Granted	11,286,316	YES	Pill Bottles	A molding process for fast and high crystallinity HDPE bottles with low moisture vapor transmission for storing solid medicinal pills.
Alltrista	United States	Granted	7,950,127	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
Alltrista	United States	Granted	12,226,939	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
Alltrista	United States	Granted	9,511,370	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	8,741,236	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	9,844,781	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.

Alltrista	United States	Granted	10,350,604	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	8,808,644	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	9,846,172	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	10,324,102	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	10,722,890	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	10,725,063	NO	Microplate Covers	Microplate covers ensure that adjacent wells in a microplate are not cross contaminated while transferring different fluid into or out of wells using a pipette.
Alltrista	United States	Granted	12,037,470	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
Alltrista	United States	Granted	11,578,151	YES	Pill Bottles	A molding process for fast and high crystallinity HDPE bottles with low moisture vapor transmission for storing solid medicinal pills.
Alltrista	United Kingdom	Granted	2611612	YES	Suture Trays	Plastic molded tray used to store a sterile suture thread connected to a needle for closing wounds by a health professional or doctor.
