PURCHASING THE RIGHT PILLOW FOR YOU

We think of pillows as "the bed for your head" because that's how important they are to getting the best nights rest possible. Our Sleep Experts can match your sleep style (the most common position you sleep in) with a pillow that offers you all the support you need. What's more, unlike other pillow retailers, you can actually try them out on a mattress inside our stores to feel the differences for yourself.

Your Bed

You spend around 8 hours a night asleep, which equals about one third of your life. As such, you should LOVE your bed!

Unwind + Relax

Your body needs time to wind down. Create a bedroom routine that relaxes you. Experts recommend reading a book, listening to soothing music or soaking in a hot bath.

Pillow Talk

Depending on your sleeping position, additional pillows can help keep your spine in proper alignment. The pillow for your head should comfortably support the natural curve of your neck.
